GOVERNMENT OF INDIA.  
DEPARTMENT OF FINANCE AND COMMERCE.

**EXPENDITURE ON THE ADMINISTRATION OF CIVIL JUSTICE IN INDIA.**

No. 101, dated Calcutta, the 9th January 1890.

**RESOLUTION**—By the Government of India, Department of Finance and Commerce.

1. A question having been raised as to the extent to which the cost of the administration of Civil Justice in British India was met by the revenue derived from Court-fees and other receipts of Civil Courts, the Government of India issued instructions for the preparation of as complete and accurate a statement of the receipts and charges of Civil Courts for one year as was practicable. The enquiry was first undertaken in the beginning of 1886, and the figures now published are therefore those for the calendar year 1885. It has taken longer than was anticipated to collect all the required information, but it is believed that the figures, though not up to date, sufficiently illustrate the question in dispute.

2. The undermentioned items were to be included in *Receipts* :—

(a) Receipts in Court-fee stamps :

This item was to represent the value of all Court-fee stamps filed in Civil Courts with complaints or petitions, and in connection with the service of processes. The value of the Court-fee stamps on probates, letters of administration, and certificates was not to be included.

(b) Receipts in cash :

This item was to include all cash receipts finally credited to Government. Amounts which are merely paid into Court in order to be paid away again, such as diet money for witnesses or sums paid in proceedings for the execution of decrees, were not to be included.

3. The undermentioned items were to be included in *Charges*:—

- (a) The whole of the salaries of officers and establishments and the contingent and other expenditure of Courts which, like Small Cause Courts, are engaged solely in the administration of Civil Justice.
- (b) A share of the salaries of officers and establishments and of the contingent and other expenditure of Courts which are engaged only partly in the administration of Civil Justice. It was stated that the share might be determined in proportion to the time devoted by the Courts to civil work, but that each Local Government should determine it on principles which seemed to it fair.
- (c) A share of the cost of the Stamp establishment.
- (d) A share of the discount on the sale of Court-fee stamps.
- (e) The refunds of Court-fee stamps used in Civil Courts.
- (f) A share of the expenditure on "Law Officers."
- (g) A share of the cost of pensions and leave allowances of officers who have been engaged during any portion of their service in the administration of Civil Justice.
- (h) The rent actually paid, or, in the case of buildings which are the property of Government, a fair rent (according to the Public Works Department valuation of the building) for the buildings or portions of buildings used by Civil Courts.
- (i) Cost of stationery and printing for the several Courts.

4. Statements were prepared in accordance with these instructions, in the first instance, by the Local Governments, and these were afterwards subjected to a careful examination in the offices of Account. The figures thus obtained, with some further corrections made on account of the cost of pensions, and, omitting the expenditure on Law Officers, whose share as legal advisers of the Government in the administration of Civil Justice is too indirect to be taken into consideration, are set out in the appended statement. The result is shown to be that in Bengal only is there a surplus, which amounts to 14½ lakhs; in Madras the receipts and charges are practically equal; and in all other Provinces the charges are much in excess of the receipts, so that the deficit on the whole account exceeds 12½ lakhs.

5. The calculations are extremely intricate, and, notwithstanding the labour that has been bestowed on them, the results can only be considered to be approximately correct. If the full measure of the expenditure involved in the administration of Civil Justice could be shown, it is probable that the deficit would be somewhat greater than that now obtained: for instance, item (h), Rent for buildings used by the Courts, should apparently be increased in some instances; the estimated annual rents for the Calcutta High Court and Small Cause Court buildings given by the Public Works Department, and included in the abstract, being Rs68,000 and Rs14,400, while the Municipal assessment for those buildings, in accordance with which taxes are paid, is Rs84,000 and Rs24,000 respectively. There are, moreover, certain charges which have not been included, such as the cost of Police guards, Treasury charges, share of rent of Stamp offices, and the cost of manufacturing and despatching from England the stamps by which the revenue is realised.

---

ORDERED, that this Resolution be published in the *Gazette of India*.

GOVERNMENT OF INDIA.  
REVENUE AND AGRICULTURAL DEPARTMENT.

## Weather Review of India for the week ending at 8 a.m. on Monday, December 30th, 1889.

The weather during the week under review has been unsettled over the southern half of the Indian region, and these unsettled conditions have extended to a limited extent up the Bay into Bengal and up the Irrawaddy Valley into Upper Burma. The depression which occasioned this disturbed weather was apparently at no time very serious, though at Masulipatam and Vizagapatam the abnormal depression of the barometer amounted to as much as two-tenths of an inch. The centre of the storm hung about the Madras coast from the 24th to the 26th, and then in a very feeble condition crossed the coast and passed to the west of Madras. As is frequently the case when a depression of any magnitude occurs off the Madras coast, abnormally low readings appeared off the Malabar coast, and within this low pressure area a feeble depression seems to have been formed and drifted slowly northward along the west coast of the Peninsula. The wind shifted to the south-eastward of the Bombay coast and blew freshly at some stations, but the storm was either feeble or at a considerable distance from the shore, as the weather, except to the south of Mangalore, was very little affected by it.

The chart of the 24th showed that the depression noticed at the close of the previous summary was close to the Madras coast, the lowest pressure reported being 29.80 inches at Coconada. Strong cyclonic winds prevailed over the western half of the Bay, the sea was rough, and the sky in places overcast, though the only rain reported was a slight shower at Gopalpore. On the 25th the centre had advanced slightly inland, the lowest reading of the barometer (29.774 inches) being still reported from Coconada. Cyclonic winds strong to a gale continued, and overcast weather with drizzling rain was reported from the Circars coast. Very cloudy and rather unsettled weather was also reported from Bengal, but with the exception of these two regions the weather over India was unaffected by the disturbance and was very fine. The depression filled up quickly during the night of the 25th, and on the morning of the 26th the centre appeared to be moving slightly south-westward. Strong squally winds continued to prevail on the Circars coasts and the weather was cloudy and unsettled in Madras and Bengal. On the 27th the storm had almost filled up. It had apparently continued to move south-westward and the observations of wind and barometer seemed to show that the centre lay just to the west of the station of Madras. At the same time a fresh but very slight depression had appeared off the west coast. The winds were irregular over the Peninsula and the Bay area, with a feeble cyclonic movement around a centre between Bangalore and Madras. The force was still fresh at some Madras stations, and at Bombay the wind had risen. By the morning of the 28th the storm from the Bay had disappeared, while that off the west coast was drifting slowly northward. A large high pressure area was reported from Northern India. The wind directions were fairly normal, while the force was still fresh at Bombay. The chart of the 29th showed that the west coast depression had left the neighbourhood of the Indian coast though there were still evidences of its existence in the winds and pressure at Bombay, Rajkot and Karachi. The barometer was falling everywhere, but the general distribution was unchanged. On the 30th the barometer was rising except in North-Eastern India where it was falling slowly. The general distribution and the winds were fairly normal.

*Temperature.*—The high temperatures which prevailed last week have continued and intensified during the week under review. In Bombay on the 24th,

in the Central Provinces on the 24th, and in Central India on the 27th and 28th the mean temperature was somewhat below the normal average of those days, but in all other provinces on all days and in the above provinces on all other days than those quoted the mean has largely exceeded the normal. In Bengal on the 25th the excess was as much as 7° 5.

The following table shows the variations of the mean temperature of the present and of the past week from the normal average :—

PROVINCES.	Difference of mean temperature of last week from normal.	Difference of mean temperature of present week from normal.
	o	o
Burma . . . . .	+0'2	+3'3
Bengal . . . . .	+1'4	+4'6
North-Western Provinces . . . . .	+2'7	+2'3
Punjab . . . . .	+4'1	+3'2
Bombay . . . . .	—0'5	+1'0
Central Provinces . . . . .	+2'3	+1'0
Guzerat and Central India . . . . .	+2'9	+1'1
Sind and Rajputana . . . . .	+3'7	+2'3
Madras . . . . .	—0'4	+3'9

This table shows that compared with the average there has been a considerable rise of temperature over Burma, Bengal and the Indian Peninsula and a slight fall elsewhere. During a large part of the week the night temperatures in Arrakan, Bengal, Orissa and part of the Peninsula were remarkably high, probably owing to the cloudy weather.

*Rain.*—The general distribution of rainfall is similar to that reported last week, *i.e.*, the fall has taken place over parts of Burma, Bengal and the east and south of the Peninsula, while none has occurred elsewhere. The amounts reported are, however, generally lighter, and there is by no means the same amount of excess in Madras as there was last week. The week's rainfall so far as it has extended has, however, been good, nearly all districts reporting an excess. The following is a brief account of the daily distribution.

On the 24th the only rain reported was slight showers in Upper Burma, Tipperah, and Gopalpore. On the 25th showers were reported from Tenasserim, several districts in Upper Burma, from Sylhet, from one or two places in Central Bengal, and from Vizagapatam. On the 26th rain continued in Upper Burma, and was also falling in East Bengal and Khoolna. It had extended in Madras and had commenced in the south of the Peninsula. On the 27th a similar distribution obtained except that the fall had ceased in Bengal and had extended and become heavier over the Peninsula. On the 28th there was again very little change, but on the two following days there was hardly any rain.

From this it will be seen that over the greater part of Bengal, the whole of Behar, the North-Western Provinces, Oudh, the Punjab, the Bombay Presidency, the Deccan, the Central Provinces and Rajputana there was no rain whatever during the week. The deficiency in the majority of these districts is not large, but the total deficiency for the season in several parts of Northern India is becoming large.

In Burma the districts of Tenasserim, Lower Burma, and Arakan have all had slightly more than the normal for the week. In Eastern and Deltaic Bengal there is also a trifling excess. Malabar, Madras (South Central) and Mysore—all received good rains, but in the east of the Peninsula the distribution was less regular, thus the East Coast (North, Central and South) and Madras (Central) received more rain than usual, while Hyderabad (South) and Madras (South) had less than the normal amount.

The final column of the table shows that the seasonal deficiency in Madras continues to decrease but that in Northern India there is still no alteration.

SIMLA, 2nd January, 1890.

W. L. DALLAS,  
Assistant Meteorological Reporter to the  
Government of India.

## GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

## Weekly Report on the State of the Season and Prospects of the Crops.

**Madras.**—*For week ending 4th January.*—No rain in Ganjam, Godavari, Kistna, Bellary, Anantapur, Kurnool and Madras; slight elsewhere. Crops generally good, but feeling want of rain in limited portions of Nellore, Chingleput, South Arcot, Tanjore, Salem and Coimbatore, and over considerable areas in Madura and Tinnevely. Prices generally falling or stationary. General prospects fair.

**Bombay.**—*For week ending 8th January.*—Standing crops generally good except where suffering for want of rain in parts of the Deccan or damaged by locusts in parts of Sind. Cotton prospects favourable except in parts of Broach. Harvesting and sowing operations progressing. Fodder generally sufficient and agricultural stock good.

**Bengal.**—*For week ending 7th January.*—No rain; weather fine throughout the week. Winter rice harvest almost over, and the outturn, as previously reported, generally fair, except in parts of Western and Central Bengal, the sudder sub-division of Balasore, and the Palamow sub-division of Lohardugga, where it is considerably below the average. In parts of thanas Balasore and Soro in the sudder sub-division of Balasore the failure of the rice crop has been very complete, and some relief measures may be necessary. The *rabi* crops are generally in good condition, but in Behar a shower of rain would do much good. Poppy progressing well, except in the Hajipore sub-division of Mozufferpore, where the later sowings will be almost a complete failure. Sugarcane promises to be a fair crop on the whole, although in certain quarters a deficient outturn is expected. Tobacco doing well, as also *ganja* in the Rajshahye district. Price of rice has fallen in many districts, but from some districts in Behar a slight rise has been reported during the week.

**North-Western Provinces and Oudh.**—*For week ending 8th January.*—The weather is dry and seasonable and the *rabi* crops are still thriving, though rain is much needed in parts. Food stocks are ample and fluctuations in prices unimportant.

**Punjab.**—*For week ending 8th January.*—No rain has fallen except a slight fall at Murree (Rawalpindi district). Prices rising in Rawalpindi, Shahpur and Peshawar, unsettled in Delhi, and stationary elsewhere. Sowing and weeding of *rabi* crops going on. Rain badly wanted throughout the Province. Prospects of standing *rabi* crops are said to be average. Crops are now suffering from drought in some districts. Crops slightly damaged by locusts in Zira, district Ferozepur. Fodder sufficient except in Peshawar. Poppy weedings going on in Jullundur.

**Central Provinces.**—*For week ending 8th January.*—Weather clear and cold. Harvesting of *kharif* crops nearly completed; outturn good. Rain is required everywhere for wheat, especially in Saugor and Bilaspur. Prices generally steady.

**Burma.**—*For week ending 4th January.*—No rain. The crop prospect continues to be good in Lower Burma. In Upper Burma the crops are generally good; but in Shwebo the yield will be short. The price of paddy has fallen in Pegu, Shwegyin, Tavoy, Mandalay, Bhamo, Shwebo, Myingyan and Pokoku, and has risen in Katha; elsewhere prices are stationary or the changes are but slight.

**Assam.**—*For week ending 8th January.*—Weather cold and cloudy. Slight rain in all districts. Harvesting of winter rice and gathering of pulses continue. Tea pruning not yet finished.

**Mysore and Coorg.**—*For week ending 8th January.*—Slight rain reported in parts of Kadur, Shimoga and Hassan districts. Crops good. Prospects generally favourable. Harvesting continues in parts. Prices fallen slightly in the Bangalore district and risen somewhat in the Tumkur district.

Harvest still in progress in Coorg.

**Berar and Hyderabad.**—*For week ending 8th January.*—In Berar the weather is clear and cold. Reaping of *jowari* almost finished; threshing in progress. Cotton-picking continues. *Rabi* in good condition. Prices stationary. Fodder sufficient.

Rainfall '67 at Hyderabad during the week ending 1st January. Total since 1st January 1889, 38'37 inches. Harvesting of *abi* crops concluded; sowing of *tabi* commenced; *rabi* crops thriving. Rainfall of week rather injurious to standing crops. Prices stationary.

Rainfall '2 at Hyderabad during week ending the 8th January. Sowing of *tabi* crops in progress; *rabi* crops prospering. Prices stationary.

**Central India.**—*For week ending 1st January.*—Crops and prospects good, but in parts of Jhallawar they are slightly damaged by white-ants and winter rain is much wanted.

*For week ending 8th January.*—Condition of standing crops in Bhopal fair, except in Pathari where wheat is withering for want of rain. Only half the average outturn expected from crops in the Nimar pargana of Bhopawar. Winter rain wanted for crops on Ghâts.

**Rajputana.**—*For week ending 8th January.*—Agricultural operations satisfactory. Standing crops good, but rain needed in Kotah and Alwar. Agricultural stock generally good. Pasturage or fodder sufficient except in Marwar and Dholepore. Prices steady generally.

**Nepal.**—*For week ending 2nd January.*—No rain. Weather cloudy. Prospect of winter crops good. Rain wanted.

## STATEMENT OF OBJECTS AND REASONS.

IN different parts of British India there are more than twenty enactments in force relating to cruelty to animals, but the local extent of most of these enactments is very limited, while the necessity imposed by others of proving cruelty to an animal to have caused obstruction, inconvenience, annoyance, risk, danger or damage to the public renders it very difficult to maintain a prosecution.

The object of the present Bill is to provide an easily enforceable law which may be applied by any Local Government to any part of the territories under its administration, either in addition to, or to the exclusion of, any other enactment in force in such part for the suppression of cruelty to animals.

### PREVENTION OF CRUELTY TO ANIMALS BILL.

The Hon'ble MR. HUTCHINS also moved for leave to introduce a Bill for the Prevention of Cruelty to Animals. He said:—

"The printed Statement of Objects and Reasons which I will lay on the table along with this Bill is very concise, and as it will enable the Council to see at a glance the general purport of the proposed measure it may be convenient that I should commence what I have to say by reading it:

"In different parts of British India there are more than twenty enactments in force relating to cruelty to animals, but the local extent of most of these enactments is very limited, while the necessity imposed by others of proving cruelty to an animal, to have caused obstruction, inconvenience, annoyance, risk, danger or damage to the public renders it very difficult to maintain a prosecution.

"The object of the present Bill is to provide an easily enforceable law which may be applied by any Local Government to any part of the territories under its administration, either in addition to, or to the exclusion of, any other enactment in force in such part for the suppression of cruelty to animals."

"The very number of the enactments referred to shows that the Provincial Councils have given great attention to the prevention of cruelty to animals, and it is right that this should be cordially acknowledged. In Bengal there is a special Act (I of 1869) which also applies in Assam. The Madras Council has lately passed a Towns Nuisances Act, under which the provisions of section 53 and other sections of the Madras City Police Act connected with the same subject may be extended to towns and other areas beyond the limits of the presidency-town. The District Police Bill in Bombay contains somewhat similar provisions, and in the North-Western Provinces the Legislative Council has before it a Bill which repeats the provisions of the Bengal Act and seems intended to have general application. If these four provinces constituted the whole of British India, I should hardly have desired to press the matter further at present.

"But there are other important provinces which have no local Legislature, but depend for their laws on this Council. There are the Punjab, the Central Provinces and Burma, besides the minor Administrations in Ajmere, Coorg and Baluchistan. Apart from certain Imperial Acts relating to cruelty in cantonments or in connection with stage or hackney carriages, or with gambling, the only enactment of the kind in force in these provinces is section 34 of the Police Act (V of 1861), which runs as follows:—

"Any person who, on any road or in any street or thoroughfare within the limits of any town to which this section shall be specially extended by the Local Government, commits any of the following offences to the obstruction, inconvenience, annoyance, risk, danger or damage of the residents and passengers, shall, on conviction before a Magistrate, be liable to a fine not exceeding fifty rupees, or to imprisonment not exceeding eight days; and it shall be lawful for any police-officer to take into custody, without a warrant, any person who within his view commits any of such offences."

"And the second of such offences is this:—

"Any person who wantonly or cruelly beats, abuses or tortures any animal."

"It will be seen, first, that this section can only be extended to a town; secondly, that even within the limits of a town it cannot reach any act of cruelty, however barbarous, which is not committed on a road or in a street; thirdly, that it must have caused at least inconvenience to passers-by, and the tribunals are sometimes rather exacting with regard to the evidence of such inconvenience; and fourthly, that only actual beating, abuse or torture is made punishable. In all these respects the present law of the provinces in question is more or less unsatisfactory, and, as it can only be amended by the Supreme Legislature, I have thought it best to prepare a general law which can be adopted by any Local Government over such areas as it may from time to time consider expedient.

"I think what I have said will be enough to satisfy the Council that some measure of the kind is desirable. In these days fortunately there is no need to insist on the right—nay, the duty—of the Legislature to interfere for the protection of dumb animals, and the only difficulty which I feel, or which is likely to be felt by any Hon'ble Member here present, is whether cruelty to animals should be made a criminal offence in every case, or whether regard should be had to such considerations as the publicity of the place, the proximity of a Magistrate capable of disposing of the case, and the like.

"The English law on the subject is contained in 12 & 13 Vict., c. 92, and is of course perfectly general—any person who cruelly beats, and so forth, who keeps a place for baiting animals or causing them to fight, who so conveys an animal as to cause it needless suffering, shall forfeit and pay such and such penalties. And doubtless it is perfectly true that such brutality is equally deserving of reprobation and punishment, whether committed in public or in private, in a town or in a village, in the busy thoroughfares of a city or in a remote field in an agricultural district. But neither English law nor abstract morality is a safe index of what may properly be made penal in this country.

"No Provincial Legislature has yet ventured to pass a law of such general application as the English Statute. The habits of the people, the varying character of the agency by which the law will have to be enforced, the enormous size of the rural tracts, the paucity of competent tribunals—these and many other things have to be borne in mind, and therefore it is that most of the existing enactments can only be put in force in towns, while in all the Executive Government has retained in its own hands the power of prescribing the places to which alone they shall apply. In a matter of this kind it seems to me essential that we should both proceed with caution and endeavour to carry the people with us. We shall have to consult Local Governments as to the local extent of the measure, and if we wish them to give it anything like general application we must see that its provisions are framed with due moderation.

"Passing now to the details of the Bill, I think I shall be able to show that the bounds of moderation have not been transgressed. Sub-section (2) of section 1 provides that the Act shall extend to such local areas as the Local Government directs, while section 3 makes certain acts of cruelty punishable only if committed in a street or place of public resort, or within sight of any person in a street or such place. I have introduced these two limitations for the reasons which I have just indicated; but Local Governments will be specially consulted, first, as to whether it would not be safe, seeing that these acts are only punishable when done in public, to give the enactment immediate operation everywhere, or at all events in all towns; and, secondly, if this is not considered safe

and if the local extent is to be regulated by the Local Governments' own orders, whether these particular acts of cruelty may not be declared penal wherever committed, like other classes of acts to which I shall presently refer. Meanwhile, however, I have preferred framing the Bill in this way because I expect that Local Governments will be much more chary about extending its operation if we give a right of entry into private houses, and because I anticipate far more good from the prevention of open cruelty over a wide area than from conferring power to prevent private as well as public cruelty within more restricted limits.

"The acts to which section 3 relates are as follows:—

- “(a) cruel and unnecessary beating, overdriving, overloading or otherwise ill-treating any animal;
- “(b) binding or carrying any animal in such a manner or position as to subject the animal to unnecessary pain or suffering;
- “(c) offering, exposing or having in possession, for sale any live animal which is suffering pain by reason of mutilation, starvation or other ill-treatment, or any dead animal which has been killed in an unnecessarily cruel manner.” \* . \*

"It will be noted that nearly all these are acts which from their very nature, can hardly be committed otherwise than in public. Such at all events are overdriving, overloading, conveying animals in a painful position and offering or exposing for sale. As regards such acts it is no restriction at all to say that they shall only be punishable if committed in a street or place of public resort. Practically, therefore, this condition will only control the general words 'beating and ill-treatment,' and I think it should be maintained for this purpose. As to all acts covered by this section the police are given power to arrest, but there will be no power to enter or search private houses.

"On the other hand, sections 4 and 5 relate to acts which may well be made punishable wherever committed. If sufficient cause can be shown I should have no objection to add other specific acts to this category; but at present only two are provided for, namely, the killing of an animal in an unnecessarily cruel manner, and the employment of an animal on work for which it is unfitted by disease, infirmity, wounds or sores.

"As to these acts the Bill authorizes the grant of a search-warrant upon information duly sworn before a Magistrate of the first class. We have recently heard of butchers flaying live goats in their own houses, and I venture to think that brutality of this description must be prevented at any cost. I am informed too that it is a common practice to cut out the tongues of turkeys and allow the birds to bleed slowly to death in order to whiten their flesh. Such acts will be covered by section 4. Section 5 is taken from the Bengal Act (I of 1869) to which I have already referred. So also is section 6, which provides a penalty for permitting diseased animals to go at large or to die in a street. Lastly, the concluding section limits the period within which prosecutions may be instituted under the Act to three months from the date of the commission of the offence.

"The opinions of all Local Governments as well as of all associations for the prevention of cruelty to animals will, of course, be duly considered in Select Committee; but, if I may assume that the Bill will be maintained on its present lines, I venture to anticipate that it will be put in force at once wherever the more limited local Acts have been applied, and that it will continue to be extended over ever-widening areas until it embraces at least all the populous parts of the country."

The Motion was put and agreed to.

The Hon'ble MR. HUTCHINS also introduced the Bill.

The Hon'ble MR. HUTCHINS also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The Motion was put and agreed to.

The Council adjourned to Friday, the 31st January, 1890.

PROGRESS OF EDUCATION IN INDIA DURING THE YEAR 1888-89.

No.  $\frac{1 R}{10-21}$

*Extract from the Proceedings of the Government of India in the Home Department (Education),—under date Calcutta, the 16th January 1890.*

**READ** the several Reports on the Progress of Education in India during the year 1888-89, with the Resolutions and Orders thereon by Local Governments and Administrations.

RESOLUTION.

IN Home Department Resolution No. 2—79-89, dated 11th February 1889, the Governor General in Council published the statistics of education in British India in 1887-88. The figures for the year ending 31st March 1889 have now been tabulated, and are published for general information.

2. The number of Institutions referred to in the educational reports have declined from 133,125 in the previous year to 131,709. The decrease has occurred entirely in the number of public institutions, which have fallen from 94,636 to 92,865.

3. The number of pupils on the registers of all the schools and colleges, to which the statistics relate, was, on 31st March 1889, 3,544,257 as compared with 3,460,844, on the same date in 1888. The percentage of pupils to the population of school-going age was 11·2 as compared with 11·0 in 1887-88. In spite of the decline in the number of public institutions the number on the rolls of attendance at them rose from 3,021,721 to 3,047,251. There was a more substantial increase in the numbers enrolled at the private institutions from 439,123 to 497,006, mainly at elementary schools. The average monthly attendance at public institutions was slightly better than in the previous year, except at aided institutions, among which the falling off occurred

in primary schools. As stated in Home Department Resolution No 2—79-89, dated the 11th February 1889, statistics to show the average attendance at private institutions (advanced and elementary) are not available. At arts colleges the number on the rolls at the end of the year was 11,250 as compared with 10,328 and the number at the professional colleges 2,691 as compared with 2,661 in the previous year. The number at secondary schools rose from 441,876 to 452,058, and at primary schools from 2,550,884 to 2,563,294. The training schools had 4,937 on the rolls as compared with 4,761, and at the other special schools there were 13,021 as compared with 11,511.

4. The number of pupils studying English was 342,953 compared with 325,425. The number learning a classical language rose from 478,608 to 512,959, and the number reading a vernacular language only from 3,122,291 to 3,179,453. Of the latter 2,552,010 were at primary schools as compared with 2,543,983 in 1887-88. The increase occurred chiefly at private institutions, where there were 248,675 pupils studying a vernacular as compared with 199,528 in 1887-88.

5. Turning to the race and religion of the pupils it will be observed that there were 2,413,588 Hindus as compared with 2,365,794 in 1887-88: 832,449 Muhammadans as compared with 804,445: 23,948 Europeans and Eurasians as compared with 23,160: 71,376 Native Christians as compared with 74,498: and 199,760 of miscellaneous races or religions as compared with 192,314 in 1887-88.

6. The number of boys attending school was 3,253,996 or 20·3 per cent. of the male population of school-going age, as compared with 3,182,643 in the previous year. The number of girl pupils was 290,261, as compared with 278,201. The percentage of girls attending school to the female population of a school-going age was 1·8, the same figure as in 1887-88. While the public institutions for boys declined from 89,766 to 87,902, and the private institutions rose from 36,347 to 37,243, the public institutions for girls rose from 4,870 to 4,963, and the private fell from 2,142 to 1,601.

7. The total expenditure on education rose from Rs. 2,61,91,280 in 1887-88 to Rs. 2,70,92,324 in 1888-89, and the direct expenditure was Rs. 2,13,14,840 as compared with Rs. 2,09,09,809. The expenditure on professional colleges fell from Rs. 7,21,172 to Rs. 6,71,114, while that on arts colleges rose from Rs. 18,01,640 to Rs. 18,51,586, that on secondary schools rose from Rs. 86,27,117 to Rs. 89,08,877, that on primary schools from Rs. 83,88,897 to Rs. 84,99,815, that on training schools from Rs. 5,66,146 to Rs. 5,71,448, and that on other special schools from Rs. 8,01,537 to Rs. 8,38,970. In the indirect expenditure on education are included charges on account of direction, inspection, scholarships, buildings and other miscellaneous charges. The amount thus expended indirectly rose from Rs. 54,38,767 to Rs. 57,47,484. The chief increase was under the head of buildings.

8. Towards the expenditure on education provincial revenues contributed Rs. 73,97,870 compared with Rs. 72,93,575 in the previous year. The contributions from local and municipal funds rose from Rs. 46,41,551 to Rs. 47,84,474 and from Rs. 12,94,317 to Rs. 13,14,199 respectively. Fees, which amounted to Rs. 72,94,093 in 1887-88, were Rs. 76,85,322 in 1888-89, and the receipts from subscriptions, endowments, and other sources rose from Rs. 56,67,744 to Rs. 59,10,459.

From a statistical point of view, with which alone this Resolution deals, the year's results are satisfactory, especially as regards the increased attendance at schools and the growth of private contributions towards the maintenance of schools and promotion of education.

## Weekly Report on the State of the Season and Prospects of the Crops.

**Madras.**—*For week ending 11th January.*—No rain in four northern districts, Nellore, Ceded districts and Kurnool and South Canara; slight or moderate elsewhere. Crops generally good, but withering in parts of Nellore and Coimbatore. Want of rain felt in limited portions of Chingleput, Tanjore and Tinnevely. Prices fairly steady. General prospects fair.

**Bombay.**—*For week ending 15th January.*—*Jwari* and other late crops suffering for want of rain in parts of Deccan; cotton blighted in parts of Karnatak and not satisfactory in parts of Guzerat, prospects otherwise generally good. Poppy in Baroda fair. Fodder scarce in parts, but generally sufficient and agricultural stock healthy.

**Bengal.**—*For week ending 14th January.*—No rain, except light showers in Darjeeling and Julpiguri. Rice still being harvested in the low-lying tracts. General outturn of this crop for the whole province expected to be about average. *Rabi* crops generally doing well, but a little rain wanted in parts of Behar and Chota Nagpore. Poppy a promising crop, except in the Hajipore Sub-division of Mozufferpore. Tobacco prospects good, and the *ganja* cultivation in the Rajshahye district flourishing. *Boro* or spring rice being sown in some districts. Cultivation of indigo in Behar begun. Sugarcane being cut and pressed in certain districts. Prices almost stationary during the week. Common rice comparatively cheaper, but still dear for the season.

**North-Western Provinces and Oudh.**—*For week ending 15th January.*—Clear weather continues and the *rabi* crops so far are in good condition, though backward for want of rain. Poppy sowings in the Lucknow district have suffered slightly from caterpillars and beetles. Supplies are ample, but prices show a tendency to rise in a few places.

**Punjab.**—*For week ending 15th January.*—No rain. Prices unsettled in Delhi, rising in Amballa, Ferozepur, Rawalpindi, Shahpur and parts of Lahore, stationary elsewhere. Sowings of *rabi* crops nearly over. Rain badly wanted throughout the province. Prospects of standing crops are reported average. Crops are beginning to suffer in most districts from drought. Fodder sufficient except in Dera Ismail Khan and Peshawar and part of Lahore. Poppy weeding in progress in Jullundur.

**Central Provinces.**—*For week ending 15th January.*—Weather clear and cool. Rain required for *rabi* crops in Saugor, Seoni, Hoshangabad and Bilaspur. Prospects continue generally favourable and the want of rain will not seriously affect them. Prices steady.

**Burma.**—*For week ending 11th January.*—Slight rain fell in Sandoway in Lower Burma and in Bhamo and Katha in Upper Burma. The crop prospects continue good in Lower Burma. In Upper Burma the prospect is good in most districts. In Meiktila, the paddy crop is somewhat short and in Yamethin the outturn is estimated at ten annas. In Lower Burma prices of paddy have fallen in Akyab, Prome, Thongwa, Thayetmyo, Amherst and Shwegyin, and have risen slightly in Pegu, Tharrawaddy, Bassein and Henzada. In Upper Burma prices show no fluctuations.

**Assam.**—*For week ending 15th January.*—Weather seasonable. Slight rain in the Brahmaputra Valley districts. Harvesting of winter paddy nearly finished. Gathering of pulses and pruning of tea continue.

**Mysore and Coorg.**—*For week ending 15th January.*—In Mysore the standing crops are in good condition. Sowing operations in progress. Sugarcane harvested in parts. Prospects favourable. Prices fallen in Bangalore and Kolar districts and risen in Tumkur district.

Season favourable for harvest in Coorg. Health fair.

**Berar and Hyderabad.**—*For week ending 15th January.*—Weather clear and cold. Cotton picking continues. Cutting of *jowari* nearly completed. Threshing in progress. *Rabi* in excellent condition. Fodder sufficient. Prices unchanged. Land is being prepared for ensuing year.

tent jurisdiction in a former suit between the same parties in the same rights, or between parties under whom they, or any of them, claim.

**11.** A Court shall not try any suit in which the matter in issue is also in issue in another suit between the same parties, or between parties under whom they, or any of them, claim, pending in the same or any other Court, whether superior or inferior, in British India.

*Appearances, Applications and Acts by Parties.*

**12.** (1) The Court may in its discretion, for any sufficient reason, permit any appearance, application or act, required to be made or done by a party under this Regulation, to be made or done by the party through an authorized agent, or through a legal practitioner having authority from the Chief Commissioner to plead and act for parties with the permission of the Court under this subsection.

(2) Permission under this section shall in all cases be granted to persons exempt from personal appearance in Court.

**14.** A party required to attend in person under the last foregoing section, and failing so to attend, shall be subject to the provisions of this Regulation applicable to parties who do not appear.

*Institution of Suits.*

**15.** The plaintiff must begin his suit by presenting to the Court a written plaint.

**16.** On a plaint being so presented, the Court shall register the suit and examine the plaintiff, or his agent or legal practitioner, as to the merits of the case.

**17.** If upon the examination it appears that there is no substantial cause of action, or that the claim is one which from its

nature is not a proper subject of litigation in a Civil Court, the Court may dismiss the suit.

**18.** If upon the examination it is found that the plaintiff sets forth a good cause of action, the Court shall issue a summons to the defendant to appear and answer at a certain time and place.

*Service of Summons on Defendants.*

**20.** Whenever it is practicable, the service shall be on the defendant in person.

**21.** When the defendant cannot be found the service may be on any adult male member of his family residing with him or, where the defendant is a member of a tribe, on the head of the tribe.

(2) If the person refuses to sign the acknowledgment, the service of the summons shall nevertheless be held sufficient if it is otherwise proved to the satisfaction of the Court.

**24.** The person serving a summons shall, in all cases in which the summons has been served, endorse on the original summons, or on a copy thereof under the seal of the Court, the time when, and the manner in which, it was served.

**25.** (1) When a summons is returned to the Court without having been served, if the plaintiff satisfies the Court that there is reasonable ground for believing that the defendant is keeping out of the way for the purpose of avoiding the service of the summons, or that for any other reason the summons cannot be served in the ordinary way, the Court shall order the summons to be served—

(2) A service in the manner ordered by the Court under clause (b) of sub-section (1) shall be as effectual as if it had been made in the manner specified in clause (a) of that sub-section.

the Court under the last foregoing section, the Court shall fix such time and place for the appearance of the defendant as the case may require

27. If the defendant ordinarily resides beyond

the local limits of the jurisdiction of the Court in which the suit is instituted, and has not within those limits an agent empowered to accept the service, the Court shall transmit the summons for service to a Court having jurisdiction at the place where the defendant resides.

28. (1) If the defendant resides out of British

India and has not in British India an agent empowered to accept the service, the summons shall be addressed to the defendant at the place where he resides, and be forwarded to him by post or otherwise.

(2) If at the time fixed for the hearing of the suit, or at any time subsequent thereto to which the hearing may be adjourned, a defendant to whom a summons has been forwarded under sub-section (1) does not appear, the Court may, on the application of the plaintiff, direct that the plaintiff shall be at liberty to proceed with his suit in such manner, and subject to such conditions, as the Court thinks fit.

29. When the suit is for land or other im-

moveable property, and the summons for any reason cannot be served on the defendant in person, the summons may be served on any agent of the defendant in charge of the land or other property.

*Consequences of non-appearance of Parties.*

30. (1) If, at the time fixed for the defendant

to appear and answer, or at any time subsequent thereto to which the hearing of the suit may be adjourned, neither party appears when called upon by the Court, the suit shall be dismissed.

(2) When a suit is dismissed under sub-section (1), the plaintiff may bring a fresh suit, or, if within a period of thirty days from the date of the dismissal of the suit he satisfies the Court that there was sufficient cause for his failure to appear, the Court may issue a fresh summons upon the plaint already filed.

31. (1) If the plaintiff appears and the de-

fendant does not appear, and it is proved to the satisfaction of the Court that the summons was duly served, the Court shall proceed to hear the suit *ex parte*.

(2) If the defendant appears at any subsequent time to which the hearing of the suit may be adjourned, and assigns good cause for his previous failure to appear, he may, upon such terms as the Court may direct as to payment of costs or otherwise, be heard in answer to the suit in like manner as if he had appeared at the time fixed for his appearance.

32. (1) If the plaintiff appears and the de-

fendant does not appear, and it is not proved to the satisfaction of the Court that the summons was duly served in any of the modes of service provided by this Regulation, the Court may direct a second summons to the defendant to be issued in any of those modes.

(2) If the plaintiff appears, and it is proved to the satisfaction of the Court that the summons was served on the defendant, but was served on him too late to admit of his appearing and answering at the time fixed in the summons, the Court shall postpone the hearing of the suit to a future time to be fixed by the Court and may direct notice of that time to be given to the defendant.

33. (1) If the defendant appears and the

plaintiff does not appear, the Court shall pass judgment against the plaintiff by default, unless the defendant admits the claim, in which case the Court shall pass judgment against the defendant upon the admission.

(2) When judgment is passed against a plaintiff by default, he shall be precluded from bringing a fresh suit in respect of the same cause of action.

34. If there are two or more plaintiffs, and

appearance is made by one or more of them and not by the other or others, the Court may, at the instance of the plaintiff or plaintiffs appearing, proceed with the suit in the same way as if all the plaintiffs had appeared, and pass such order as is just and proper in the circumstances of the case.

35. If there are two or more defendants, and

appearance is made by one or more of them and not by the other or others, the Court shall proceed with the suit to judgment and shall, at the time of passing judgment, make such order with respect to the defendant or defendants by whom appearance has not been made as is just and proper in the circumstances of the case.

36. (1) Where judgment is passed *ex parte*

against a defendant, he may apply at any time, not later than thirty days from

*The British Baluchistan Civil Justice Regulation, 1890.**(Chapter III.—Civil Procedure.—Sections 37-49.)*

the date on which any process for enforcing the judgment has been executed, to the Court by which the judgment was passed, for an order setting it aside.

(2) If it is proved to the satisfaction of the Court that the summons was not duly served, or that the defendant was prevented by sufficient cause from appearing when the suit was called on for hearing, the Court shall pass an order setting aside the judgment and appoint a time for proceeding with the suit.

**37. (1)** Where judgment is passed against a plaintiff by default he may apply, within thirty days from the date of the judgment, for an order setting it aside.

(2) If it is proved to the satisfaction of the Court that the plaintiff was prevented by sufficient cause from appearing when the suit was called on for hearing, the Court shall pass an order setting aside the judgment by default and appoint a time for proceeding with the suit.

**38.** A judgment shall not be set aside on an application under either of the two last foregoing sections unless notice of the application has been served on the opposite party.

*Fixing Issues and Preparations for the Hearing.*

**39.** If both parties are present at the time fixed for the defendant to appear and answer, or at any time subsequent thereto to which the proceedings are adjourned for the purposes of this section, the Judge shall examine them with a view to ascertaining upon what questions of law and fact the parties are at issue, and, having with his own hand made a note of the examination, shall frame and record the issues of law and fact on which the right decision of the case depends.

**40. (1)** If the parties are at issue on a question of fact, the Court shall then further examine them as to the evidence they intend to adduce upon the question, and shall either proceed at once to hear the suit or appoint a time and place for the hearing thereof.

(2) Upon such sums being deposited for the expenses of witnesses as, subject to any rules under this Regulation, the Court thinks reasonable, the Court shall issue such summonses for the attendance of witnesses and the production of documents as the parties may desire.

**41.** A summons to a witness shall be signed, sealed and served as nearly as may be in the manner provided by this Regulation for the signing, sealing and service of a summons on a defendant.

**42.** If a witness on whom a summons has been so served neglects or refuses to appear at the time and place appointed and

does not offer reasonable excuse for the neglect or refusal, the Court may issue a warrant to bring the witness before it to give his evidence.

*The Hearing.*

**43. (1)** At the time for the hearing of the suit, or at some time subsequent thereto to which the hearing may be adjourned, the evidence of the witnesses, and of any parties to the suit appearing as witnesses, shall be taken by the Judge orally in open Court and in presence of the parties.

(2) Any evidence given in a language not understood by a party to the suit shall be interpreted to that party as the examination proceeds.

(3) Each party may examine the opposite party and all witnesses.

**44.** A memorandum of all evidence taken shall be recorded by the Judge with his own hand as the examination proceeds, either in English or in the language prescribed by the Local Government as the language of the Court, as the Judge thinks fit.

**45.** At any stage of the suit the Court may examine as a witness any person present in Court or call upon him to produce any document or other thing, or may summon any person to give evidence or produce any document or other thing, if it considers that the evidence of the person, or the production of the thing, is likely to aid it in the decision of the matters in dispute.

*Judgments.*

**46.** When the documentary evidence, if any, has been perused, and the witnesses have been examined and the parties heard, the Court shall, either immediately or at some subsequent time of which due notice shall be given to the parties, deliver its judgment.

**47.** The judgment shall be written by the Judge with his own hand either in English or in the language prescribed by the Local Government as the language of the Court, as the Judge thinks fit, and it shall be dated and signed by the Judge at the time it is delivered.

**48.** The judgment shall contain the decision of the Court upon each issue, together with the grounds of the decision, and shall conclude with a decree clearly stating the relief granted or other determination of the suit:

Provided that, when the decision upon one or more issues is sufficient for the disposal of the suit, the Court may, in its discretion, abstain from pronouncing any decision upon the remaining issues.

**49. (1)** The decree shall specify the costs payable and the parties by whom they are to be paid.

*The British Baluchistan Civil Justice Regulation, 1890.**(Chapter III.—Civil Procedure.—Sections 50-62.)*

(2) In determining the amount of costs the Court shall not allow the remuneration of agents or legal practitioners permitted under section 12 to plead or act.

50. When the suit is for a sum of money due to the plaintiff, the Court may in the decree order simple interest at such rate as it thinks fit to be paid on the principal sum adjudged from the date of suit to the date of decree in addition to any interest adjudged on the principal sum for any period prior to the date of suit, with further simple interest, at a rate not exceeding six per centum yearly, on the aggregate sum so adjudged and on the costs of the suit from the date of the decree to the date of payment.

51. In a decree for the payment of money the Court may, for any sufficient reason, order that the amount due under the decree shall be paid by instalments with or without interest.

52. Where in a suit for moveable property the decree is for the delivery of the property, the Court shall fix an amount of money to be paid as an alternative if delivery cannot be made.

53. Certified copies of the judgment, and, in cases where the judgment is required to be translated, of the translation thereof, shall be furnished to the parties on their application and on payment by them of the cost of the copies.

*Procedure in Special Cases.*

54. If at any stage of a suit before judgment a Court is satisfied, upon such inquiry as it considers necessary, that any property which is in dispute in the suit is in danger of being wasted, damaged or alienated by a party to the suit, it may, on such terms as may appear to it to be just, issue an injunction to that party commanding him to refrain from the act of waste, damage or alienation, or make such order for the purpose of staying and preventing him from wasting, damaging or alienating the property, or for the care and custody thereof, as it thinks fit.

55. In any suit for restraining the defendant from the committal of any breach of contract or other injury, the Court may at any time after the commencement of the suit, and either before or after judgment, and on such terms as may appear to it to be just, issue an injunction restraining the defendant from the repetition or continuance of the breach of contract or the injury or the committal of any similar breach of contract or injury.

56. In case of disobedience to an injunction issued under either of the two last foregoing sections, the injunction may be enforced by attaching the property of the party

to whom the injunction was addressed and retaining it under attachment until he obeys the injunction.

57. The Court may at any time vary or set aside an order made by it under section 54 or section 55; and, if it is satisfied that any such order has been applied for and procured by any party on grounds known to the party to be insufficient, it may award against the party in its decree such amount as it deems a reasonable compensation to the party aggrieved by the order.

58. (1) If at any hearing of a suit it appears to the Court desirable that any person not already a party to the suit should be made a party thereto, it may direct that the person be made a plaintiff or defendant, as the case may be.

(2) Where a person is so made a plaintiff or defendant, the Court shall cause a summons to be served on him in the manner provided by this Regulation for the service of a summons on a defendant.

59. Where a suit involves any question regarding succession, inheritance, pre-emption, marriage or caste, or any religious usage or institution, it may be heard with the aid of assessors selected by the Court from the class to which the parties belong.

*Miscellaneous.*

60. Women who, according to the customs and manners of the class to which they belong, ought not to be compelled to appear in public, shall be exempt from personal appearance in Court, whether as parties or as witnesses.

61. The Local Government may, by notification in the Gazette of India, exempt from personal appearance in Court, whether as a party or as a witness, any person whose rank appears to entitle him to the privilege of exemption, and may, by like notification, withdraw the privilege.

63. (1) When a party desires to put in evidence an entry in a shop-book or other book, he shall produce the book to the Court, together with a copy of the entry on which he relies.

(2) The Court shall forthwith mark the entry for the purpose of identification, and, having examined and compared the copy with it, shall file the copy with the record and return the book to the party producing it, unless there seems to the Court to be cause for impounding it.

*Execution of Decrees.*

64. (1) The Court shall, on application made by the decree-holder in writing, execute its decrees in the following manner, that is to say:—

(a) a decree for property in the possession of the judgment-debtor, by giving possession of the property to the decree-holder, or

when the property is moveable, and possession of it cannot from any cause be given, by levying in the manner provided by this sub-section for the execution of a decree for money the amount fixed as an alternative under section 52;

(b) a decree for partition, by dividing the property and giving the decree-holder possession of his portion;

65. Whenever a person has become liable as surety for the performance of a decree or of any part of a decree, the decree may be executed against him to the extent to which he has rendered himself liable, in the same manner as a decree may be enforced against a judgment-debtor.

66. When an application is made for the execution of an *ex parte* decree, the Court may in its discretion, before ordering execution, require the applicant to give such security as it deems sufficient for compensation for any injury that may be done in the course of the execution, or may issue a notice to the judgment-debtor to show cause why the decree should not be executed.

## REVENUE DEPARTMENT.

## A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,  
*Reporter on Economic Products.*

Published under the authority of the Government of India in the Revenue and Agricultural Department.

- The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.
- The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.
- An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.
- Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.
- The price to subscribers will be in India R30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.
- For copies bound in half calf or half morocco, R6 and 8 shillings respectively, will be charged extra for the whole sets.
- \**No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be R45 in India, and 3 guineas in England, exclusive of packing and postage.*

ADMINISTRATION REPORT OF THE INDIAN TELEGRAPH DEPARTMENT FOR  
THE YEAR 1888-89.

No. 14 T., dated Calcutta, the 18th January 1890.

RESOLUTION,—By the Government of India, Public Works Department.

Read—

Letter from the Director General of Telegraphs, No. 471 T., dated the 12th November 1889, and its enclosure, the Administration Report of the Indian Telegraph Department for the year 1888-89.

**OBSERVATIONS.**—The Administration Report of the Indian Telegraph Department for the year 1888-89 was submitted by the Director General on November 12th, the same date as in the preceding year. The Report deals with the whole of the system administered by the Director General, with the exception of the Indo-European Telegraph line, the accounts of which have been separately submitted and reviewed.

2. The Capital expenditure of the year amounted to Rs. 17,43,620, of which Rs. 14,58,746, or 83·6 per cent., was for lines, and Rs. 88,711, or 5·08 per cent., was for buildings, the balance being for tools and plant and stores. The Capital expenditure up to the close of the year amounted to Rs. 4,45,21,203, which is divided as follows :—

	Rs.	Percentage.
Lines . . . . .	3,37,22,327	75 74
Buildings . . . . .	52,25,508	11·74
Tools and Plant . . . . .	17,69,266	3·97
Stores, Exchange and Suspense Heads . . . . .	38,04,102	8·55

3. During the year, 1,568 miles of telegraph line and 6,137 miles of wire were put up to facilitate work in connection with the railways under construction

or survey in various parts of the country. Among these may be mentioned the Bengal-Nagpur Railway, which took 194 miles of permanent three wires and 130 miles of temporary single wire; the Villapuram-Guntakul State Railway, which took 278 miles of temporary single wire; and the Southern Mahratta Railway, which took 450 miles of extra single wire. The most important new lines constructed for departmental or military purposes were those from Chittagong to Demagiri, 89 miles, and from Loralai to Dera Ghazi Khan, 179 miles. The line from Bhamo to Mogong was in course of construction, and 42 miles of it were finished. This work, the Director General states, is of a very difficult nature, as the line runs through an almost unknown and rough country with exceptionally heavy forest.

4. The following statement shows, for the last five years, the Capital expenditure, the miles of line, wire and cable, and the number of offices open at the close of each year, and may be taken to indicate in a general form the progress which the Department is making in extending telegraphic facilities :—

	Capital expenditure.	Miles of line.	Miles of wire.	Miles of cable.	Departmental and Postal-Combined Telegraph offices opened.
Up to beginning of 1884-85 . . .	Rs. 3,19,19,558	23,341	68,694	135	349
During 1884-85 . . .	34,60,360	2,016	6,279	7	172
„ 1885-86 . . .	29,36,842	2,123	6,507	45	113
„ 1886-87 . . .	21,11,273	2,524	5,410	9	65
„ 1887-88 . . .	23,49,550	1,860	6,627	30	46

To end of 1888-89 . . .	4,45,21,203	33,462	99,654	230	797

5. The following statement shows the Revenue receipts and charges for a period of five years :—

YEAR.	Gross Receipts.	Charges.	Net Receipts.	Percentage of Net to Gross receipts.	Dividend on Capital.
	Rs.	Rs.	Rs.		
1884-85 . . .	47,27,143	35,59,225	11,67,918	24.7	3.30
1885-86 . . .	51,10,986	36,18,695	14,92,291	29.1	3.89
1886-87 . . .	59,76,131	41,21,873	18,54,258	31.0	4.59
1887-88 . . .	66,28,600	42,92,248	23,36,412	35.2	5.46
1888-89 . . .	63,22,476	43,42,231	19,80,245	31.3	4.45

6. These Gross Receipts are derived from both State and Private messages, inland and foreign, and it is important to distinguish the several sources of revenue. This is done in the following table. A small amount (Rs. 4,336) was also taken at three Provincial offices, and is credited to Provincial Revenues :—

	1887-88.		1888-89.	
	Number.	Value.	Number.	Value.
		Rs.		Rs.
State Inland . . . . .	535,513	16,43,389	439,558	9,24,556
„ Foreign . . . . .	6,286	64,268	5,888	55,377
TOTAL STATE . . . . .	541,799	17,07,657	445,446	9,79,933
Private Inland . . . . .	1,958,005	19,79,173	2,113,526	22,29,013
„ Foreign . . . . .	403,748	14,81,166	420,026	16,33,436
TOTAL PRIVATE . . . . .	2,261,753	34,60,339	2,533,552	38,62,449
GRAND TOTAL . . . . .	2,803,552	51,67,996	2,978,998	48,42,382

7. There has been a great decrease in State telegrams, especially in inland telegrams, and this reduction has taken place mainly in Burma. Half the cost of inland State telegrams in 1887-88, and only one-fifth in 1888-89, was due to messages sent from Burma; this decrease is attributed partly to the pacification of the country, but more largely to the enforcement of cash payments for messages, which curtailed the length even more than the number of the telegrams. The cost of Foreign State telegrams continues to decrease, mainly owing to the use of the Word-Code; the average cost of a telegram was Rs. 84 against Rs. 95 and Rs. 102 in the two preceding years, and in the first three months of the current year the cost fell to Rs. 67.

8. The most satisfactory item in the foregoing table is the growth of private traffic, especially inland. The number of private telegrams increased by 13·73 and their value by 12·59 per cent. above the preceding year—a larger ratio of increase than any previous year has shown. The Director General estimates that about three-quarters of this increase may be due to the opening of new offices and at least one-quarter to the operation of the new tariff which was introduced in 1882. The charge for foreign telegrams to Europe was raised in July 1888 from Rs. 2·13 per word to Rs. 3, which reduced the loss on exchange from Rs. 39,881 to Rs. 592.

9. Of these private messages, 48 per cent. were deferred, 46 per cent. ordinary, and 6 per cent. urgent—ratios which are almost identical with those which obtained in the two preceding years. Urgent State telegrams, on the other hand, which used to be 31 and 32 per cent. of the whole, have fallen this year to 16 per cent., in consequence of the permission to send such messages as “Ordinary” telegrams.

10. The average number of words of each inland message in the various classes was as follows:—

CLASS.	Urgent.	Ordinary.	Deferred.
State . . . . .	20	15	22
Private . . . . .	10	9	10
Press . . . . .	177	93	152

11. The increase in the working expenses, Rs. 49,983, is entirely accounted for by the increase in the number of signal offices. In other respects there is very little change as compared with last year.

12. The percentage of the total revenue charges due to establishment is as follows:—

YEAR.	LINE MAINTENANCE.				SIGNALLING.			
	Establishment.	Other heads.	Total charges.	Percentage of cost of establishment.	Establishment.	Other heads.	Total charges.	Percentage of cost of establishment.
	Rs.	Rs.	Rs.		Rs.	Rs.	Rs.	
1884-85 . . . . .	6,28,080	3,62,140	9,90,220	63·4	24,53,352	1,15,653	25,69,005	99·3
1885-86 . . . . .	6,90,204	2,10,418	9,00,622	76·6	25,82,675	1,35,398	27,18,073	95·0
1886-87 . . . . .	7,12,732	5,12,670	12,25,402	58·1	27,32,671	1,63,800	28,96,471	94·3
1887-88 . . . . .	7,98,937	4,09,543	12,08,480	66·1	28,84,010	1,90,758	30,83,768	93·5
1888-89 . . . . .	8,02,161	4,00,930	12,03,091	66·6	29,22,850	2,16,290	31,39,140	93·1

The average cost of signalling for each message dealt with was Rs. 1·05, and the cost of line maintenance per mile of wire was Rs. 12·04.

13. The total number of offices open for the receipt of telegrams at the close of the year was 2,740; of these 1,913 were Railway and Canal offices, 599 were worked by extra-departmental agency, and 198 by the Department. Of the extra-departmental offices, 45 were worked by soldiers, and 552 officered on the new “Combined” system by postal officials who are trained to signal messages as well as to carry on post-office work. There were, at the close of the year, 1,344 telegraph masters and signallers and 17 soldiers on the strength of the establishment. This gives an average of nearly 7 to each of the 198 departmental offices, in which are included of course all the large

central offices. The departmental offices, it may be added, produce about six-sevenths of the total revenue of the Department. Only 670 postal clerks were engaged in working the 552 postal telegraph offices. The cost of the Imperial Signalling Establishment proper was Rs. 20,19,087, and that of the Postal-Combined Establishment Rs. 2,02,497.

14. The number of faults that occurred on departmental lines was 1,428, which is 140 less than the previous year. The average duration of the interruption was, however, 22 hours against 19. A cyclone in Ganjam, another in the neighbourhood of Madras, and floods in Upper Burma caused the more serious of the interruptions.

15. The Department was called upon to erect and work field-telegraph lines in connection with the Sikhim, Hazara and Chin expeditions. In all these cases the work was successfully done, and the services of the officers concerned received due recognition from the military authorities. The Director General believes that the difficult problem of a suitable, portable, field-telegraph post has been satisfactorily solved by the use of posts made of wrought iron in four pieces, all fitting inside each other, 18 feet in height, and weighing 40 lbs., to carry two light wires. These underwent a severe test in the Hazara expedition and came through it successfully.

16. There were 925 complaints received during the year as compared with 913 for the previous year. Of these 538 were admitted and 387 rejected. Those admitted are about equally divided under the heads of non-delivery, delay and error. The total number of telegrams, which for various reasons could not be delivered, amounted to 13,555, which is 0·389 per cent. of the whole number sent.

17. Nothing novel is reported in the way of electrical improvements. Twenty-six circuits were worked on the duplex system. Three main circuits, *viz.*, Bombay, Madras, Calcutta-Rangoon, and Calcutta-Agra, were worked on the quadruplex system. Of these the Bombay-Madras circuit of 796 miles is worked direct, and is probably the longest line in the world on which this system has been attempted. Its success is attributed to the substitution of copper for iron wire.

18. The number of telegraphic advices of money remittances transmitted by the Telegraph Department for the Postal Department amounted to 58,770 as compared with 46,420 for the previous year. The Telegraph Department is not concerned with the amount of the remittances.

19. Among the more important telephone lines erected during the year were those for the Mandalay Municipality, for the East Indian Railway at Howrah, and for the North Western Railway in connection with the Khojak Tunnel works. A trial was made of Cardew's vibrating sounders, which transmit signals over a faulty line which cannot be actuated by any other instrument.

20. The Government of India desires to record its satisfaction with the manner in which Colonel Mallock and the officers directly associated with him have administered the Telegraph Department during the year 1888-89.

ORDER.—Ordered, that a copy of this Resolution, and of the Report, be forwarded to the Secretary of State and to the Local Governments and Administrations noted on the margin, and to the Government of Ceylon for information.

Also that a copy of this Resolution be forwarded to the Director General of Telegraphs for information.

Also that a copy of this Resolution and of the Report and Appendices A, B and F be forwarded to the Home Department of the Government of India for information, and be published in the *Gazette of India*.

# ADMINISTRATION REPORT

OF

## THE INDIAN TELEGRAPH DEPARTMENT

FOR

### 1888-89.

#### I.—GENERAL REVIEW.

Although throughout the year the Indian Telegraph Department and the Indo-European Department have been administered by one Director General, the Administration Report of each is written separately, so as to render the respective operations comparable with those of previous years.

2. The great feature of the year is the unusual increase of private message traffic, which has sprung from 1,860,390 messages producing ₹19,81,814 to 2,115,863 producing ₹22,31,514. The increase in the number of messages compared with that of the previous year is greater than that of any year since 1882-83, which was the first complete year of the present tariff, and the increase in the receipts on this account is larger than that of any previous year except 1876-77, when the receipts were abnormally high on account of the famine in Southern India. In Foreign Private Traffic the increase in number and receipts on account of messages is fairly satisfactory, but not so great as it was last year.

3. **Finance.**—The capital expenditure during the year was ₹17,43,620, raising the total capital of the Department to ₹4,45,21,203; the working expenses were ₹43,42,231; the receipts were ₹63,22,476; giving a surplus of ₹19,80,245, which represents a dividend of 4.45 per cent.

Omitting the value of State messages and other *pro forma* revenue, the net receipts by Government were ₹9,60,159, which is the highest net dividend yet reached. Previous to 1882-83 the receipts, exclusive of *pro forma* revenue, were less than the working expenses; but for that year and since, the net dividend has been as follows:—

Year.	Interest on Capital.
1882-83	0.396
1883-84	Nil.
1884-85	1.199
1885-86	1.050
1886-87	0.303
1887-88	1.389
1888-89	2.15

4. **Traffic.**—State telegrams, inland and foreign, showed a decline of 96,216 in number and ₹7,28,297 in value; a nominal loss, not compensated for by the unusual increase in private message receipts noticed in paragraph 2. The net result is an increase in the number of messages of 175,535 and a decrease in their value of ₹3,26,327.

Para. 52.

Press Telegrams gave an increased revenue of **₹19,935**.

Paras. 58-63.

With the object of ascertaining to what extent the increase in revenue from inland messages is due to the present tariff and how much of it is derived from the increased facilities given to the public by the opening of combined offices, an account has been taken of the number of paid telegrams sent from such offices, which shows that 139 offices, originally departmental but transferred to postal agency, produced a revenue of **₹2,79,330** whilst 413 new combined offices produced **₹4,45,177**, or a total of **₹7,24,507**. Obviously, the revenue from the transferred offices cannot be taken into account in considering the increase due to the combined office system; therefore, the most that can be taken is the sum of **₹4,45,177**, to which may perhaps be added an equal sum for the return traffic.

Para. 64.

Para. 36.

The revenue from inland traffic has increased from **₹19,96,448** in 1882-83 to **₹31,57,905** in 1888-89, showing an increase in six years of **₹11,60,457**. It is therefore impossible that more than three-quarters of the increase is due to new offices, and the present tariff must receive its share of the credit of the new revenue. The increase in the number of telegraph offices since 1883, rendered possible by the economical combined office system, besides giving the public greater facilities for ordinary telegraph business, has rendered possible the introduction of the telegraphic money order system, and 58,770 of such orders were transacted during the year.

Para. 34

Para. 61.

**5. Telegraph Offices.**—There were 552 combined offices open at the end of the year, of which 139 are offices formerly departmental and transferred for economical reasons, 90 have been opened for the convenience of the public within a radius of five miles of a Central Telegraph Office and 323 for branch extensions. It is to these latter that any increase of revenue on this account is due.

Paras. 45-47.

New departmental and combined offices were opened to the number of 52, whilst 109 were established on railways, making a total for the year of 161 extra offices for public traffic. The total number of telegraph offices in India at the end of the year was 2,740, of which number 797 are departmental and combined, and 1,943 are on railways and canals.

Paras. 66-70.

Para. 72.

Paras. 66-68.

**6. Extensions of lines.**—The line mileage was increased by 1,568 miles, and the wire mileage by 6,137 miles. Of the latter, 1,163 miles were trunk wires for facilitating traffic between the departmental telegraph offices.

Of the wire erected during the year the figures are, for departmental purposes 3,321 miles of wire and 4 miles of cable; for railways 2,734 miles; and for canals 105 miles. At the end of the year the department maintained 35,734 miles for railways and 702 miles for canals.

Paras. 76-79.

**7. Field Telegraphs.**—Those supplied during the year may be summarised as follows :—

									Miles of wire.	Offices opened.
Sikkim	.	.	.	.	.	.	.	.	105	12
Hazara	.	.	.	.	.	.	.	.	206	23

TOTAL									381	38

Para. 77.

In the Sikkim expedition a telegraph office was opened at Bhutong at an altitude of 13,500 feet, which was remarkable for being the highest telegraph station in the world.

Para. 78.

In the Hazara campaign, ground wires which enable a temporary line to be rapidly laid, were used for the first time in India.

This satisfactory manner in which the Field telegraph, with the Hazara Field Force, was worked was brought to the notice of the Government of India by His Excellency the Commander-in-Chief, who, in submitting the despatches of the General Officer Commanding the Force, wrote as follows :—

“His Excellency cannot refrain from noticing, with special approbation, the Telegraph Department which, although outside the organisation of the army, fulfilled the utmost requirements of a commander in the field. The enterprise with which the telegraph line was carried forward with the advance, and its efficient working throughout, are specially commendable.”

His Excellency the Viceroy in Council was also pleased to express much satisfaction, and the services of Mr. R. C. Barker, the officer in charge, were recognised by his being appointed a Companion of the Order of the Indian Empire.

The services rendered by Mr. W. H. M. Hare and his subordinates in connection with the Sikkim Field Telegraph, and the cheerful manner in which they met and overcame all difficulties, were acknowledged by the General Officer Commanding the Force.

**Telephones.**—The earnings of the Telephone Companies continue to show a small but steady increase. Paras. 90—92.

Twenty-two additional telephone offices were opened by this department.

**8. Electrical.**—No essential change was made in either of the systems of simplex, duplex or quadruplex telegraphy in use, although some minor improvements were the result of the experiments which are continually being carried on. Paras. 93—98.

**9.** On the 8th January 1889 the death, at Southsea, was reported of Sir W. B. O'Shaughnessy Brooke, who inaugurated the Electric Telegraph in India, by the construction of a line from Calcutta to Diamond Harbour in October 1851, and whose immediate subsequent operations up to 1856 were described by Earl Dalhousie in his minute, dated 28th February 1856, on his administration of India. This document not being generally accessible, an extract from it, is given in Appendix P. Appendix P.

## II.—FINANCE.

**10.** The Capital account of the Indian Telegraph Department was raised by the expenditure of the year to a total sum of ₹4,45,21,203, as shewn in the following statement:—

This total of ₹4,45,21,203 does not, however, include an outlay of ₹91,58,325, the cost of lines in Ceylon, experimental lines abandoned, and excess valuation on original lines, which was written off from the capital account some years ago.

**11. Revenue Account.**—The Receipts and working expenses of 1888-89 are compared below with those of 1887-88:—

**12. Working Expenses.**—As compared with 1887-88, these show an increase of Rs. 49,983. The increases under "Direction," "Accounts," and "Superintendence" are due to a smaller share of establishment having been charged to the Capital Account, owing to less expenditure on works during this year. The general increase under establishment has been caused by the annual increments to graded establishments, additional establishment for extensions, and to the new scale of pay to the superior establishment having been in force the whole year. The increase under the charges for "Departmental" and "Non-departmental" Signal offices is accounted for by the increase in the numbers of those offices, alluded to in paragraph 47.

**13. Receipts.**—Under Message Revenue, there is a decrease of Rs. 3,25,614, due entirely to a decrease in the number of State messages and their value, which has fallen from Rs. 17,07,657 in 1887-88 to Rs. 9,79,993. The revenue from Private messages shows a satisfactory increase, having risen from Rs. 34,60,339 in 1887-88 to Rs. 38,62,449, or an increase of Rs. 4,02,110.

**14.** The receipts from Railways and Canals for rent of wires and instruments have increased by Rs. 24,822, which is due to extensions.

**15.** On account of private lines and guarantees there is a decrease of Rs. 11,101, chiefly due to delay in the recovery of certain claims.

**16.** In the sale of books, gazettes, &c., there is an increase of Rs. 2,330, principally due to greater issues of the Telegraph Gazette in Calcutta.

**17.** Miscellaneous receipts are less than in 1887-88 in consequence of outstanding balances of suspense accounts having been adjusted in that year.

**18. Net Revenue.**—This amounts to Rs. 19,80,245 as against Rs. 23,36,412 in 1887-88, or a falling off of Rs. 3,56,167, which is more than accounted for by the loss of Rs. 7,27,644 on State message traffic. Including all receipts, the dividend on the capital expenditure to the end of the year, which amounts to Rs. 4,45,21,203, is Rs. 4.45 per cent. Omitting the value of State messages and other *pro forma* revenue, the actual net revenue received by Government is Rs. 9,60,159, or a dividend on Capital of Rs. 2.15 per cent. in addition to the free carriage of all State messages.

### III.—TRAFFIC.

**19.** A detailed return of the number and value of Inland and Foreign paid telegrams, subdivided into the two classes of State and Private, with the corresponding figures for the previous year, will be found in Appendix B. Of this Appendix, the following is an abstract:—

CLASS OF MESSAGE.	1888-89.		1887-88.	
	No.	Value.	No.	Value.
		<i>R</i>		<i>R</i>
State Inland . . . . .	441,375	9,26,391	537,193	16,45,797
State Foreign . . . . .	5,888	55,377	6,286	64,268
<b>TOTAL STATE</b> . . . . .	447,263	9,81,768	543,479	17,10,065
Private Inland . . . . .	2,115,863	22,31,514	1,860,390	19,81,814
Private Foreign . . . . .	420,026	16,33,436	403,748	14,81,166
<b>TOTAL PRIVATE</b> . . . . .	2,535,889	38,64,950	2,264,138	34,62,980
<b>Total State and Private</b> . . . . .	2,983,152	48,46,718	2,807,617	51,73,045

It will be observed that while State telegrams, both Inland and Foreign, shew a decline in number and value, Private telegrams, both Inland and Foreign, have increased numerically as well as in value, the net result being an increase in number of 175,535 and a decrease in value of Rs. 3,26,327.

20. The above abstract includes the telegrams despatched from three offices\* the receipts of which are, under special arrangements with the local Governments concerned, credited to Provincial Revenues; their number and values are as follows:—

CLASS OF MESSAGE.	1888-89.		1887-88.	
	No.	Value.	No.	Value.

TOTAL . . . . .	4,154	4,336	4,065	5,049

21. Deducting Provincial from gross revenue, the net Imperial message earning of the last two years have been as follows:—

22. The percentage of State and Private telegrams, Inland and Foreign, is shewn in the following table:—

### INLAND STATE TELEGRAMS.

23. Notwithstanding the Hazara, Lushai and Sikkim Expeditions, Inland State telegrams, the value of which in 1887-88 comprised 31.18 per cent. of the total message revenue, fell in 1888-89 to 19.12 per cent. The decrease is partially due to the curtailment of the military operations in Burma, but this cause alone would not account for the marked falling off in the number and value of Inland telegrams on the public service, which suddenly shewed itself from the 1st April 1888. It was on this date that cash payment for State telegrams was enforced in Upper Burma, and it was a peculiar coincidence that not only their number but also their length at once exhibited a decrease, the figures for the two years being as follows:—

*Inland State Telegrams sent from Offices in Upper Burma.*

	No.	Value.	Average value per message.
		<i>R</i>	<i>R</i>
1887-88 . . . . .	169,084	8,18,776	4.84
1888-89 . . . . .	74,184	1,80,973	2.43

It would certainly appear from these figures that the enforcement of cash payment on public officials imperceptibly deters them from an undue use of the telegraph.

24. With effect from the 1st August 1883 the prohibition to send State telegrams as 'Ordinary' was withdrawn, and from that date such telegrams have been classed 'Urgent,' 'Ordinary' or 'Deferred' at the discretion of the sender.

The effect of this ruling on the figures of the year has been as follows :—

YEAR.	PERCENTAGE OF STATE TELEGRAMS.		
	Urgent.	Ordinary.	Deferred.
1887-88 . . . . .	32·71	3·22	64·07
1888-89 . . . . .	15·93	16·58	67·49

'Urgent' State telegrams have thus been reduced by about one half; while 'ordinary' have increased almost to a corresponding extent. The slight increase in 'deferred' is perhaps traceable to the subsidiary order of Government that when it is not necessary that a reply (by post or wire) should be despatched within office hours of the same day a State telegram should be classed 'deferred.' The average value of state Inland telegram from the four months April to July 1888 was R2·125; that for the eight months August 1888 to March 1889 (after the removal of the prohibition above referred to) was R2·089.

The operation of the three causes above mentioned, *viz.*, the curtailment of military operations in Upper Burma, the enforcement of cash payment for State telegrams in Upper Burma, and the removal of the prohibition against State telegrams being classed 'ordinary,' has resulted in a decrease in Inland telegrams on the public service of 95,818 in number and R7,19,406 in value, being a fall of 17·83 and 43·71 per cent. respectively as compared with the previous year. The number of messages of this class must always depend to a great extent on military operations, and there is little doubt that had it not been for the military operations in Hazara, Sikkim and Lushai, the nominal earnings of the Department under this head would have been still less.

### Foreign State Telegrams.

25. The decrease recorded in 1887-88 in the number and value of State telegrams exchanged with places beyond Indian limits continued during the year under review to the extent of 6·38 per cent. in number and 13·83 per cent. in value. The total number of Foreign State telegrams sent and received was 5,888, and the *Indian share* of the charges on these was R55,376. This sum must be multiplied by nine to give approximately the total charges (including the shares of telegraph administrations beyond India) incurred by Government on these messages.

### Inland Private Telegrams.

26. A greater than ordinary increase has taken place in this class of traffic which is of course the mainstay of the revenue of the department. As compared with the previous year, the number of Inland Private telegrams is higher by 13·74 per cent. and their value by 12·59 per cent. By the return of collections in each division, given in Appendix B, this increase is shewn to be very general throughout the Department.

### Foreign Private Telegrams.

27. Under this head there has been an increase over the previous year of 16,278 in number and R1,52,269 in value, being at the rate of 4·03 and 10·28 per cent. respectively. The increase is about evenly divided between Indian and Transit telegrams.

From the 1st July 1888, the charge to the public on telegrams from India to Europe was, owing to the continued unfavourable exchange, raised from R2-13-0 to R3-0-0 per word, a corresponding increase being made in the rates to other countries. As a result of this measure the loss shown under 'Adjustments' in settlement of accounts with foreign administrations in gold was only R591-10-0 as against R39,881 in the previous year.

28. The average value of a Foreign State telegram during the last ten years has been as follows :—

YEARS.				Average Indian share.	Approximate Total average cost per telegram.	REMARKS.
				R	R	
1879-80	.	.	.	15 16	136	Afghan War.
1880-81	.	.	.	13 83	124

1883-84	.	.	.	7 54	67

1888-89	.	.	.	9 40	84	} Military operations in Upper Burma. Military operations in Upper Burma, Hazara, Sik- kim and Lushai.

It will be observed that the cost of Government telegrams to and from places beyond Indian limits is largely influenced by political occurrences. These cause lengthy telegrams in figure cipher, and the transmission of each figure between India and Europe costs one rupee. Instances have occurred of cipher telegrams costing from four to five thousand rupees.

#### Effect of the Word-Code for Foreign State Telegrams on their cost.

29. On cipher messages the Word-Code for Foreign State telegrams which was first used in 1881 can exercise no effect ; but the saving, otherwise resulting from its use, is apparent from the above table. In estimating this saving it is to be remembered that the tariff for Foreign telegrams has been raised by 10 per cent. during the period in question. For three months of the current year the average charge on a Foreign State telegram has fallen to R67 per message, about  $\frac{8}{9}$  of which is money paid out to other administrations. A new and more comprehensive edition of the Word-Code, now in the press, will, it is hoped, result in still greater economy in this direction.

#### Classification of Inland Telegrams.

30. The following abstract shews the number and value of Inland State, Private, and Press telegrams and their classification under Urgent, Ordinary and Deferred :—

31. Of the State and Private Inland paid telegrams carried during the year. 7·92 per cent. were classed 'Urgent,' 40·84 per cent. 'Ordinary' and 51·24 per cent, 'Deferred' : the cause of the decrease under 'Urgent' is due to the new ruling in respect of State telegrams as explained in paragraph 24. The following is a

### Inland Tariff.

32. It will be observed that as regards Private traffic the proportion of Urgent, Ordinary and Deferred telegrams has practically undergone no variation in the last six years: the cheap service of the deferred system appears to satisfy the popular requirements of the country. It need scarcely be pointed out that had the moiety of Inland Traffic, now disposed of at leisure as "deferred," to be carried with equal expedition to that classed as Ordinary, a heavy expenditure for additional wires, apparatus and signallers would be necessary.

33. The following translated extracts are from an article by M. Linckens, Commissioner in the General Direction of Dutch Posts and Telegraphs, on "Telegraphy regarded from a financial point of view (High speed and low speed)" originally published in the *Journal des Economistes* and reproduced in the *Electrical Review*: they will be seen to have an important bearing on the Indian Inland Tariff, and it is gratifying to find that an administrative measure adopted in India seven years ago is now advocated as the remedy for the financial failure of the telegraphic service of almost all the European States.

After shewing from the example of Switzerland that a rise of charges has not the desired result, that a very low and uniform tariff on the basis of letter postage is equally inapplicable, since "the post can double its traffic with a slight increase of outlay, whilst in the telegraph a small increase of despatches would suffice to require new wires, new apparatus and new officials," M. Linckens proceeds to say :—

"The means which, in my opinion, whilst developing the traffic would increase the returns, and the application of which would direct the institution towards its double object, consists in the classification of the despatches under three heads:

1. Telegrams for accelerated transmission (urgent telegrams) to be sent in preference to despatches of the following classes.
2. Telegrams for normal transmission.
3. Telegrams at low speed (with a reduction of price) to be sent after the despatches of the second class have been finished.

We may first note that with the exception of the four following States, Great Britain, Bulgaria, Norway and Switzerland, 'urgent telegrams' are already admitted in European relations, and let us observe that these full speed correspondences, the utility of which is duly recognised, do not come in in such numbers that their treatment can sensibly affect the rapidity of transmission of ordinary telegrams. Further, if the number of the former increased so as to become an

obstacle to the free disposal of the general correspondence, the extra fees which would be charged would largely contribute to the expenses of laying down and operating new wires and apparatus for multiple transmission where the want was felt.

*The telegram of the third class (low speed) which would be the complement of the urgency telegrams (high speed) has not yet made its appearance in Europe.*

I have shewn elsewhere what might be expected from a reduction of charges for correspondences which might undergo a delay in transmission without running the risk of failing in their objects. These telegrams would be numerous, seeing that there are thousands of circumstances in life in which the telegraph would be utilised, to get rid of small epistolary jobs which generally cost more time than we care to devote to them. And as the transmission of slow telegrams might be effected at moments when at present the wires are unoccupied, without increasing the outlay, the profits would accrue to the Treasury.

On the lines which are now idle for the greatest part of the day, the creation of a class of cheap telegrams between the offices on such lines would be equivalent to a general reduction of charges, and the results which might be involved would not necessitate any increase in the means of transmission.

\* \* \* \* \*

It remains merely to shew the advantages of the system proposed. These advantages would appear:—

1. In an increased transmission power of the system of wires, by leaving to the last place the transmission of telegrams which will bear delay, we should enlarge the means of action for business hours, which would enable us, without additional expense in wages, to increase the total number of transmissions effected on the totality of lines in a given time."

There is nothing to shew that M. Linckens was aware that his proposal had been forestalled by India, and it would appear that in independently working out the scheme, he has brought forward much the same arguments as those which in 1881 induced the Government of India to sanction the present Inland Tariff.

### Telegraphic Money Orders.

34. As Agent for the Postal Department, which collects the usual commission for Inland money orders, the Telegraph Department carried during the year 58,770 telegraphic advices of remittances under this head, at a fixed charge of one rupee each, irrespective of their length. The rules define a telegraphic money order as an order granted by one Post Office for the payment of a sum of money through the agency of another, the remittance being advised from one to the other by a telegraphic advice. The duties of the Telegraph Department in connection therewith are confined to the transmission of telegraphic advices, and the Telegraph Department has no dealings with remitters or payees, nor any concern with the amounts remitted or contents of the telegrams. The increase in the number of telegraphic advices carried, as compared with the previous year, is 12,350, or 20.66 per cent.

### Total number of operations in signalling Telegrams.

35. The total number of signalling operations entailed by the sending, repeating at intermediate stations, and receiving at the station of destination, of the traffic of the year, both paid and free, has been as follows, as compared with previous years—

1881-82	.	.	.	.	.	.	.	.	6,719,621
1882-83	.	.	.	.	.	.	.	.	7,862,671

1888-89	.	.	.	.	.	.	.	.	16,686,085

These figures shew that the work of the signalling staff has doubled every sixth year. The average number of signalling operations entailed in the disposal of each message during the year under review was 5.14.

**36. Inland Traffic.**—The fluctuations in the number and value of Inland State and Private messages during the last seven years are shewn in the figures given below, from which the steady growth of private messages and the variations due to political causes of State messages will be seen. The results for the year under the two heads have been reviewed in paragraphs 23 and 26:—

### Communication between India and Europe.

38. Appendix C gives in detail the percentage of traffic passing by the Suez, Teheran and Turkish routes to and from India since 1871-72.

The comparative results for the last five years are as follows:—

ROUTE.		1884-85.	1885-86.	1886-87.	1887-88.	1888-89.
Red Sea	<i>via</i> Suez .	55.50	52.08	58.23	64.01	54.16

TOTAL .		100.00	100.00	100.00	100.00	100.00

The decrease in the traffic carried by the Red Sea route and the corresponding increase by the Indo-European lines were due to both the cables between Bombay and Aden having been interrupted for 32 days in August and September 1888.

### Communication with the Straits, China, Australia, &c.

39. All telegraphic communication with Australia was cut off from the 30th June to the 18th July 1888, by the failure of the two cables between Java and Australia: one cable was repaired on the latter date and the second on the 7th August 1888. The cable between Madras and Penang was interrupted from the 22nd September to the 13th October 1888, necessitating the diversion of Eastward traffic *via* the Indian land lines to Elephant Point (Rangoon) and thence by cable to Penang. The cable between Elephant Point and Penang was interrupted from the 2nd to the 8th of January 1889.

### Principal Interruptions on International Routes.

40. Bombay to Aden . . . . . 11th August to 12th September 1888.  
 Madras to Penang . . . . . 22nd September to 13th October 1888.  
 Banjoewanjie to Port Darwin . 30th June to 18th July 1888.  
 Elephant Point to Penang . . . 2nd to 8th January 1889.  
 Saigon to Hongkong . . . . . 28th to 30th April 1888.

### Indo-Siam Line.

41. There was a considerable increase in the traffic carried by this alternative route between India, Bangkok and Saigon, 1,214 telegrams to and from India having been exchanged as against 832 during the previous year. The number passing through India by this route also increased in about the same proportion.

There was a slight improvement in the working of this line beyond the Indian frontier during the year, but very much remains to be done before it can be regarded as a reliable international route. The northern route starting from Moulmein *via* Raheng was interrupted for 270 days during the year as against practically the whole of the previous year. The southern route from Tavoy *via* Kanburi was interrupted for 50 days as against 80 days during the previous year. Within the Indian frontier the only serious interruption was one of 7 days caused by the line being cut by dacoits between Yeh and Tavoy in June 1888. The line from Bangkok to Saigon did not work so well as during the previous year, the number of days it was interrupted having been 80 as against 57 in 1887-88.

### Principal International Extensions.

42. In China the Island of Formosa was connected by cable with the Pescadore Islands: several extensions were made in the interior, and the line towards the Indian frontier was opened to Yung Chang about 30 miles east of Momein and probably not more than 150 miles from Bhamo. There were no other extensions of any importance or of interest to India.

### International Tariffs.

43. These are fixed in francs and the administration which collects the whole charge from the public has to pay the shares of the other administrations in-

terested, in gold: provision is accordingly made in the International Convention that every State which is a party to that convention shall notify the ratio of the currency of the country to the franc, and that the charge collected shall be based on this ratio. The continued depreciation of silver rendered it necessary in July 1888 to raise the equivalent of the franc from 0.56 to 0.60 of a rupee and the charges to the public had to be raised accordingly; that to Europe from stations west of Chittagong being enhanced from Rs 2-13-0 to Rs 3 per word. As explained in paragraph 27, this measure practically eliminated the loss which India had for some time been incurring in adjusting accounts with other telegraph systems.

The unremunerative rate of six pence per word, which competition between the several Atlantic Cable Companies had in 1886 caused to be adopted between Europe and North America, was from the 1st September 1888 raised to one shilling per word. Two additional cables belonging to the Western Union Telegraph Company, which had previously been reserved for special traffic, were from the 1st October 1888 thrown open to International Traffic generally.

Traffic Statistics.

44. Diagrams A and B give the number and value respectively of Inland and Foreign Paid telegrams as far back as the record is available.

45. Appendix D is a classified abstract of Signal Offices, grouped according to the number of messages sent from each, year by year, since 1877-78.

46. Appendix E shows the number of signal offices open in each Division at the close of the year. The number of departmental, including "combined" offices open on the 31st March 1889 was 797: the Department supervised 1,592 Railway and Canal Telegraph offices, of which it also provided the apparatus, and of these 1,334 were available for public messages: there were also 675 Railway Telegraph offices managed entirely by Railway Companies, of which 609 were open to the public.

47. The total number of telegraph offices open to the public at the end of each of the past five years is shown below:—

### Speed of transmission.

48. In the following table and in Diagram C are given the average time intervals occupied in the transmission\* of telegrams (excluding deferred) over the principal main routes during the past five years:—

	1884-85.		1885-86.		1886-87.		1887-88.		1888-89.	
	H.	M.	H.	M.	H.	M.	H.	M.	H.	M.
Calcutta to Karachi	0	57	0	51	0	51	0	32	0	36
Karachi to Calcutta	0	35	0	36	0	35	0	20	0	20
Calcutta to Bombay	0	47	0	34	0	40	0	34	0	44
Bombay to Calcutta	0	48	0	36	0	43	0	31	0	31
Calcutta to Madras	1	1	0	50	0	54	0	34	0	30
Madras to Calcutta	0	59	0	46	0	59	0	45	0	33
Madras to Bombay	0	33	0	33	0	24	0	27	0	17
Bombay to Madras	0	28	0	36	0	32	0	31	0	17
Bombay to Karachi	0	35	0	31	0	28	0	24	0	20
Karachi to Bombay	0	24	0	21	0	14	0	17	0	13
Rangoon to Calcutta	2	10	1	22	3	17	2	22	1	30

In only two cases has there been a falling off in the speed of transmission, *vis.*, Calcutta to Karachi and Calcutta to Bombay. This is accounted for by the diversion *vid* Elephant Point and Calcutta of a larger proportion of the trans-Indian traffic, the number of Foreign telegrams by this route for the year having been 47,415 against 18,333 for the previous year: this increase thrown upon the heavily worked lines from Calcutta to Bombay and Karachi necessarily caused a decrease in average speed: the same cause afforded relief to the normal Foreign transit route between Bombay and Madras which it will be observed exhibits an improvement over the previous year. The most striking increase of speed in transmission, however, is observable on the line from Rangoon to Calcutta where the erection of an additional wire has almost halved the average time in transmission. This extra wire has enabled Calcutta and Elephant Point to dispose of Foreign telegrams direct without the necessity for repetition at any intermediate office. It must also be explained that these figures include, 'ordinary' telegrams and are no criterion of the speed at which Foreign telegrams all of which are classed 'Urgent' are disposed of.

### Complaints.

49. Appendix F contains particulars of all complaints, in respect of telegrams, made to the Check Office by the public during the year, those concerning this administration being separately shewn from those in which other Telegraph systems were in fault. In the former category 925 complaints were received of which 368 were groundless and 19 were rejected for want of the particulars necessary to admit of their being investigated: the percentage of messages which formed the subject of complaint (admitted and rejected) was '028 against '029 during the previous year. In the return of complaints in which other Telegraph Administrations were in fault in respect of telegrams jointly transmitted over their systems and that of this Department, the complaints received amounted to 650 of which 339 were admitted as against 287 for the previous year.

\* To save the labour of compiling the real average delay from the actual time occupied in transmission of *all* telegrams, the averages above referred to are calculated on the mean of the daily maximum and minimum delay on each route.

### News-Free and Concessional Telegrams.

50. 754 telegrams sent free for public information, such as Mail Steamer Reports, were transmitted during the year to the nominal value of ₹31,237-4-0 as against 933 valued at ₹28,909-3-0 during the previous year. The increased average value per telegram is due to the greater number of stations to which the news was transmitted.

There were also carried free 1,654 telegrams of the value of ₹8,915-13-0 on the service of the French and Portuguese Governments and of the Kalat State. By special agreements no charge is made for these.

### Traffic interchanged with Railways and Canals.

51. The number of telegrams interchanged with Railway and Canal systems during the past five years has been as follows :—

### Press Telegrams.

52. Appendix G is a statement of the number and value of Inland and Foreign Press telegrams during each month of the year. An abstract of the yearly totals for the last five years given below shews that Inland Press business, which had for the previous three years been nearly stationary, increased during the year by more than 54 per cent. in number and 32 per cent. in value, while the increase of Foreign Press business is also satisfactory :—

Signalling Establishment.

54. At the close of the year there were 1,344 Departmental Telegraph Masters and Signallers, and 17 Non-commissioned Officers on the Unattached list on the strength of the Establishment. 249 Military Signallers were employed in Departmental, including Field Service, Telegraph Offices ; and 670 Postal clerks, 3 Lighthouse-keepers, 6 inspectors, 2 temporary signallers and 1 clerk in a public office, were also more or less employed on telegraph duties.

55. The number of soldiers who obtained certificates of having been trained in telegraphy during the year was 188, and at its close 184 were under instruction.

56. The casualties in the Departmental Signalling Staff amounted to 54 from the causes, noted in the margin, being a percentage of 3'95 as against 4'27 during the previous year. It is satisfactory to notice a decrease from 11 to 3 in the number of men who were dismissed for misconduct.	Died . . . . .	16

57. The list of efficient members of Volunteer Corps in the Telegraph Department at the end of the year showed a strength of 434 against 404 for the previous year.

58. **Post Office Agency.**—The means for opening a number of branch or feeder Telegraph extensions rendered possible by the economical Post Office Agency or Combined Office system, which was introduced in 1883, were utilised to as great an extent as funds for the construction of the necessary lines were available. During the six years this scheme has been in operation it has enabled the Telegraph Department to open 413 new Local and Branch Telegraph Offices. So far as can be ascertained the field for extensions of this nature is limited only by the funds which can be spared for extensions. There are at present many places known of to which the Telegraph might be extended with every prospect of a remunerative return on expenditure, but it is evident that for financial reasons such extensions can only be made by degrees.

59. It has not been previously explained that offices opened under this system may be grouped under three classes, viz. :—

- I. *Departmental Transferred.*—These are offices of small technical importance, the management of which can be entrusted to a cheaper agency than to that of a skilled Telegraph Master and which have been transferred, for economical reasons, to Post Office management. The transfer of these has not increased the receipts but has reduced the expenditure.
- II. *Local Offices*—These are offices, newly open under Post Office management, within 5 miles of the Central Telegraph Offices, the opening of

which, entirely for the convenience of the public, has caused an increase of expenditure with probably little increase of revenue.

**III. Branch Offices.**—These are offices which have been newly opened under Post Office management at a distance of more than 5 miles from a Central Telegraph Office, entailing some capital expenditure, but which the aid afforded by the cheaper agency of the Postal Department has enabled to be profitably worked. Such offices bring in an entirely new revenue, not only by their own receipts, but by the return traffic to them.

**60.** The gross increase in the number of offices worked by the agency of the Post Office during the year was 77; on the other hand, 10 were closed as financially unsuccessful and one was transferred to departmental management, making

the net increase 66.

**61.** The number of Combined Offices at the close of the year, under the three classes described above was—

I.—Departmental Transferred	139
II.—Local	90
III.—Branch	323
<b>TOTAL</b>	<b>552</b>

**62.** To open the 59 new offices it was necessary to construct 348 miles of single wire lines and erect 1,009 miles of wire on existing supports. The number of Combined Offices opened year by year and the mileage of line and wire thereby entailed is shown in the following statement :—

YEAR.	NUMBER OF COMBINED OFFICES OPEN ON 31ST MARCH.		MILEAGE OF LINE AND WIRE ADDED IN CONNECTION WITH THESE EXTENSIONS.	
	Transferred to Postal Agency.	New.	New wire on existing supports.	New supports and wire.
1883-84	24	31	612	405
1884-85	73	194	636	1,216
1885-86	92	296	1,662	2,150
1886-87	114	326	1,851	2,434
1887-88	125	361	2,193	2,802
1888-89	139	413	3,202	3,150
Net additions during 1888-89	14	52	1,009	348

**63.** In order to meet local requirements and to stimulate traffic, one 2nd class Combined Office was raised to 1st class (full day and night service) and eleven 3rd class offices were raised to 2nd class (working 7 A. M. to 9 P.M.) This measure, at first experimental, has proved not only of convenience to the public, but financially successful; and the result of the experiment, so far, seems to be that if the revenue of an office should be fairly in excess of its expenses it is almost certain that an increase of the number of working hours will produce an increased revenue, at very slightly increased cost. Consequently, all receipts are now carefully watched and whenever there appears a justification for it, the hours of business are lengthened.

**64.** The number of paid telegrams sent from Combined Offices during the year was 674,953 of the value of R7,24,507. It was pointed out in last year's report that although Combined Offices largely exceed in number those worked by this Department the bulk of the work is performed by this Department, and although the revenue collected at Combined Offices is about one-seventh of that of the whole Department, it is necessary to explain that this portion of the revenue is not altogether due to extensions which were rendered possible by the Combined Office system, as 139 of the 552 stations worked by the agency of the Post Office are 'Departmental Transferred.' The following figures show

that the average revenue of each of these is nearly double of that of the new offices :—

	<i>R</i>
Revenue of 139 offices originally Departmental, transferred to Postal Agency . . . . .	2,79,330
Revenue of 413 offices newly opened under Postal Agency . . . . .	4,45,177

Taking each class as a whole, about two-fifths of the revenue of Combined Offices was thus obtained from "transferred" offices.

65. Of the remaining three-fifths of the total revenue of Combined Offices, a certain portion is not new revenue but has only been diverted from the pre-existing offices by the opening of Local Offices for public convenience. Of the 413 new offices worked by Postal Agency, 90, or 21 per cent., are Local Offices within 5 miles (or within the free delivery radius) of Central Offices, and although a convenience to the public, a very large portion of their traffic cannot be new.

#### IV.—EXTENSION OF LINES AND LINE MAINTENANCE.

66. During the year under review 1,568 miles of line, 6,137 miles of wire and four miles of cable were added to the system maintained by the department, of which the following figures show the extent at the close of each of the past five years :—

Year.	Miles of line.	Miles of wire.	Miles of cable.
1884-85 . . . . .	25,387	74,973	142
1885-86 . . . . .	27,510	81,480	187

1888-89 . . . . .	33,462	99,654	230

67. The wires and cables were maintained for the following purposes :—

68. Appendix I shows the mileage of lines, wire and cables maintained in each division classified according to the purpose for which used. Appendix J shows the extent of the system maintained for each railway or canal.

69. The following are some of the more important works undertaken for railways and canals.

*For the Bengal-Nagpur Railway.*—The permanent telegraph line of three wires was extended eastward from Bilaspur to Raigarh, 80 miles, replacing the temporary single-wire line erected on this section during the previous year. The one-wire temporary line for railway construction purposes was also completed from Raigarh to the Konia River, 130 miles, giving through wire communication from the Nagpur to the Bengal end of the line. At the Bengal end of the line, the permanent three-wire line was erected for 114 miles from Asansol towards Jaraikola, replacing on the same section the temporary line previously erected for Railway construction purposes.

On the Katni-Bilaspur branch, the section from Umaria to Sohagpur, 43 miles, was permanently re-constructed with two wires, and 118 miles of single temporary line erected thence to Bilaspur.

*For the South Indian Railway.*—Temporary lines for Railway construction purposes were constructed on the following sections :—

73. As was stated in paragraph 62, 348 miles of posts and 1,357 miles of wire were put up for combined office branches. Of these works the following are the most extensive :—

### Telephone Lines.

74. Among the more important of these lines erected during the year may be mentioned systems for the Mandalay Municipality, for the East Indian Railway at Howrah, and for the North-Western Railway in connection with the Khojak tunnel works. Telephone lines were also constructed in connection with the Periyar Irrigation Project from Periyar to Thekady and from the Superintending Engineer's office, Trichinopoly, to the grand Anicut on the Cauvery, a distance of 13 miles. Several telephone lines for private firms were also constructed, and additions made to existing systems.

### Cable Operations.

75. Cables were laid across the Pudda, Dhulessary and Irrawaddy Rivers, and two of the existing cables in the Pudda were considerably lengthened.

### Field Telegraphs.

76. The department was called upon to erect and work Field Telegraph lines in connection with the following military operations :—

The Sikkim Expedition.

„ Haza „  
„ Chin „

77. *Sikkim Expedition.*—Telegraph operations in Sikkim commenced in March 1888, but were not sufficiently advanced, at the close of the year, to call for notice in the Report for 1887-88. The field lines were connected with the Darjeeling Telegraph Office, and 105 miles of wire in all were erected. The line was first constructed as far as Pedong, 31 miles, where an office was opened on the 17th of March. It was afterwards extended, in May, from Pedong to Gnatong, 24 miles, where an office was opened on the 2nd of June. On the 6th July a branch line from Pedong to Pakyoung, 13 miles, was commenced, and completed on the 11th July. In September the line was extended from Gnatong to Mt. Paul, 4 miles, and arrangements made for a further rapid advance to the Jelap-la Pass with the troops. The line to Mt. Paul was, however, broken down by the Thibetans, and it was not till the evening of the action on the 24th September that it was possible with great exertions to temporarily repair the line, with field cable, and open communication. The office at Mt. Paul was opened on the morning of the 25th, and the line continued in the rear of the troops towards the Jelap-la Pass. On the 26th the line was completed to within a short distance of Rinchagong in Thibet where an office would have been opened but for the rapid return of the troops to Sikkim territory, orders being received to dismantle the telegraph line to Gnatong without delay. The branch line from Pedong to Pakyaung was extended to Gantok, a distance of 12 miles, by the 4th October and an office opened at the latter place on that date. At the beginning of November a temporary line of telegraph was extended, in connection with road-making operations from Gnatong, over the Jelap-la Pass to Bhutong, two miles on the Thibet side of the Pass, and an office was maintained in this elevated position, 13,500 feet above sea level, from the 12th November to the 6th December. Twelve offices in all were opened in connection with the expedition of which seven were still open at the end of the year.

The offices were worked almost entirely by British soldiers, who together with the construction party suffered much fatigue and hardship, owing to heavy rain, extremes of temperature, and the difficult nature of the country generally.

The whole work was under Mr. W. H. M. Hare, Assistant Superintendent, who, on leaving at the close of the operations, received the thanks of the General Officer in command of the force.

78. *The Hazara Expedition.*—The telegraph work done in connection with this expedition may be conveniently described under two heads, *viz.*, (1) that carried out by the Telegraph Department, (2) the work of the Bengal Sappers and Miners.

Regarding (1), operations commenced on the 14th September by the erection of the line from Abbottabad to Oghi, 34 miles, and before the end of the month this line, as well as two extensions beyond Oghi to Koolikkuh and Dilbooree, were completed and offices working at Mansera, Khakee, Oghi, Koolikkuh and Dilbooree. Early in October, the line was extended in connection with the advance of the troops up the Black Mountain, and offices opened at Samalbut on the 3rd October, at Kaimgully on the crest of the mountain on the 5th October, at Karun on the 6th, and at Chittabut on the 15th. Between the 18th and 21st October, a line, 17 miles in length, was constructed from Oghi to Tilli, three miles from the Indus, and an office opened at the latter place. Meanwhile, Lieutenant Perceval, R.E., Commanding the Detachment of Sappers and Miners, connected Tilli with Kunhar on the Indus, thus establishing direct telegraphic communication between the 4th column, operating along the Indus, and the Head-Quarters and remaining columns that had advanced *via* Oghi. On the 18th October orders were received to extend the telegraph line northward from Dilbooree in connection with the advance of the troops on Thakot. The telegraph line was rapidly constructed as the column advanced, and offices opened at Chirmang on the 21st, Maidan on the 25th, Dabrai on the 28th, and

Serai, a short distance from Thakot, on the same date. On the 30th, the line from Serai to Maidan, ten miles, was dismantled in consequence of the return of the troops after Thakot had been visited, and another extension, 14 miles in length, was commenced from Maidan to the Allai country, offices being opened at Mazrai on the 31st, Chel on the 1st November and Allai, the extreme point reached in this direction, on the 2nd November. On the withdrawal of the troops on the 4th November from Allai the dismantlement of the telegraph line was carried on simultaneously with the movements of the troops, and by the 14th of November not a single office north of Oghi remained open, and the whole of the line material had been removed, with the exception of  $1\frac{1}{2}$  miles of cable which was stolen in the neighbourhood of Chittabut.

The operations connected with the 4th column devolved on Lieutenant Perceval, R.E., and the Bengal Sappers and Miners under his command. Work commenced on the 14th September by the erection of a light line from Haripur to Derband, 28 miles, at which place an office was opened on the 20th idem. On the arrival of the General Officer Commanding, orders were received for the advance of the telegraph with the force, and offices were opened at Chamb on the 2nd October, at Kotkai on the 5th October, and Kunhar on the 11th October. The office at Kotkai was opened on the day of the action at that place. From Kunhar an extension was made to Tilli, as previously mentioned, and another to Palosi on the 27th October. The supports of the light line erected by the Sappers between Haripur and Derband were replaced towards the end of October by a more substantial line in the new pattern field telegraph (iron) posts erected by the Telegraph Department, as it was found that the light line erected by the Sappers required too much supervision and too large a staff to permit of its maintenance being continued. The offices opened in connection with this column were all closed by the 17th November, the last being the Derband office.

The total extent of the operations may be summarised as follows:—

The campaign lasted roughly two months, from the middle of September to the middle of November, during which 158 miles of air line and 48 miles of field cable were put down by the Telegraph Department, and 38 miles of air line and eight miles of cable by the Bengal Sappers and Miners. Twenty-three offices were opened, of which all except Oghi were closed on the withdrawal of the troops. The heavy traffic through these offices involved the employment in them of between forty and fifty military signallers, besides which the staff of the neighbouring permanent offices in the Punjab had all to be strengthened to meet the extra work thrown on them.

The construction of the lines and the supervision of the work generally necessitated the detachment on this duty of a large staff of officers, upper subordinates and line establishment, the total requirements representing a much larger drain on the resources of the Department than the actual length of line made would seem to call for.

This small campaign afforded some valuable practical experience for the conduct of similar operations in future. In the first place it illustrated how important a part the telegraph now plays in modern warfare. At the outset it was anticipated by the military authorities that only four offices and eighty miles of line would be required, and in the end over five times that number of offices were opened and over 200 miles of wire were erected.

In General McQueen's report on the expeditions he writes:

"On only two occasions have I been without a telegraph office in my camp—once at Dabrai, owing to a fault in the cable, and again at the top of the Ghorapher Pass when it was impossible for any baggage to reach the bivouac."

It would appear that when once the advantages of telegraphic communication have been realised in military operations, there is every possibility they will be availed of to the utmost, and in the organisation of the Telegraph Department, as well as in the actual preparation for future campaigns, the eventuality of the telegraph line accompanying the troops, almost wherever they go, must be provided for.

The Hazara campaign also gave an excellent opportunity of trying practically the various forms of telegraph material and equipment which have been under consideration for some years past. It is satisfactory to find that the

patterns of materials, instruments, &c., which had been adopted, proved generally very efficient. Some mistakes were discovered and these will be remedied.

In connection with this subject, special mention may be made of the use of field cable for the purpose of rapidly establishing communication when time does not admit of even the lightest air line being erected sufficiently quickly. Good use of this cable was made in following up the troops both by Lieutenant Perceval, R.E., with the 4th column and by Mr. Barker, C.I.E., in the advance up the Black Mountain and also in those to Thakot and to the Allai country. Without this light cable, it would not have been possible for offices to have been opened at the end of the day's march. Mr. Barker, writing on this subject, says—

“The cable has proved invaluable; 20 miles a day could easily be paid out were it not that marching with a column on a mountain road it is not possible to get the transport along quickly enough and so delays occur in getting up the cable from the rear or wherever it is blocked. I generally carried five or six miles by coolies and as their loads were expended sent them back for more to the mules or camels. I was always able to keep up with the column.”

A cable thus lying on the ground is however necessarily much exposed to injury either from pack animals breaking it or from its being stolen or cut, and one of the lessons learned in Hazara was the importance of replacing it as quickly as practicable by an air line to be erected by a party following up the advance party.

Another experience gained was in connection with Field Telegraph posts. A post made of wrought iron in four pieces all fitting inside each other, 18 feet in height and weighing 40 lbs., had been recently designed, to carry two light iron wires, and a large number of these posts were used in the expedition. The reports on their portability, lightness and strength are very satisfactory. In the re-construction of the line from Haripur to Derband, the number of posts required for a mile of line were loaded on each camel, and they were expeditiously and easily distributed over very rough ground. Coolies can handle them easily and carry them to points where animal carriage cannot go, and the pieces can be fitted together without any difficulty at the site where they are to be erected. The best pattern for a field telegraph post has always been a difficult question. Bamboos are only procurable in certain localities and they are also unwieldy, unless cut into short lengths that can be fitted together. Wooden posts are also often unprocurable and their weight is against them. In the new pattern of iron posts now made up in the Departmental workshops at Calcutta, it is believed that we have solved a troublesome problem, as the test to which the posts were put in the Hazara expedition is not likely to be exceeded in severity in any future campaign.

The good services rendered by the Telegraph Department during the Expedition were borne generous testimony to in the following extract from the report of Brigadier-General McQueen, K.C.B., published in the *Gazette of India* of the 8th December 1888:—

*Telegraph Department.*—I cannot speak in too high terms of the energy with which the work of the Telegraph Department under Mr. R. C. Barker has been carried on, often under most adverse circumstances.

The promptitude with which his work was executed, and the distance covered, shows the excellence of the organisation and administration of the Department.

During the operations, 17 offices were opened with the Agror Columns, and six with the River Column, 11,531 messages passing through the Oghi office alone.

The force in the field caused very heavy additional work to fall on the Rawal Pindi Subdivision, in charge of Mr. A. D. Hill, Assistant Superintendent, the Abbotabad and Haripur offices being specially affected.

The subordinates of the department, military signallers and non-commissioned officers and men of the Sappers and Miners, have had unusually severe work, and have been indefatigable in their endeavours to carry out their duties to my satisfaction, in which they have thoroughly succeeded.

On only two occasions have I been without a telegraph office in my camp—once at Dabrai, owing to a fault in the cable, and again at the top of the Ghorapher Pass, when it was impossible for any baggage to reach the bivouac.

The detachment of Sappers and Miners under Lieutenant C. C. Perceval, R.E., in whose charge the river line was placed, are reported by General Galbraith to have worked satisfactorily; but I am fully convinced that for any extended campaign the whole telegraphic operations should be placed in the hands of the Government Telegraph Department.

Brigadier-General McQueen, when writing his report, of course only referred to the work done under his immediate observation, and was not aware that, however energetic Mr. R. C. Barker was, or however much work was thrown on the Abbottabad and Haripur offices of Mr. A. D. Hill's subdivision, the success of the telegraph arrangements was greatly due to Mr. Bignell, the Superintendent of the Punjab Division, and to Mr. A. D. Hill, the Assistant Superintendent of the subdivision from which the Field Telegraph lines branched.

On Mr. Bignell fell, as it fell throughout the Afghan Campaign, the whole management of the supply of soldier signallers, who had been almost without exception trained under his supervision, and to replace whom when sent to the front he had to train others. He raised the greater number of the native line establishment and sent forward all stores, keeping Mr. Barker fully supplied.

Mr. A. D. Hill, before Mr. Barker's arrival, commenced all the arrangements for the Field Telegraph, including a portion of the line from Abbottabad to Oghi, and in his own subdivision had to erect one extra wire from Rawalpindi to Haripur and three from Haripur to Abbottabad. He had also to supervise the large increase of traffic in his own offices, which work he did excellently. The reason he was not selected for the charge of the Field Telegraphs was that it was considered of prime importance for his subdivision, from which the Field line branched, to remain in the hands of the most capable Assistant Superintendent who had the local experience necessary to work it efficiently at the time of high pressure, and this Mr. A. D. Hill did.

79. *The Chin Expedition* involved the erection of 70 miles of flying telegraph lines. The first section from Kalewa to Kambalè, 28 miles, was completed on the 26th of December and an office opened at Kambalè on the 28th idem. A branch line from Kambalè to the 2nd stockade was completed by the 13th January and another branch from Kambalè to Sihaung, 28 miles, was completed by the 23rd of February. There was some inevitable delay in effecting these communications, owing to the absence of escorts, sickness, and to the difficulty in procuring carriage and labour at a time when everything of the kind had been taken up by the military authorities. Three offices were opened, *viz.*, Kambalè, 2nd stockade and Sihaung, and they were all of them open at the end of the year. The two latter offices were closed in May of the current year and the lines dismantled, and as a proof of the utility of the telegraph, it may be mentioned that during the five months from the 28th December to the 28th May, 8,253 telegrams passed through the Kambalè office, many of them long Press messages.

### Interruptions to Communication.

80. The number, nature and duration of all faults on lines and in offices which have in any way affected communication during the year, will be found in Appendix K. The statement does not include interruptions on the wires of Licensed systems or of Private Lines, which are dealt with separately.

81. Although the number of faults on departmental lines, due to ascertained causes has been less during the year than in the previous year, being 1,428 against 1,568, the average duration of each fault has been somewhat greater, being 22 hours against 19. The lines in Burma largely account for the high average duration, owing to the difficulties of travelling in parts of that province, more especially during the rains, and the delay that often unavoidably occurs in obtaining the escorts necessary in disturbed districts. In the Upper Burma division alone the average duration was 48 hours. In Lower Burma floods and dacoits also contributed largely to the total number of hours of interruption. Making allowance for these exceptional causes, which are beyond departmental control, and for the growth of the lines, the year's maintenance operations compare favourably with those of past years.

82. The number of interruptions caused by neglect or other causes in telegraph offices has fallen from 273 in 1887-88 to 204 in 1888-89, of which 151 occurred in combined offices, 30 in departmental offices worked by civilian signallers and the remainder, 23, in departmental offices worked by military signallers. The duration of these stoppages, which are sometimes due to illness of the staff in isolated places, aggregated 3,818 hours against 3,229 hours in the preceding year.

83. Unknown causes accounted for 263 stoppages aggregating 2,911 hours against 194 in number and 1,902 hours in duration during 1887-88.

84. The following is a summary of the interruptions to communication, classified as far as possible under the principal causes to which they were definitely traced :—

	No.	Hours of duration.
Defects in lines and cables (preventible)	264	4,280
Cyclones and exceptional storms (unpreventible)	204	5,215
Floods (unpreventible)	51	2,069
Lightning (unpreventible)	23	644
Falling trees (other than those caused by cyclone, &c.) (unpreventible)	354	8,107
Birds and other animals (unpreventible)	127	2,008
Malice (unpreventible)	159	4,105
Other causes (unpreventible)	222	5,049
Faults in offices (unpreventible)	204	3,818
Unknown causes	263	2,911
<b>TOTAL</b>	<b>1,903</b>	<b>38,729</b>

It will be noticed that interruptions due to trees form the largest item in the above list, and in addition to those traced directly to this cause, many interruptions under other heads are more or less connected with falling trees and boughs. Jungle clearing and tree pruning require unremitting attention throughout the year to an extent which is unknown in countries which have not to contend with tropical vegetation, and the difficulties of the department in maintaining communication are greatly enhanced by the necessity of sparing as much as possible all trees which are valuable either for shade or for their products.

85. In the Assam Division much trouble was given by falling trees on the Golohat-Kohima and Manipur-Tammu sections. In one case the wire was broken maliciously in Manipur territory and the offender was sentenced by the Darbar authorities to 20 days' confinement.

In the Bellary Division the failure of the cable across the Mandovy River near Goa caused a long interruption of 454 hours, but traffic was very little delayed as a boat service was at once established, until arrangements could be made for the repair of the cable.

In the Bengal Division floods gave some trouble, also breakage of the wire from the masts of boats sailing off their usual track during such floods.

In the Burma Division, the lines suffered a great deal from exceptional causes. On the Tavoy-Yeh section, a serious outbreak of dacoity occurred in April and May, during which much damage was done to the telegraph lines, and a rest-house at Pinlaywah belonging to the department was burned down. The repairing parties had to be protected by troops and volunteers. Another outbreak of dacoity occurred on the 1st July near Zigon Railway Station between Rangoon and Prome, when all the wires were cut and many posts thrown down over a distance of  $2\frac{1}{2}$  miles. In August very heavy floods occurred in the Sittang Valley between Shwegyin and Moulmein, the country being inundated in many places to a depth of from 15 to 20 feet, so that the wires were either in contact with the water or totally submerged. At these latter places the repairing parties had to raise the wires on bamboos, which were lashed to the submerged posts. At the Sittang end of the Pegu-Sittang Canal, the country presented the appearance of a vast sheet of water, large boats were sailing over the fields and elephant-grass jungle in all directions, and the position of the canal itself could only be detected by the tops of those telegraph posts planted alongside of it, that had withstood the effects of the flood. Before the repairs in the Sittang Valley were completed, a hurricane of extraordinary violence passed through the forest near Bilin, levelling everything in its path for a width of from five to eight hundred yards. The telegraph line was blown down and much injured, the wires being buried under hundreds of fallen trees. Another incident that may be mentioned, as shewing the various difficulties the telegraph officer has to contend with, was the damage done to the lines by an escaped and very vicious elephant between Thayetamine and Sittang, which was driven by the inundations into some low hills in the vicinity of the line and is

reported to be still at large and constantly tearing down the posts and doing other damage, all efforts to destroy the animal having hitherto proved unsuccessful.

In the Dacca Division an interruption was caused in May between Khulna and Barisal by the theft of a lightning discharger from the cable-house at Boga. Our cable-houses on the banks of rivers are often in most isolated places, very difficult of protection, and fortunately this class of very troublesome theft is rare. The matter in the present case was reported to the Government of Bengal, and though the Police were unable to trace the thief, an order was issued that all District Magistrates and Superintendents of Police should exercise special surveillance over the cable-houses.

In the Ganjam Division a cyclone struck the coast between Pooree and False Point and swept inland in a north-westerly direction doing very considerable damage to the lines and causing interruptions which aggregated 374 hours.

In the Madras Division a severe cyclone occurred in the neighbourhood of Madras itself on the 31st October, doing very serious damage to the lines, and for a short time cutting off all telegraphic communication between Madras and India generally. Between Madras and Arkonam alone over one hundred posts were blown down and many broken.

In the Punjab Division much damage was done by floods between the 18th and 20th of September on the lines in the neighbourhood of Umballa, Meerut and Rurki, resulting in interruptions which aggregated 202 hours. A landslip also occurred at the same time on the Mohan Pass near Dera Dun which broke through the line in two places. Repairs were much delayed owing to the flooded state of the country. A case of malicious interruption also occurred in December on the line between Baraut and Chaprauli, a long piece of wire having been cut out and stolen. The Police were enabled to bring this offence home to the perpetrator, a village Chowkidar, who was punished by a year's imprisonment. In this case, as in another that occurred near Budaon in the Oudh and Rohilkhand Division, the perpetrator of which was not punished, it is believed that the wire was cut and stolen, not for its value but to subserve private malice by throwing suspicion on innocent persons.

In the Upper Burma Division no less than 32 faults, lasting 1,616 hours, are ascribed to dacoits or malice, and falling trees account for 54 faults, lasting 3,765 hours.

### Railway and Canal Systems.

86. Appendix L is a statement showing all faults which have occurred on the lines and in the offices of railway and canal systems whose telegraphs are maintained by this department, their nature, number and duration, as well as the mileage of wire in use by each system at the close of the year.

87. The interruptions on the lines, per mile of wire were '019 against '018 in the previous year.

88. The interruptions due to defects in offices, the principal causes of which are the ignorance or inexperience of the signallers, were '086 per office against '065 in the previous year. Interruptions distinctly traced to the carelessness of signallers were '252 per office, a slight improvement on the figures of the previous year, when the rate was '267.

98. One of the interruptions on the lines was due to a daringly illegal act, a post having been thrown down, and the wire cut and a portion stolen, on the branch railway between Kasganj and Soron on the Cawnpore-Achnera extension of the Rajputana-Malwa State Railway. The offender was not discovered.

## V.—PRIVATE LINES AND TELEPHONE EXCHANGES.

### Private Lines.

90. These systems aggregate 919 miles of wire, and 293 offices. There were 58 faults on the wires and 76 in the offices. With regard to the interruptions on the lines, no less than five cases of theft of copper wire occurred in the town of Madras, a considerable quantity of wire being stolen. The thief was

not discovered, but on a reward being offered for his detection and the posts being surrounded with rings of barbed wire, the thefts ceased.

91. The Telephone Companies at Calcutta, Madras, Bombay, Karachi, Moulmein and Rangoon earned R14,500 more than in 1887.

The following table shows the extent of their operations for the past seven years :—

## VI.—ELECTRICAL.

93. No change was made in the differential system of Duplex working (which enables a message to be simultaneously transmitted in each direction on the same wire) except in the matter of using manual or electro-magnetic current reversers, and a single battery, instead of an ordinary transmitting key and two batteries. Experiments were being tried in this direction at the close of the year and it is anticipated that before the next report is written these experiments will have resulted in marked progress. Twenty-sixth circuits were being worked Duplex at the close of the year.

94. As regards Quadruplex working (by which two messages are simultaneously sent in each direction on a single wire) there were three main circuits so working at the close of the year, of which the last was added during the year, *viz* :—

Bombay-Madras.  
Calcutta-Rangoon.  
Calcutta-Agra.

The Bombay-Madras circuit is worked direct, that is to say, there is no repetition of traffic, manual or automatic. This is probably the longest line (796 miles) on which Quadruplex working has been attempted in any country and its success is doubtless mainly due to the employment of a copper in place of the usual iron conductor.

On the Calcutta-Rangoon Quadruplex circuit messages are automatically repeated at Akyab and on the Calcutta-Agra circuit at Allahabad.

**95.** Although the Duplex and Quadruplex systems on one wire necessitate the employment of as many signallers as would be required for 2 or 4 wires they save a large capital expenditure on extra lines.

**96.** Among other experiments with new apparatus may be mentioned a trial of Cardew's Vibrating sounders in conjunction with telephones by the use of which signals can be transmitted over a line, or through a cable, so faulty that the infinitesimal remnant of current reaching the distant station fails to actuate any other pattern of instrument.

**97.** The number of stations from which regular tests of the condition of the lines are taken was increased during the year from 22 to 24 by the addition of Golaghat and Nagpur.

**98.** In addition to the ordinary routine work of the Electrical Branch in connection with testing of lines, insulators, cables and apparatus, the Electrician was employed in conducting many useful experiments and investigations with a view to improving our signalling apparatus, in localising faults in cables across large rivers resulting in many cases in rendering their repair practicable, in drawing up technical instructions for the guidance of the employes and in making tours of inspection to report on the technical arrangements of some of the more important offices in India and Burma.

## VII.—STORES AND WORKSHOPS.

**99.** There is nothing special to note with regard to the Store Branch, which met all demands promptly and efficiently.

**100.** A complete stocktaking of all the workshops, stores and materials was finished during the year.

**101.** A list of the principal line stores, tools, and office instruments manufactured is given in Appendix O. The number of relays manufactured has increased from 30 in 1887-88 to 100 in 1888-89, and the workshops are now able to supply every description of Telegraph instruments which is ordinarily used. The instruments and apparatus which were repaired in addition to those manufactured amounted to 3,359.

GOVERNMENT OF INDIA.  
REVENUE AND AGRICULTURAL DEPARTMENT.

**Weather Review of India for the week ending at 8 a.m. on  
Monday, January 6th, 1890.**

The cyclonic conditions, which prevailed over the southern and eastern portions of the Indian region during the preceding week, disappeared during the week under review. Conditions assumed the distribution which prevailed antecedent to the appearance of the two cyclonic storms recently noticed, and fine weather and an ante-cyclonic circulation of the winds prevailed, with one local exception, throughout the whole Indian region. This local exception was in Bengal where quite at the close of the week a small and shallow depression was formed giving rise to a feeble cyclonic circulation, overcast skies and slight rain.

The chart of the 31st December, 1889, showed a large high pressure area overlying North-Western India, the Gangetic plain and the Central Provinces and a small high pressure area overlying the Upper Assam Valley. From these two regions pressure decreased slowly and reached a minimum over the south of the Bay and along the Malabar coast. From these two high pressure areas there was a steady outflow of air of moderate strength. Thus north-westerly breezes were reported down the Gangetic plain and along the east coast of the Peninsula, northerly winds in the Carnatic and Ceylon, and easterly winds on the west coast of the Peninsula. The outset from the Assam high pressure was shown by north-easterly winds at Dhubri and Jalpaiguri and northerly winds over Burma. The temperature was above the normal average in all provinces and the weather was fine and settled throughout the whole Indian region. This description of the weather applies to each of the succeeding six days with the following exceptions. On the 1st and 2nd the north-westerly current down the Gangetic plain increased considerably in strength and blew a gale at several stations. On the 3rd the wind died down considerably in the Gangetic plain. This was accompanied by a rapid rise of temperature at the hill stations, where on the 3rd the mean temperature was  $15^{\circ}$  above the normal at Quetta, Simla, and Murree,  $11^{\circ}$  at Ranikhet and  $8^{\circ}$  at Mount Abu. On the 4th a brisk fall of temperature occurred at Quetta and a moderate fall at the other hill stations except Murree where the excess was about equal to that reported on the 3rd. On the 5th the winds over Bengal showed a feeble cyclonic circulation about a centre near Jessore, but the weather remained fine there. On the 6th the depression over Bengal had developed somewhat and moist south-westerly winds from the Bay were blowing into Deltaic Bengal and carrying much moisture to Assam where slight rain had fallen.

*Temperature.*—The general temperature over the whole Indian region has been less high than it was during last week. The hottest day relatively to the average was the 31st December, 1889, when every province reported an excess. On the 1st January there occurred a general fall and the mean temperature of Madras and Burma fell below the normal average. From this day onward the mean temperature was low over the Peninsula and the coolness extended to the Central Provinces on the 3rd. The other provinces were above the average throughout the week, the warmest region being Sind and Rajputana. The ex-

ceptional warmth at the hill stations has been very remarkable, as will be seen by the following table :—

	31st.	1st.	2nd.	3rd.	4th.	5th.	6th.
Quetta . . . . .	+ 7'1	+ 2'8	+ 2'7	+ 15'6	+ 7'2	+ 2'8	+ 0'5
Murree . . . . .	+ 2'4	+ 4'8	+ 4'0	+ 14'7	+ 15'2	+ 12'1	+ 7'0
Simla . . . . .	+ 6'9	+ 7'3	+ 9'4	+ 14'8	+ 12'6	+ 8'3	+ 7'0
Ranikhet . . . . .	+ 7'0	+ 10'4	+ 12'6	+ 11'6	+ 6'2	+ 2'9	+ 1'1
Darjeeling . . . . .	+ 4'5	+ 4'5	+ 5'8	+ 5'9	+ 5'2	+ 6'7	+ 5'2
Mount Abu . . . . .	+ 4'3	+ 3'8	+ 5'7	+ 7'7	+ 8'4	+ 5'8	+ 4'4
Pachmarhi . . . . .	+ 3'1	+ 6'3	+ 4'2	+ 1'5	+ 2'4	+ 3'8	— 1'9

The stations most affected by this exceptional heat were Quetta, Murree, Simla and Ranikhet, the more southern stations of Mount Abu and Pachmarhi and the eastern station of Darjeeling feeling it only in a modified degree. Calms or light winds from some easterly quarter prevailed at most stations during this period, and though there was some increase of moisture in the air, there was very little cloud.

Sind experienced very high temperatures on the 4th, 5th, and 6th, with north-erly winds.

The following table shows the variations of the mean temperature of the present and of the past weeks from the normal average :—

PROVINCES.	Difference of mean temperature of last week from normal.	Difference of mean temperature of present week from normal.
	o	o
Burma . . . . .	+ 3'3	+ 1'5
Bengal . . . . .	+ 4'6	+ 1'3
North-Western Provinces . . . . .	+ 2'3	+ 3'0
Punjab . . . . .	+ 3'2	+ 3'9
Bombay . . . . .	+ 1'0	— 0'1
Central Provinces . . . . .	+ 1'0	— 0'1
Guzerat and Central India . . . . .	+ 1'1	+ 1'4
Sind and Rajputana . . . . .	+ 2'3	+ 4'1
Madras . . . . .	+ 3'9	— 1'4

This table shows that in North-Western India and in Guzerat and Central India there has been some accession of heat, but that in all other provinces there has been a fall of temperature, as compared with the preceding week.

*Rain.*—There has been no rain of any importance during the past week. The small local depression in Bengal was accompanied with local showers in Arakan, Assam, and North Bengal and the remains of unsettled weather in the south of the Peninsula was accompanied with a slight shower at Madras. Elsewhere there was no rain and the table at the close of the summary shows that at forty-six of the rainfall divisions no rain whatever was recorded and that at five slight showers were received. The showers in Arakan and Assam and North Bengal all occurred on the 6th when a few drops of rain also fell at Bhamo. The rain in the south of the Peninsula fell on the first day of the week.

The concluding column of the final table shows that over Burma and North-Eastern India generally the rainfall has been heavy, but that from Behar north-westwards up the Gangetic plain as far as the Indus as well as southward over Sind, Katiawar, Guzerat and Rajputana, there has been practically no rain since October 15th. The Central Provinces and the whole of the north of the Peninsula has also received heavier rain than usual, but in the south of the Madras Presidency there is another area of deficient fall.

**Weather Review of India for the week ending at 8 a.m. on  
Monday, January 13th, 1890.**

Conditions over India during the past week, though by no means generally unsettled, have yet shown a tendency to become unsettled in various parts of the country. Over the Bay an ill-defined area of depression existed during the first few days of the week, and the rainy squally weather which accompanied it was propagated westward or south-westward over the southern districts of Madras. Similarly there were on two occasions cyclonic movements of the air over Bengal, and the south-westerly winds from the Bay carried much moisture into Assam where some rain fell. In North-Western India the barometer has been very unsteady, falling and rising quickly, and though no disturbance actually appeared in that part of India, a feeble low pressure area advanced towards the Punjab from Sind.

The chart of the 7th showed the distribution of pressure and circulation of the winds over India which, with some modifications, has been characteristic of the whole of the cold weather. The barometer was highest at Peshawar, and from North-Western India a large area of high pressure extended south eastward across Central India as far as the Central Provinces. To the westward, south-westward, southward and south-eastward of this high pressure area the barometer decreased steadily, and relatively low readings were reported from the west coast of the Peninsula and the Bay area, but to the eastward of the anti-cyclone the decrease was checked, and over the Assam Valley readings were nearly as high as in North-Western India. The winds were light and variable within the anti-cyclonic area noticed above, westerly to north-westerly down the Gangetic plain, northerly and north-north-westerly over the Bay area and easterly on the west coast. At the Himalayan stations the directions were very variable. These general conditions, though undergoing slight modifications at times, existed throughout the week under review. The more important of these modifications were as follows:—On the 8th the winds showed an irregular cyclonic motion in the south of the Peninsula and the weather was unsettled over Madras. At the same time south-westerly winds appeared in parts of the Punjab, a change which is usually associated with a depression over the North-West frontier. On the 9th the weather was still very unsettled in the south of the Peninsula and a brisk barometric fall had occurred over North-Western India. The wind at Karachi was northerly and at some Punjab stations south-easterly and easterly which gave the appearance of a depression over Sind. On the 10th, though the barometer had risen in the Punjab, the signs of a depression over Sind had increased and the winds showed an irregular cyclonic circulation. The unsettled weather over the south of the Peninsula had disappeared. On the 11th there was a fairly distinct depression over Sind and Western Rajputana, but otherwise conditions were unchanged. On the 12th the depression from Sind had reached the south of the Punjab and on the 13th it had disappeared,

and the distribution of pressure and winds were the same as those reported quite at the commencement of the week.

*Temperature* has again been very high for the time of year, the greatest excess being in Sind and Rajputana where the weather on the 10th and 11th was exceptionally warm. The warmest days throughout the whole of India were however the 12th and 13th when every Province reported an excess. Bombay and the Central Provinces had each three days on which the mean temperature was below the normal average and Madras had four days, but all the other Provinces were warmer than usual all the week. On the hills the day temperatures continued very high, but the nights became gradually cooler and on some occasions the minimum was below the normal.

The following table shows the variations of the mean temperature of the present and of the past weeks from the normal average:—

PROVINCES.	Difference of mean temperature of last week from normal.	Difference of mean temperature of present week from normal.
Burma . . . . .	+1·5	+1·6
Bengal . . . . .	+1·3	+2·3
North-Western Provinces . . . . .	+3·0	+3·1
Punjab . . . . .	+3·9	+4·9
Bombay . . . . .	−0·1	+0·2
Central Provinces . . . . .	−0·1	+0·4
Guzerat and Central India . . . . .	+1·4	+3·3
Sind and Rajputana . . . . .	+4·1	+6·1
Madras . . . . .	−1·4	−1·1

This table shows that compared with the average the mean temperature of the week under review has been everywhere warmer than that of its predecessor.

*Rain.*—The rainfall of the week has been slight and confined to Burma and Assam and the south of the Peninsula. In most districts the fall for the week amounted to less than  $\frac{1}{4}$  of an inch, but in the south of the Peninsula it reached half an inch. Rain was received at nine and the weather was rainless at 42 of the rainfall divisions, the following being roughly the daily distribution. On the 7th scattered showers fell in Assam and North Bengal, on the 8th and 9th these showers continued, and general rain fell over the south of the Peninsula, the heaviest amount in the latter district being 3 inches at Negapatam. On the 10th and 11th there was no rain anywhere and on the 12th the only fall reported was a slight shower at Murree. On the 13th a few drops of rain were reported from Colombo and a shower from Sibsagar.

These showers have not materially affected the figures in the final column of the accompanying table except in the Madras Presidency where the deficiency is diminishing. In North-Western India, and more particularly in the Punjab, the seasonal deficiency is steadily increasing.

## Weekly Report on the State of the Season and Prospects of the Crops.

**Madras.**—*For week ending 18th January.*—Rainfall very slight in Tanjore, Madura and Tinnevelly; none elsewhere. Crops generally good, but withering in parts of Nellore, Chingleput, South Arcot, Madura, Tinnevelly and Coimbatore, want of rain felt in these districts and in parts of Tanjore and Salem. Prices fairly steady. General prospects fair.

**Bombay.**—*For week ending 22nd January.*—Standing crops damaged by locusts in parts of Sind and suffering from drought in a few districts, otherwise generally good. Cotton prospects generally favourable. Probable outturn of opium in Baroda twelve annas. Fodder generally sufficient and agricultural stock healthy.

**Bengal.**—*For week ending 21st January.*—Showers reported from Burdwan, Khoolna, Rungpore, Pubna, and Dacca; elsewhere no rain. General agricultural prospects continue favourable, but a little rain is required for the *rabi* crops in Behar and Chota Nagpore. Rice harvest completed, except in certain low-lying tracts. Some of the *rabi* crops are being gathered. Poppy reported on favourably, but blight has appeared in places in Durbhunga, Mozufferpore, and Sarun, and the late sowings in the Hajipore sub-division are unsuccessful. Sugarcane promises a fair harvest, except in places in the Rajshahye and Dacca Divisions. Tobacco prospects good. Cultivation of *boro*, or spring rice, in progress, and transplanting begun in certain districts. Common rice still generally dear for the season. A slight fall in price reported from some districts; elsewhere steady during the week. Apprehensions entertained with regard to a tract of the sudder sub-division of Balasore, and matter reported unfavourable in neighbourhood of Talpada, within that tract.

**North-Western Provinces and Oudh.**—*For week ending 22nd January.*—Weather seasonable, but though occasionally cloudy rain still holds off. Irrigated crops, however, are thriving, and prospects generally are fair. The second poppy sowings in Pertabgarh are backward, but healthy. Food stocks are ample and prices fairly steady.

**Panjab.**—*For week ending 22nd January.*—Slight rain has fallen in most districts. Sky is still cloudy. Prices rising in Amballa, Sialkot and Rawalpindi, falling in Peshawar and stationary elsewhere. Sowings of *rabi* crops over. More rain wanted throughout the Province. Condition of crops is good to average. Prospects slightly improved by recent rains in Dehra Ismail Khan and Peshawar. Crops getting damaged by white ants for want of rain in Amritsar. Fodder sufficient except in Sialkot, Peshawar and parts of Lahore. Poppy weeding going on in Jullunder.

**Central Provinces.**—*For week ending 22nd January.*—Weather rather warm and slightly cloudy in places. *Rabi* crops require rain in Saugor and Bilaspur; the crops in the other districts are in good condition, but a little rain would be beneficial. Prices steady.

**Burma.**—*For week ending 18th January.*—No rain fell during the week in Lower Burma. In Upper Burma slight rain fell in Bhamo. The crop prospect in most districts in Upper and Lower Burma continues good. There is a slight fall noticeable in the price of paddy in Akyab and a slight rise in Tharrawaddy and Thongwa; elsewhere in Lower Burma there are no fluctuations. In Sagaing and Pyinmana, there is a slight rise in the prices; elsewhere in Upper Burma, there is no change in prices.

---

**Assam.**—*For week ending 22nd January.*—Weather seasonable. Slight rain in most districts. Reaping of late rice almost finished. Land being prepared for summer rice. Gathering of mustard and pruning of tea continue.

**Mysore and Coorg.**—*For week ending 22nd January.*—Crops good in Mysore. Outturn of harvests generally favourable. No material change in prices.

Rice and coffee harvest still in progress in Coorg.

**Berar and Hyderabad.**—*For week ending 22nd January.*—In Berar the weather is clear and cold. Threshing of *jowari* in progress. Cotton picking continues. *Rabi* in good condition. Fodder sufficient except in Ellichpur district. Prices stationary. Land under preparation for next year.

No rain at Hyderabad. Sowing of *tabi* crops continues; *rabi* crops thriving. Prices of wheat  $11\frac{3}{4}$ , coarse rice 10, white *juar* 15, yellow *juar* 18, and *tur*  $13\frac{1}{2}$  seers per current sicca rupee.

**Central India.**—*For week ending 22nd January.*—Condition of crops in Bundelkhand not good. Rain much wanted in parts of Bhopawar Agency and badly wanted in Goona Agency where price of food-grains is rising.

**Rajputana.**—*For week ending 22nd January.*—Agricultural operations generally satisfactory. Standing crops good, but rain much needed in Alwar. Agricultural stock good. Pasturage or fodder sufficient, except in Marwar and Dholepur. Prices steady generally.

(b) the Courts of the Tahsildár and the Munsif shall have jurisdiction to try original suits of such value, not exceeding one thousand rupees, as the Agent to the Governor General may in the case of each Tahsildár or Munsif direct, or if no such direction has been made, then original suits of value not exceeding three hundred rupees;

(c) the Courts of the Assistant Political Agent, the Extra Assistant Commissioner and the Native Assistant shall have jurisdiction to try original suits of value not exceeding ten thousand rupees; and

(d) the Court of the Political Agent, and the Court of any Assistant Political Agent, Extra Assistant Commissioner or Native Assistant whom the Agent to the Governor General may, by notification in the Gazette of India, specify in this behalf, shall have jurisdiction to try original suits without limit as regards the value.

7. (1) Subject to the provisions of this section, and of any other enactment for the time being in force, the Court of the Agent to the Governor General shall, for the purposes of all enactments relating to civil jurisdiction for the time being in force, be deemed to be the High Court for the said territories.

(2) The Court of the Political Agent shall, for the same purposes, be deemed to be the principal Civil Court of original jurisdiction and the District Court for the local area within its jurisdiction.

(3) For the purposes of the Indian Divorce Act the Chief Court of the Punjab and the Political Agent shall be deemed to be the High Court and the District Judge, respectively.

8. (1) The general superintendence and control over all other Civil Courts shall be vested in, and all such Courts shall be subordinate to, the Court of the Agent to the Governor General.

(2) Subject to the general superintendence and control of the Court of the Agent to the

(Chapter III.—Civil Procedure.—Sections 9-23.)

Governor General, the Political Agent shall control all other Civil Courts in the local area within his jurisdiction.

CHAPTER III.  
CIVIL PROCEDURE.  
*General Rule.*

9. Except as otherwise provided by any other enactment for the time being in force, the provisions of this Chapter shall apply to all suits and other proceedings in the Civil Courts of the said territories.

*Prior Adjudications and Pending Suits.*

10. A Court shall not try any suit in which the matter in issue has been heard and finally decided by a Court of competent jurisdiction in a former suit between the same parties in the same rights, or between parties under whom they, or any of them, claim.

11. A Court shall not try any suit in which the matter in issue is also in issue in another suit between the same parties, or between parties under whom they, or any of them, claim, pending in the same or any other Court, whether superior or inferior, in British India or in the said territories.

*Appearances, Applications and Acts by Parties.*

12. (1) The Court may in its discretion, for any sufficient reason, permit any appearance, application or act, required to be made or done by a party under this Law, to be made or done by the party through an authorized agent, or through a legal practitioner having authority from the Agent to the Governor General to plead and act for parties with the permission of the Court under this sub-section.

(2) Permission under this section shall in all cases be granted to persons exempt from personal appearance in Court.

(3) Except with the permission of the Court granted under the foregoing provisions of this section, every appearance, application or act under this Law shall be made or done by a party in person.

(4) When the permission mentioned in this section is granted to a party, the agent or legal practitioner must, unless, in the case of a legal practitioner, he is an advocate of a High Court established by Royal Charter or of the Chief Court of the Punjab, be appointed by the party by instrument in writing, and that instrument must be filed in Court.

13. In any case in which the Court has permitted a party not being a person exempt from personal appearance in Court to appear by an agent or a legal practitioner, it may, for reasons to be recorded in writing, withdraw the permission at

any stage of the proceedings, and require the party to attend in person.

14. A party required to attend in person under the last foregoing section, and failing so to attend, shall be subject to the provisions of this Law applicable to parties who do not appear.

*Institution of Suits.*

15. The plaintiff must begin his suit by presenting to the Court a written plaint.

16. On a plaint being so presented, the Court shall register the suit and examine the plaintiff, or his agent or legal practitioner, as to the merits of the case.

17. If upon the examination it appears that there is no substantial cause of action, or that the claim is one which from its nature is not a proper subject of litigation in a Civil Court, the Court may dismiss the suit.

18. If upon the examination it is found that the plaintiff sets forth a good cause of action, the Court shall issue a summons to the defendant to appear and answer at a certain time and place.

*Service of Summons on Defendants.*

19. Service of the summons shall be made by delivering or tendering a copy thereof signed by the Judge or such officer as he appoints in this behalf, and sealed with the seal of the Court, and, when there are more defendants than one, service of the summons shall be made on each defendant.

20. Whenever it is practicable, the service shall be on the defendant in person.

21. When the defendant cannot be found the service may be on any adult male member of his family residing with him or, where the defendant is a member of a tribe, on the head of the tribe.

22. (1) Where the summons is served on the defendant personally, or on any person on his behalf, the person on whom the service is made shall be required to sign an acknowledgment of service, to be endorsed on the original summons or on a copy thereof under the seal of the Court.

(2) If the person refuses to sign the acknowledgment, the service of the summons shall nevertheless be held sufficient if it is otherwise proved to the satisfaction of the Court.

23. When the defendant cannot be found, and there is no person on whom the service can be made, the service may be effected by posting the copy

*The Baluchistan Agency Civil Justice Law, 1890.*  
(Chapter III.—Civil Procedure.—Sections 24-33.)

of the summons on the outer door of the house in which the defendant ordinarily resides, if he ordinarily resides at any place within the local limits of the jurisdiction of the Court.

24 The person serving a summons shall, in all cases in which the summons has been served, endorse on the original summons, or on a copy thereof under the seal of the Court, the time when, and the manner in which, it was served.

25. (1) When a summons is returned to the Court without having been served, if the plaintiff satisfies the Court that there is reasonable ground for believing that the defendant is keeping out of the way for the purpose of avoiding the service of the summons, or that for any other reason the summons cannot be served in the ordinary way, the Court shall order the summons to be served—

(a) by posting a copy thereof on some conspicuous place in the court-house and also on the door of the house in which the defendant last resided, if it is known where he last resided, or

(b) in such other manner as the Court thinks proper.

(2) A service in the manner ordered by the Court under clause (b) of sub-section (1) shall be as effectual as if it had been made in the manner specified in clause (a) of that sub-section.

26. When service is substituted by order of the Court under the last foregoing section, the Court shall fix such time and place for the appearance of the defendant as the case may require.

27. If the defendant ordinarily resides beyond the local limits of the jurisdiction of the Court in which the suit is instituted, and has not within those limits an agent empowered to accept the service, the Court shall transmit the summons for service to a Court having jurisdiction at the place where the defendant resides.

28. (1) If the defendant resides out of British India and the said territories and has not therein an agent empowered to accept the service, the summons shall be addressed to the defendant at the place where he resides, and be forwarded to him by post or otherwise.

(2) If at the time fixed for the hearing of the suit, or at any time subsequent thereto to which the hearing may be adjourned, a defendant to whom a summons has been forwarded under sub-section (1) does not appear, the Court may, on the application of the plaintiff, direct that the plaintiff shall be at liberty to proceed with his suit in such manner, and subject to such conditions, as the Court thinks fit.

29. When the suit is for land or other immoveable property, and the summons for any reason cannot be served on the defendant in person, the summons may be served on any agent of the defendant in charge of the land or other property.

*Consequences of non-appearance of Parties.*

30. (1) If, at the time fixed for the defendant to appear and answer, or at any time subsequent thereto to which the hearing of the suit may be adjourned, neither party appears when called upon by the Court, the suit shall be dismissed.

(2) When a suit is dismissed under sub-section (1), the plaintiff may bring a fresh suit, or, if within a period of thirty days from the date of the dismissal of the suit he satisfies the Court that there was sufficient cause for his failure to appear, the Court may issue a fresh summons upon the plaint already filed.

31. (1) If the plaintiff appears and the defendant does not appear, and it is proved to the satisfaction of the Court that the summons was duly served, the Court shall proceed to hear the suit *ex parte*.

(2) If the defendant appears at any subsequent time to which the hearing of the suit may be adjourned, and assigns good cause for his previous failure to appear, he may, upon such terms as the Court may direct as to payment of costs or otherwise, be heard in answer to the suit in like manner as if he had appeared at the time fixed for his appearance.

32. (1) If the plaintiff appears and the defendant does not appear, and it is not proved to the satisfaction of the Court that the summons was duly served in any of the modes of service provided by this Law, the Court may direct a second summons to the defendant to be issued in any of those modes.

(2) If the plaintiff appears, and it is proved to the satisfaction of the Court that the summons was served on the defendant, but was served on him too late to admit of his appearing and answering at the time fixed in the summons, the Court shall postpone the hearing of the suit to a future time to be fixed by the Court and may direct notice of that time to be given to the defendant.

33. (1) If the defendant appears and the plaintiff does not appear, the Court shall pass judgment against the plaintiff by default, unless the defendant admits the claim, in which case the Court shall pass judgment against the defendant upon the admission.

(2) When judgment is passed against a plaintiff by default, he shall be precluded from bringing a fresh suit in respect of the same cause of action.

*The Baluchistan Agency Civil Justice Law, 1890.*  
(Chapter III.—Civil Procedure.—Sections 34-46.)

**34.** If there are two or more plaintiffs, and appearance is made by one or more of them and not by the other or others, the Court may, at the instance of the plaintiff or plaintiffs appearing, proceed with the suit in the same way as if all the plaintiffs had appeared, and pass such order as is just and proper in the circumstances of the case.

**35.** If there are two or more defendants, and appearance is made by one or more of them and not by the other or others, the Court shall proceed with the suit to judgment and shall, at the time of passing judgment, make such order with respect to the defendant or defendants by whom appearance has not been made as is just and proper in the circumstances of the case.

**36.** (1) Where judgment is passed *ex parte* against a defendant, he may apply at any time, not later than thirty days from the date on which any process for enforcing the judgment has been executed, to the Court by which the judgment was passed, for an order setting it aside.

(2) If it is proved to the satisfaction of the Court that the summons was not duly served, or that the defendant was prevented by sufficient cause from appearing when the suit was called on for hearing, the Court shall pass an order setting aside the judgment and appoint a time for proceeding with the suit.

**37.** (1) Where judgment is passed against a plaintiff by default he may apply, within thirty days from the date of the judgment, for an order setting it aside.

(2) If it is proved to the satisfaction of the Court that the plaintiff was prevented by sufficient cause from appearing when the suit was called on for hearing, the Court shall pass an order setting aside the judgment by default and appoint a time for proceeding with the suit.

**38.** A judgment shall not be set aside on an application under either of the two last foregoing sections unless notice of the application has been served on the opposite party.

*Fixing Issues and Preparations for the Hearing.*

**39.** If both parties are present at the time fixed for the defendant to appear and answer, or at any time subsequent thereto to which the proceedings are adjourned for the purposes of this section, the Judge shall examine them with a view to ascertaining upon what questions of law and fact the parties are at issue, and, having with his own hand made a note of the examination, shall frame and record the issues of law and fact on which the right decision of the case depends.

**40.** (1) If the parties are at issue on a question of fact, the Court shall then further examine them as to the evidence they intend to adduce upon the question, and shall either proceed at once to hear the suit or appoint a time and place for the hearing thereof.

(2) Upon such sums being deposited for the expenses of witnesses as, subject to any rules under this Law, the Court thinks reasonable, the Court shall issue such summonses for the attendance of witnesses and the production of documents as the parties may desire.

**41.** A summons to a witness shall be signed, sealed and served as nearly as may be in the manner provided by this Law for the signing, sealing and service of a summons on a defendant.

**42.** If a witness on whom a summons has been so served neglects or refuses to appear at the time and place appointed and does not offer reasonable excuse for the neglect or refusal, the Court may issue a warrant to bring the witness before it to give his evidence.

*The Hearing.*

**43.** (1) At the time for the hearing of the suit, or at some time subsequent thereto to which the hearing may be adjourned, the evidence of the witnesses, and of any parties to the suit appearing as witnesses, shall be taken by the Judge orally in open Court and in presence of the parties.

(2) Any evidence given in a language not understood by a party to the suit shall be interpreted to that party as the examination proceeds.

(3) Each party may examine the opposite party and all witnesses.

**44.** A memorandum of all evidence taken shall be recorded by the Judge with his own hand as the examination proceeds, either in English or in the language prescribed by the Agent to the Governor General as the language of the Court, as the Judge thinks fit.

**45.** At any stage of the suit the Court may examine as a witness any person present in Court or call upon him to produce any document or other thing, or may summon any person to give evidence or produce any document or other thing, if it considers that the evidence of the person, or the production of the thing, is likely to aid it in the decision of the matters in dispute.

*Judgments.*

**46.** When the documentary evidence, if any, has been perused, and the witnesses have been examined and the parties heard, the Court shall, either immediately or at some subsequent time of which due notice shall be given to the parties, deliver its judgment.

*The Baluchistan Agency Civil Justice Law, 1890.*  
(Chapter III.—Civil Procedure.—Sections 47-60.)

**47.** The judgment shall be written by the Judge with his own hand either in English or in the language prescribed by the Agent to the Governor General as the language of the Court, as the Judge thinks fit, and it shall be dated and signed by the Judge at the time it is delivered.

**48.** The judgment shall contain the decision of the Court upon each issue, together with the grounds of the decision, and shall conclude with a decree clearly stating the relief granted or other determination of the suit:

Provided that, when the decision upon one or more issues is sufficient for the disposal of the suit, the Court may, in its discretion, abstain from pronouncing any decision upon the remaining issues.

**49.** (1) The decree shall specify the costs payable and the parties by whom they are to be paid.

(2) In determining the amount of costs the Court shall not allow the remuneration of agents or legal practitioners permitted under section 12 to plead or act.

**50.** When the suit is for a sum of money due to the plaintiff, the Court may in the decree order simple interest at such rate as it thinks fit to be paid on the principal sum adjudged from the date of suit to the date of decree in addition to any interest adjudged on the principal sum for any period prior to the date of suit, with further simple interest, at a rate not exceeding six per centum yearly, on the aggregate sum so adjudged and on the costs of the suit from the date of the decree to the date of payment.

**51.** In a decree for the payment of money the Court may, for any sufficient reason, order that the amount due under the decree shall be paid by instalments with or without interest.

**52.** Where in a suit for moveable property the decree is for the delivery of the property, the Court shall fix an amount of money to be paid as an alternative if delivery cannot be made.

**53.** Certified copies of the judgment, and, in cases where the judgment is required to be translated, of the translation thereof, shall be furnished to the parties on their application and on payment by them of the cost of the copies.

*Procedure in Special Cases.*

**54.** If at any stage of a suit before judgment a Court is satisfied, upon such inquiry as it considers necessary, that any property which is in dispute in the suit is in danger of being wasted, damaged or alienated by a party

to the suit, it may, on such terms as may appear to it to be just, issue an injunction to that party commanding him to refrain from the act of waste, damage or alienation, or make such order for the purpose of staying and preventing him from wasting, damaging or alienating the property, or for the care and custody thereof, as it thinks fit.

**55.** In any suit for restraining the defendant from the committal of any breach of contract or other injury, the Court may at any time after the commencement of the suit, and either before or after judgment, and on such terms as may appear to it to be just, issue an injunction restraining the defendant from the repetition or continuance of the breach of contract or the injury or the committal of any similar breach of contract or injury.

**56.** In case of disobedience to an injunction issued under either of the two last foregoing sections, the injunction may be enforced by attaching the property of the party to whom the injunction was addressed and retaining it under attachment until he obeys the injunction.

**57.** The Court may at any time vary or set aside an order made by it under section 54 or section 55; and, if it is satisfied that any such order has been applied for and procured by any party on grounds known to the party to be insufficient, it may award against the party in its decree such amount as it deems a reasonable compensation to the party aggrieved by the order.

**58.** (1) If at any hearing of a suit it appears to the Court desirable that any person not already a party to the suit should be made a party thereto, it may direct that the person be made a plaintiff or defendant, as the case may be.

(2) Where a person is so made a plaintiff or defendant, the Court shall cause a summons to be served on him in the manner provided by this Law for the service of a summons on a defendant.

**59.** Where a suit involves any question regarding succession, inheritance, pre-emption, marriage or caste, or any religious usage or institution, it may be heard with the aid of assessors selected by the Court from the class to which the parties belong.

*Miscellaneous.*

**60.** Women who, according to the customs and manners of the class to which they belong, ought not to be compelled to appear in public, shall be exempt from personal appearance in Court, whether as parties or as witnesses.

*The Baluchistan Agency Civil Justice Law, 1890.**(Chapter III.—Civil Procedure.—Sections 61-68.)*

61. The Agent to the Governor General may, by notification in the Gazette of India, exempt from personal appearance in Court, whether as a party or as a witness, any person whose rank appears to entitle him to the privilege of exemption, and may, by like notification, withdraw the privilege.

62. (1) All documents admitted as evidence in a suit, other than entries in shop-books or other books, shall be filed with the record and shall not be returned to the parties without the written permission of the Court.

(2) A certified copy of any document to be so returned within three months from the date of the disposal of the suit shall be made at the expense of the person applying for the return of the document and be filed with the record.

VII of 1870. (3) No fee shall be payable under the Court-fees Act, 1870, in respect of an application for the return of a document, or in respect of a certified copy to be filed with the record, under this section.

63. (1) When a party desires to put in evidence an entry in a shop-book or other book, he shall produce the book to the Court, together with a copy of the entry on which he relies.

(2) The Court shall forthwith mark the entry for the purpose of identification, and, having examined and compared the copy with it, shall file the copy with the record and return the book to the party producing it, unless there seems to the Court to be cause for impounding it.

*Execution of Decrees.*

64. (1) The Court shall, on application made by the decree-holder in writing, execute its decrees in the following manner, that is to say:—

(a) a decree for property in the possession of the judgment-debtor, by giving possession of the property to the decree-holder, or

when the property is moveable, and possession of it cannot from any cause be given, by levying in the manner provided by this sub-section for the execution of a decree for money the amount fixed as an alternative under section 52;

(b) a decree for partition, by dividing the property and giving the decree holder possession of his portion;

(c) a decree for money, by arresting and imprisoning the judgment-debtor subject to the provisions of the Debtors Act, 1888, or by attaching his property and selling it, or by both means;

(d) a decree for the performance of any act by the judgment-debtor, by arresting and imprisoning him or by attaching

his property and retaining it under attachment, or by both means.

(2) No person shall be imprisoned in execution of a decree for a longer period than six months in any case, or for a longer period than six weeks if the decree is for a sum of money not exceeding fifty rupees.

(3) No property in land shall be sold in execution of any decree without the previous sanction of the Agent to the Governor General.

(4) In the last foregoing sub-section the word "land" means land which is not occupied as the site of any building in a town or village and is occupied or has been let for agricultural purposes or for purposes subservient to agriculture, or for pasture, and includes the sites of buildings and other structures on such land.

65. Whenever a person has become liable as surety for the performance of a decree or of any part of a decree, the decree may be executed against him to the extent to which he has rendered himself liable, in the same manner as a decree may be enforced against a judgment-debtor.

66. When an application is made for the execution of an *ex parte* decree, the Court may in its discretion, before ordering execution, require the applicant to give such security as it deems sufficient for compensation for any injury that may be done in the course of the execution, or may issue a notice to the judgment-debtor to show cause why the decree should not be executed.

*Appeal.*

67. (1) A decree or order made in an original suit of value not exceeding fifty rupees by a Tahsildár or Munsif, or in an original suit of value not exceeding one hundred rupees by an Assistant Political Agent, Extra Assistant Commissioner or Native Assistant, shall, subject to the provisions of this Law with respect to revision, be final.

(2) From every other decree or order of a Tahsildár, Munsif, Assistant Political Agent, Extra Assistant Commissioner or Native Assistant in an original suit, and from every decree or order of a Naib-tahsildár in such a suit, an appeal shall lie to the Court of the Political Agent.

68. (1) A decree or order made in an original suit of value not exceeding five hundred rupees by a Political Agent shall, subject to the provisions of this Law with respect to revision, be final.

(2) From every other decree or order of a Political Agent in an original suit an appeal shall lie to the Court of the Agent to the Governor General.

*The Baluchistan Agency Civil Justice Law, 1890.**(Chapter III.—Civil Procedure.—Sections 69-73. Chapter IV.—Reference to Arbitration.—Sections 74-81.)*

69. (1) Save as provided by this section, and subject to the provisions of this Law with respect to revision, an appellate decree or order of a Political Agent shall be final.

(2) An appeal from an appellate decree or order of a Political Agent in a suit of value exceeding one thousand rupees shall lie to the Court of the Agent to the Governor General.

*Revision.*

70. The Agent to the Governor General or Political Agent may, of his own motion or otherwise, call for the record of any case decided by a Court under his control in which an appeal does not lie or in which, for cause shown to his satisfaction, an appeal has not been preferred within the time limited therefor, and may pass such order in the case as he thinks fit.

*Distribution of Business and Transfer of Proceedings.*

71. Notwithstanding anything in the Code of Civil Procedure or the Provincial Small Cause Courts Act, 1887, as applied to the said territories, a Political Agent may, by order, direct that any civil business cognizable by his Court and the Courts under his control shall be distributed among those Courts in such manner as he thinks fit:

Provided that, except so far as it may affect the exclusive jurisdiction of a Court of Small Causes or Court invested with the jurisdiction of a Court of Small Causes, a direction given under this section shall not empower any Court to exercise any powers or deal with any business beyond the limits of its proper jurisdiction.

72. The Agent to the Governor General or Political Agent may withdraw any suit or other proceeding pending in any Court under his control and try it himself or refer it for disposal to any other Court under his control and competent to try it.

*Review.*

73. (1) The Agent to the Governor General may, for sufficient reason, review any decree or order which has been passed by himself and from which an appeal has not been preferred to Her Majesty in Council.

(2) A Court subordinate to the Court of the Agent to the Governor General shall not review any decree or order made by it, except for the purpose of correcting a clerical error or other error manifestly the result of an oversight, without previously obtaining—

(a) in the case of any Court subordinate to the Political Agent, the permission of the Political Agent;

(b) in the case of the Court of a Political Agent, the permission of the Agent to the Governor General.

## CHAPTER IV.

## REFERENCE TO ARBITRATION.

*Making and Contents of References.*

74. Any Court may, with the consent of the parties, by order, refer any dispute before it to arbitration.

75. In referring any such dispute to arbitration, the Court making the reference shall specify, in the order of reference, the precise matter submitted to the arbitrators or arbitrator, and such period as it may think reasonable for the delivery of the award, and the Court may from time to time extend such period.

*References to several Arbitrators.*

76. The parties to the case may each nominate either one or two arbitrators: provided that each party shall nominate the same number; and a third or fifth arbitrator (as the case may be) shall be appointed by the Court making the reference.

77. Every Court making a reference under this Chapter may, on good cause shown, excuse any person from serving as an arbitrator, and may call on the party who nominated such person to nominate another in the place of the person so excused.

78. If an arbitrator dies, desires to be discharged or refuses or becomes incapable to act, the party who nominated him shall nominate another person in his place.

79. If in any of the cases provided for by section 77 or section 78 any party fails for a week to nominate in manner aforesaid, the Court making the reference shall appoint some person to act as arbitrator.

80. The arbitrators shall determine and award concerning the matter referred to them for arbitration.

81. If the arbitrators require the presence of the parties, or any other person, whose evidence may be necessary, they may apply to the Court making the reference, and the Court shall summon such parties or persons; and all such parties or persons shall be bound to attend, either in person or by agent, as the arbitrators may require, and to state the truth and to produce such documents and other things as may be required before the arbitrators.

*The Baluchistan Agency Civil Justice Law, 1890.*

(Chapter IV.—Reference to Arbitration.—Sections 82-87. Chapter V.—Supplemental Provisions.—Sections 88-90.)

**82.** The award shall be made in writing under the hands of the arbitrators, and shall be submitted by them to the Court making the reference, and the Court shall cause notice to be served on the parties to attend and hear the award.

**83.** The Court making the reference may remit the award or any matter referred to arbitration to the re-consideration of the same arbitrators—

- (a) if the award has left undetermined any matter referred to arbitration, or if it has determined a matter not referred to arbitration;
- (b) if the award is so indefinite as to be incapable of execution; or
- (c) if an objection to the legality of the award is apparent upon the face of the award.

**84. (1)** No award shall be liable to be set aside except on the ground of corruption or misconduct of all or any of the arbitrators.

(2) Any application to set aside an award shall be made within ten days after the day appointed for hearing the award.

**85.** If the Court making the reference sees no cause for remitting or further remitting the award or any matter referred to arbitration for re-consideration in the manner aforesaid,

and if no application has been made to set aside the award,

or if the Court has refused such application,

the Court shall decide in accordance with the award of the majority of the arbitrators,

and shall fix the amount to be allowed for the expenses of the arbitration, and direct by and to whom, and in what manner, the same shall be paid.

**86.** Such decision shall not be open to appeal, and shall be at once carried out;

and no Court shall entertain any suit for the purpose of setting it aside or against the arbitrators on account of their award.

*References to a single Arbitrator.*

**87.** If the parties desire that the matter in dispute be referred to one arbitrator instead of to three or five arbitrators under section 76, the matter may be so referred, and the provisions of sections 77 to 86, both inclusive, shall then apply, so far as they can be made applicable, to the single arbitrator and to the proceedings before him and his award.

## CHAPTER V.

## SUPPLEMENTAL PROVISIONS.

**88. (1)** Cases pending at the commencement of this Law shall be disposed of by such of the Courts under this Law as the Agent to the Governor General may direct, and shall be dealt with as nearly as may be in accordance with the provisions of this Law.

(2) But if in any such case it appears to the Court that the application of any provision in this Law would deprive any party of any right which, but for this Law, would have belonged to him, the Court may proceed as if this Law were not in force.

**89. (1)** When in any suit it is necessary for a Court under this Law to decide any question regarding succession, inheritance, pre-emption, marriage or caste, or any religious usage or institution,—

the Muhammadan law in cases where the parties are Muhammadans, and

the Hindu law in cases where the parties are Hindus,

shall form the rule of decision, except in so far as that law has been altered or abolished by any enactment, or is opposed to any custom having the force of law in the said territories.

(2) In cases not provided for by sub-section (1) or by any other law for the time being in force, the Court shall act according to justice, equity and good conscience.

**90. (1)** The Agent to the Governor General may make rules consistent with this Law for regulating the practice and proceedings of his own Court and the Courts subordinate thereto.

(2) With the previous sanction of the Governor General in Council, rules may be made under sub-section (1) for the regulation of the following among other matters, namely:—

- (a) the fees to be paid for processes;
- (b) the fees to be paid for copies and inspection of records;
- (c) the travelling and other expenses of witnesses;
- (d) the qualifications to be possessed by, and the conditions to be imposed on, legal practitioners applying to the Agent to the Governor General for authority to plead and act for parties under this Law, and the fees, if any, to be paid for the concession of such authority; and
- (e) the licensing of petition-writers and regulation of their conduct.

(3) Whoever breaks any rule under clause (e) of sub-section (2) may, subject to the provisions of any rule under that clause, be suspended or removed from practice or be punished with fine which may extend to fifty rupees.

*The Baluchistan Agency Civil Justice Law, 1890.**(Chapter V.—Supplemental Provisions.—Sections 91-95.)*

**91.** The procedure to be observed by any Court under this Law in suits shall be followed, so far as it can be made applicable, in all proceedings in that Court other than suits.

**92.** Notwithstanding anything in this Law a decree or order shall not be reversed or altered on appeal or revision on account of any irregularity of procedure unless the irregularity has occasioned, or is likely to occasion, a failure of justice.

**93. (1)** Subject to the other provisions of this Law, the Agent to the Governor General may, by order in writing, invest any Assistant Political Agent, Extra Assistant Commissioner or Native Assistant with all or any of the powers of a Political Agent under this Law and declare that the powers with which he is so invested are to be exercised within any specified local area and with respect to any particular class or particular classes of cases or with respect to cases generally.

### REVENUE DEPARTMENT.

#### A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,  
Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India R30 and in England 3 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, R6 and 8 shillings respectively, will be charged extra for the whole sets.

\*No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be R45 in India, and 3 guineas in England, exclusive of packing and postage.

## STATEMENT OF OBJECTS AND REASONS.

THE Government of India, having recently had under its consideration the reports of Local Governments on the operation of the Indian Factories Act, 1881, and the proceedings of the Commission appointed in 1884 to consider the working of factories in the Bombay Presidency, is of opinion that the Act of 1881 should be so amended as to—

(a) bring within its scope any factory in which not fewer than twenty hands are employed,

(b) raise from seven to nine years the age below which a child may not be employed in a factory,

(c) limit the hours of work for women to eleven in any one day,

(d) extend to women the provisions of the Act with respect to the allowance of holidays to children, and enable occupiers of factories to fix such days as holidays for the women and children employed therein as, having regard to the different classes or castes to which they belong, may be most convenient for them,

(e) authorise Local Governments to make sanitary rules suited to local requirements, and

(f) render it obligatory on occupiers of factories to furnish such statistics as may from time to time be required by the Government.

The object of the Bill is to amend the Act accordingly.

Among the enactments which will be incidentally affected by the Bill (section 9) are the Electricity Act, 1887, the City of Bombay Municipal Act, 1888, and the Indian Merchandise Marks Act, 1889.

A reprint of Act XV of 1881, with the proposed amendments set forth in italics, is appended to this Statement.

The 31st January, 1890.

### REVENUE RECOVERY BILL.

The Hon'ble MR. CROSTHWAITE presented the Report of the Select Committee on the Bill to make better provision for recovering certain public demands. He said:—

"This Bill was introduced more than two years ago by the Hon'ble Mr. Quinton, and, as his remarks can scarcely now be within the recollection of the

Council, I will, with Your Lordship's permission, describe briefly the scope of the measure. Its principal object is to remedy defects in the law regarding the realization of arrears of land-revenue. The various Land-revenue Acts which are now in force in the different Provinces do not provide for the realization in one Province of land-revenue which is payable in another Province. Consequently, when an arrear of land-revenue is due on account of land situate in one Province and the person from whom the arrear is due is in another Province and has property there, there is no way of enforcing the demand against the person of the defaulter or against the property which he has in the other Province. It may be that the arrear could be easily realized by summoning the defaulter or attaching his moveable property in the other Province; but, as neither of these processes can be resorted to, the Collector is obliged to have recourse to the harsher and more troublesome processes against the land on which the arrear accrued. This defect in the law may place still greater difficulties in the way of realizing a tax or other sum which is recoverable as an arrear of land-revenue. In that case, by transferring himself and his property to another Province, the defaulter may be able successfully to evade payment.

"It appears also that in the land-revenue laws in force in some Provinces there is no provision enabling the Collector of one district to realize from a defaulter in his district revenue which is payable on account of land situate in another district of the same Province. There can be no reason why an arrear of land-revenue should not, like a judgment-debt, be recoverable beyond the limits of the Province or district in which it became payable. The Bill accordingly is intended to supply these defects in the law. It provides that the Collector of one district who wishes to realize land-revenue, or a sum recoverable as an arrear of land-revenue, payable to him from a defaulter who is or has property in another district may send to the Collector of that other district a certificate stating the name of the defaulter, the amount payable by him and the account on which it is due. On receiving the certificate the Collector of the other district may proceed to recover the amount as if it were an arrear of land-revenue which had accrued in his own district. This procedure is similar to that authorized by a law in force in the Province of Bengal, and to that by which a decree of one Civil Court can be transferred for execution to another Civil Court.

"A minor matter with which the Bill deals is the realization of sums which are recoverable as an arrear of land-revenue by a public officer other than a Collector or by a local authority. As the Hon'ble Member who introduced the Bill pointed out, it may happen that the public officer or local authority by whom the sum is recoverable is unacquainted with the land-revenue law and is not in a position to enforce its provisions. The Bill therefore enables the Collector at the request of the officer or local authority to recover the sum as if it were an arrear of land-revenue which had accrued in his own district and was payable to himself.

"I will, my Lord, notice on a future occasion the amendments which have been made in the Bill by the Select Committee."

#### ACTS XVII OF 1864, X OF 1865, II OF 1874 AND V OF 1881 AMENDMENT BILL.

The Hon'ble MR. SCOBLE presented the Report of the Select Committee on the Bill to amend Acts XVII of 1864 (*Official Trustee*), X of 1865 (*Indian Succession*), II of 1874 (*Administrator General*) and V of 1881 (*Probate and Administration*). He said:—

"As this Bill was introduced by me at Simla, I take advantage of the presentation of the Report of the Select Committee to state briefly, for the information of the Council generally, the purposes which it is intended to accomplish.

"The first is to make certain administrative arrangements with regard to the offices of Official Trustee and Administrator General in Bengal. These will only come into effect upon the occurrence of vacancies, when the Governor General in Council will be empowered to divide the enormous territory now subject to the charge of those officers into Provinces, having Calcutta, Allahabad, Lahore and Rangoon for their respective centres, and to appoint a separate officer in whom the two offices may be combined for each Province. This pro-

posul has met with practically unanimous approval, and I cannot do better than quote the opinion of Mr. Broughton, the present Administrator General of Bengal, so far as the division of his own office is concerned. 'Assuming that the rules now in force are effectually applied to the new condition of things,' he says, 'I see no reason why other Administrators General should not be established in convenient centres with a prospect of their ultimately becoming very useful. . . . The actual administration of estates, the collection of the assets, and the ascertaining and disposing of claims, in the place where the deceased person last resided, is the more convenient; it certainly is so in the interests of the creditors, and they, in my experience, are very largely interested in the estates of Europeans, &c., dying in India, especially with the estates of persons dying at a distance from the Presidency-towns.' Mr. Broughton, however, fears that in the beginning, and probably for some time, the Administrators in the smaller provinces would not find their offices remunerative.

"This difficulty is to some extent met by the second proposal of the Bill, to which I have already adverted, and which carries out a recommendation made by the Finance Committee that the offices of Administrator General and Official Trustee should, where possible, be amalgamated. The High Court at Calcutta deprecates any such amalgamation, on the ground that though there is 'a certain surface similarity' between the duties discharged by the offices in question, 'the objects in view are entirely different,' and that confusion, mistakes and expense would follow if a separate ministerial staff for each office were not maintained. 'No ordinary body of clerks and other subordinates,' they say, 'could be expected to understand and remember that the powers of their chief and their duties were totally different, according to the capacity in which he had the control of an estate.' In answer to this objection it seems sufficient to say that the two offices have already been combined for some years in Madras and Bombay without any evil or inconvenient result; and that the combination is not compulsory, but permissive. Mr. Broughton says it would be quite impossible now to amalgamate the office of Administrator General with that of Official Trustee in Calcutta, inasmuch as the time of the latter officer is, he believes, fully occupied. If that is the case, the offices will remain separate in the future as in the past. The Bill imposes no necessity for their combination.

"The third proposal of the Bill is to add Upper Burma to the domain of the Administrator General of Bengal, and British Baluchistan to that of the Administrator General of Bombay. The original proposal was to place both districts under the former officer; but his Bombay colleague has given three good reasons why British Baluchistan would be more appropriately attached to the Bombay than the Bengal Presidency, and the Select Committee has altered the Bill accordingly.

"The next proposal was not in the Bill as originally drafted, but has been introduced in Select Committee, and relates to the remuneration of the Official Trustee. Two different modes are provided under the present law for fixing his commission. He is entitled to make his own terms in regard to all trusts non-existing at the time when he consents to act; but in regard to subsisting trusts he is limited to a rate of commission fixed by section 11 of Act XVII of 1864. This scale, says Mr. Miller, the Official Trustee of Bengal, is so low as to be non-remunerative save in trusts of large amount; and the consequence is that the object of the Legislature in constituting the office is defeated by the officer declining to act. Even if beneficiaries are desirous to pay an adequate remuneration to make it worth the while of the Official Trustee to undertake such trusts, the provisions of the law preclude him from accepting any such proposal; and the usefulness of the office is thus greatly impaired. To remedy this inconvenience, the Select Committee propose to empower the High Court, in making an order for the transfer of any subsisting trust to the Official Trustee, to allow a higher rate of remuneration than that fixed by the Act should the circumstances of the case render it proper to do so.

"Another new proposal in the Bill as amended relates to section 64 of the Administrator General's Act, which provides that when any person not belonging to certain excepted classes dies, leaving assets within the limits of the jurisdiction of a District Judge, the District Judge shall report the circumstance without

delay to the Administrator General of the Presidency, and 'shall retain the property under his charge,' or appoint an officer to take and keep possession of it, until the Administrator General has obtained letters of administration, or some other person has obtained such letters or a certificate under the Act, 'when the property shall be delivered over to the person obtaining such letters or certificate, or, in the event of a will being discovered, to the person who may obtain probate of the will.' It is obvious that a strict construction of this section, which mainly affects Europeans, might work great hardship, especially where the deceased had left a widow or children. The Select Committee has therefore added a proviso to the section, enabling the District Judge to do such acts as may be done by any person who intermeddles with an estate without thereby making himself an executor of his own wrong; that is to say, he may pay the expenses of the funeral, and provide for the immediate necessities of the family and property of the deceased; and, in addition, he may pay servants' wages to a limited extent, and advance such funds as may be necessary for the purpose of obtaining probate or administration.

"Lastly, the Bill proposes to enable an executor or administrator in British India to remit to the proper representative of the deceased's estate in the country of his domicile any residue or surplus of the Indian estate for distribution among the persons entitled thereto outside British India. This will admittedly be a great convenience, especially in the case of small estates. My learned friend, Mr. Latham, the Advocate General of Bombay, proposed to make it obligatory to remit the balance if the executor or administrator of the domicile so required; but the Select Committee agree with the Bombay Government in thinking that 'the existing law affords a sufficient remedy in case of failure of duty on the part of the local administrator,' and that to give a discretionary power in such cases will be practically sufficient."

#### PREVENTION OF CRUELTY TO ANIMALS BILL.

The Hon'ble MR. HUTCHINS moved that the Bill for the Prevention of Cruelty to Animals be referred to a Select Committee consisting of the Hon'ble Mr. Scoble, the Hon'ble Muhammad Ali Khan, the Hon'ble Mr. Halliday and the Mover, with instructions to report within six weeks.

The Motion was put and agreed to.

#### FACTORIES ACT, 1881, AMENDMENT BILL.

The Hon'ble MR. SCOBLE moved for leave to introduce a Bill to amend the Indian Factories Act, 1881. He said:—

"When the Indian Factories Act was passed in 1881, its provisions were limited strictly to those points for which legislation had been shown to be necessary; and the present measure, in like manner, embodies only such amendments and additions as the experience of nine years has proved to be clearly desirable. Much attention has been given in the meantime both in India and in England to the working of the Act, and the condition of the operatives who are affected by it. In 1884 the Bombay Government appointed a Commission to carefully consider the subject in all its bearings, and that Commission presented an exhaustive report in the following year. In 1887 Mr. Jones, who had been Inspector of Factories at Bombay, prepared a special report on Indian factories at the request of Mr. Redgrave, the Chief Inspector of Factories in England, which was printed as an appendix to the general report of that officer for the year. Questions have been asked in the House of Commons as to the hours of labour of Indian operatives, and it has more than once been suggested that it would be expedient to extend the provisions of the English Factory Acts to this country. The Government of India on its part has been occupied in making enquiries of Local Governments and other authorities as to the particulars in which the existing law has been shown to be defective, and as to the restrictions on the employment of labour which could fairly be introduced with a due regard to the interests of the operatives themselves, and without unnecessary interference with the development of manufacturing industries in India.

"It may, I think, be at once admitted that the English Factory Acts are inapplicable, as regards many of their provisions, to the conditions of labour in Indian factories. Mr. Jones, who speaks from experience as an Inspector in both countries, states his opinion that 'the English Factory Acts could not with fairness be put in force in India, the condition of the country, climate and people being so different.' In a despatch to the Secretary of State of 5th March, 1889, which has been laid before Parliament, the Government of India wrote :—

'It is a well-attested fact that the employés in Indian factories reach a standard of comfort and content which is not attained by persons in their own rank of life who are engaged in pursuits of a different nature. Machinery moreover is, owing to the comparative absence of competition, driven in the factories in India at a pace so slow that it would not be tolerated in England; and it is estimated that in many of the mills in India about twice as many operatives are employed as would be employed in mills of the same capacity in England. It follows that the work of the operative in an Indian factory is far more desultory and less exhausting than that of an operative working in England, and that provisions which are rendered necessary by the exacting nature of the labour in English mills are not demanded in the interest of the Indian operatives, who would indeed be prejudicially affected by them.'

"Holding this opinion, it has become the duty of the Government to consider, in the light of the great mass of evidence which has been collected and placed at their disposal, the various suggestions which have been made for the amendment of the Act; and the result of this consideration is contained in the Bill which I now ask leave to introduce. Our proposals are eight in number :—

- (1) to extend the operation of the Act to factories in which not less than twenty persons are employed;
- (2) to raise the minimum age at which children may be employed in any factory from seven to nine years;
- (3) to limit the hours of employment for women to eleven hours a day;
- (4) to secure to women, as well as to children, proper intervals for food and rest during the day, and not less than four days holiday in each month;
- (5) to secure a proper supply of water for the use of operatives;
- (6) to ensure proper ventilation and cleanliness in factories;
- (7) to prevent overcrowding likely to be injurious to health;
- (8) to give Local Governments greater power to obtain returns and make rules for the purpose of carrying out the objects of the Act.

"I will not now detain the Council by stating at length the grounds on which these proposals are supported. I shall have an opportunity of doing so, if necessary, at a later stage. They are, I venture to think, simple and moderate, and will, I hope, be accepted as sufficient by this Council, as well as by the industrial community generally."

The Motion was put and agreed to.

The Hon'ble MR. SCOBLE also introduced the Bill.

The Hon'ble MR. SCOBLE also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The Motion was put and agreed to.

The Council adjourned to Friday, the 14th February, 1890.

**REVENUE REPORT OF IRRIGATION WORKS IN THE BOMBAY PRESIDENCY  
(EXCLUDING SIND) FOR 1888-89.**

No. 15 I., dated Calcutta, the 29th January 1890.

RESOLUTION—By the Government of India, Public Works Department.

Read—

Letter from the Government of Bombay, Public Works Department, No. 124 W. I.—2114, dated the 7th December 1889, forwarding the above Report, and the Resolution of the Local Government reviewing it.

**OBSERVATIONS.**—The total number of works for which Capital Accounts were kept was 40 against 39 in the preceding year, the difference being due to the inclusion of the Gokak Canal Storage Works. The Capital outlay incurred is shown in the following statement:—

		Number of works.	EXPENDITURE, 1888-89.			Total expenditure, direct and indirect, to end of 1888-89.

GRAND TOTAL		40	5,78,583	27,866	6,06,449	2,36,07,230

2. The principal expenditure was again in connexion with the Nira Canal, on which the outlay was Rs. 3,70,638. Five more miles of main canal were opened and good progress was made with the distributaries, the additional area brought under command amounting to 32,285 acres. Rs. 43,920, of which, however, only Rs. 17,527 on works, were spent on the Mutha Canal. The expenditure on the Gokak Storage Works was Rs. 69,294 and on the Parsul Tank Rs. 40,026. In accordance with the suggestion made in paragraph 3 of the Review on the Report for 1887-88, the works for which Capital and Revenue Accounts are kept have now been put in consecutive order and given distinguishing numbers throughout. Reference to them is thereby greatly facilitated.

3. The gross revenue collected and the working expenses for the year are shown in the following statement:—

	Number of works.	GROSS REVENUE OF 1888-89.			Working Expenses of 1888-89.	Net Revenue.	Percentage of Net Revenue on Capital Outlay.

These figures compare favourably with those for the previous year. The increase in gross revenue under Works for which Capital Accounts are kept is Rs. 30,875, and there is a decrease in working expenses of Rs. 10,073, making the improvement in the net revenue Rs. 40,948. The result is a return of 0.58 per cent. on the Capital outlay. If, however, the receipts of the Mutha Canal were excluded from the calculation, the result for the remaining 34 works would be a loss of Rs. 5,220. The interest charges to the end of the year show, for the 40 works, a deficit of Rs. 73,70,598.

4. The Revenue properly due to irrigation, as actually collected and as assessed during the year, is compared in the following table:—

	Number of works.	IRRIGATION REVENUE, DIRECT AND INDIRECT, ACTUALLY COLLECTED IN		IRRIGATION REVENUE, DIRECT AND INDIRECT, ASSESSED IN		AREA IRRIGATED.		AVERAGE RATE ASSESSED PER ACRE.

The increase in the irrigated area and the increase in the assessments of the year (part of which will be collected in 1889-90) as compared with the collections (which are partly based on the assessments of the preceding year) are mainly due to the spread of irrigation under the Nira canal and the defi-

ciency of rain in the cold weather of 1888-89, which necessitated the application of water to the Jowari and other Rabi crops.

But the total area irrigated, even under the exceptional circumstances of the season, only amounted to a small proportion of the area irrigable, which is 512,301 acres and to a still smaller fraction of the area commanded, which is 911,816 acres. The supply was in some cases unequal to the demand, and applications for water for 700 acres of land under the Mutha Canal had consequently to be refused.

5. In paras. 4 and 6 of the General Remarks which preface the report, the distinction drawn between the net revenue actually collected, which is referred to in the former paragraph, and the net assessed revenue to which the latter relates, is not clearly marked.

6. The unrealised demands at the beginning of the year were Rs. 29,824, and at its close Rs. 34,806. In the case of the Mhasvad Tank Rs. 7,707 remained unrealised out of a demand of Rs. 12,096, and Rs. 14,010 was outstanding on the Mutha Canal.

7. The distribution of the working expenses for the year is shown in the following statement:—

The large increase in the irrigated area under Major and Minor Works necessarily caused a considerable decrease in the average rate of working expenses per acre.

8. The principal crops for which water was required during the year were—

	Acres.
Jowari . . . . .	20,272
Wheat . . . . .	14,854
Sugarcane . . . . .	8,820

The increase in cultivation of the two latter is satisfactory as proving a demand for irrigation which is steadily growing, and which will, to a large extent, be independent of the character of the seasons. The demand on account of jowari, bajri, and gram, must always be fluctuating, as when the

rainfall is good, little demand for water on account of these is likely to arise. The area under rice fell from 5,811 acres to 3,886 acres.

9. The average water-rates per acre were Rs. 1·38 for Protective works, Rs. 7·17 for Productive works, and Rs. 2·46 for Minor works for which Capital Accounts are kept. The rates levied on the Mutha Canal ought, however, to be excluded from any general comparison, for as much as Rs. 50 an acre is paid for a perennial flow on land under sugarcane situated within the Poona Cantonment, and Rs. 25 an acre for land within a radius of 8 miles. The rates levied on the three Protective works were Rs. 8 for a perennial, Rs. 3 for an eight months, and Rs. 1·4 for a three months' flow.

10. In reviewing last year's Report the Government of India drew attention to the question of the revision of the water-rates, and those in force prior to 1883-84 have been, under the sanction of the Secretary of State, re-introduced with effect from the commencement of the current official year. The reduction in rates was introduced on the suggestion of the Secretary of State, in order to stimulate the cultivators to take the water, and to ensure the more complete utilization of the supply available. The results, however, have not answered the anticipation. In dry years the cultivators will take all the supply that can be furnished and will pay the full price for it. In good years they will not take more than a very limited quantity at any price. The concession has now been in force for six years instead of the five years originally contemplated, and the old scale, with a few unimportant alterations, has been re-imposed for a period of five years on all works except the Nira Canal, Mhaswad Tank and Koregaon Tank, in which cases the guaranteed period has not yet expired, and the Medleri and Assundi Tanks, on which a continuation of the reduced rates has been sanctioned for one year more.

11. But in view of the indifferent financial position of the Bombay Irrigation Works it is no less important that the working expenses should be diminished than that the revenue should be augmented. In last year's Review it was noticed with approval that considerable reduction had been effected in the cost of Establishment, and the Report for 1888-89 shows that further reductions were made during that year. The percentage charge for Establishment on account of Capital works was slightly more than in 1887-88, due to increased outlay, but there was a reduction in the charge for Establishment on account of Revenue expenditure from Rs. 1,57,268 to Rs. 1,18,217, or 24·83 per cent. But as the Revenue expenditure on works and repairs amounted to only Rs. 1,92,651, the proportionate charge for Establishment was 61·36 per cent., and there can be little doubt that opportunity exists for still further reductions.

12. In para. 10 of last year's Review the Government of Bombay was invited to consider whether in view of securing a larger return on the outlay it might not be advisable either to close or to make over to the District authorities such works as could not be profitably maintained under the present system. This is a matter to which attention must again be directed. For instance, the Muchkundi Tank, on which the Capital charges amount to Rs. 1,54,232, only irrigated two acres, while Rs. 373 were spent on its upkeep, and unless considerable improvement can be looked for in this and similar works, it seems useless to continue to incur expenditure on their maintenance.

13. The daily consumption of water during the year in the Cantonment and Civil station of Poona which are supplied by the Mutha Canal amounted to an average of 20·56 gallons per inhabitant for a population of 36,000. The total daily consumption has increased by nearly 200,000 gallons since 1883-84. The Poona Municipality pays for the water it uses a fixed yearly charge of Rs. 10,000, which is Rs. 41,328 less than the value of the water even at the reduced rate of three annas per 1,000 gallons, which is charged to hospitals and markets and is half the ordinary rate. From the large average consumption it seems probable that a considerable amount of waste takes place, which the system of fixed payment by the Municipality must tend to encourage. In view of the fact mentioned in paragraph 6 that water required for 700 acres of land had to be refused, economy in the distribution of the available supply is essential, and the Government of Bombay is invited to reconsider the propriety of a concession which benefits the Municipality at the expense of the general tax-payer and of the Imperial Treasury.

14. The cost of crop measurements is high in many cases. For the Gokak Canal an establishment costing Rs. 788 was entertained, which it is stated would suffice for a larger area than that irrigated. The maintenance of a permanent establishment for this duty would seem to be unnecessary.

15. In Table I. E., figures are given for each work indicating the irrigating duty of water per cubic foot per second, but the results obtained are too divergent to afford much basis for comparison. In the reports of the individual works, the duty for a 4 months' supply taken from the average discharge of five distributaries on the Nira Canal is 188 acres per cubic foot per second, but the nature of the crops irrigated is not stated. The total quantity of water consumed in bringing to maturity a wheat (khapla) crop is stated to vary between 55,600 cubic feet used by a skilled cultivator on good land to 136,000 by a man not accustomed to irrigation and on shallow soil. This is equivalent to a duty of from 76 to 186 acres per cubic foot per second for a four months' flow. For sugarcane, under the same conditions, one cubic foot per second was found to irrigate 43 acres. The results of observations to determine the evaporation from the surface of reservoirs are also recorded; they vary from  $4\frac{1}{2}$  feet to  $6\frac{1}{2}$  feet annually, or from 0.12 to 0.18 inches per diem.

16. The Report is for the first time illustrated by maps. It was received by the Government of India on the 12th December 1889, which is five days earlier than in the previous year.

RESOLUTION—By the Government of Bombay, P. W. Dept.

Letter from the Superintending Engineer, Central Division, No. 2520, dated 4th November 1889.

Forwards the Revenue Report of Irrigation Works in the Deccan and Gujarat, Parts I and II, for 1888-89, with maps.

RESOLUTION.—The report is as usual divided into two parts, of which the first relates to works for which Capital and Revenue Accounts are kept, and the second to those for which only Revenue Accounts are kept. The first includes entirely new works and restorations or extensive improvements to old works undertaken within the last 25 or 26 years; the second includes the old works, mostly tanks and weirs, throughout the country, which are maintained and kept in repair by the Public Works Department, and to which minor improvements are effected from time to time.

2. The arrangement of Part I has been modified to meet suggestions made by the Government of India in their review of last year's report, and the change is a decided improvement.

4. Taking these figures together, the comparison of results is satisfactory. The increase in area irrigated was wholly, and in revenue receipts was principally, in Class I Works, and will be dealt with under that head. The decrease in Working Expenses is a specially satisfactory feature, as it has been effected almost entirely by reductions in the establishment charges, which, notwithstanding a largely increased outlay on the repair of Class II Works, has resulted in the considerable saving in total outlay shown. The working expenses now amount to 44 per cent. of the revenue, as compared with nearly 49 per cent. in the previous year. The proportion is still very high, but improvement may be anticipated when the longer works have had a longer time to develop, and when the full water-rates, which have been re-imposed, take effect.

#### CLASS I.—WORKS FOR WHICH CAPITAL AND REVENUE ACCOUNTS ARE KEPT.

5. The number of Class I Works in operation remains the same as in the previous year, the Chankapur and Maladevi Tanks and Gokak Canal, 2nd section, being still in abeyance, and the Parsul Tank still in progress. The Gokak Canal Storage works, commenced during the year, are for the present shown as a separate work in the class 'Works in Progress'.

6. The Capital outlay during the year (Rs. 6,06,449) was principally on the Nira Canal, which work made considerable progress, an additional area of 32,285 acres having been brought under command of the canal, and the storage having been increased to 478 millions of cubic feet, the full ultimate capacity being 5,500 millions.

7. The following is an abstract of the Capital Account :—

8. The gross area under command was 911,816, as compared with 911,129 acres in the previous year, while the net irrigable area was 512,301, as compared with 480,021, or an increase of 32,280 acres, the whole of which was on the Nira Canal, as previously noted.

9. The financial results of the year by main heads were as follows :—

	Area irrigated.	REVENUE REALIZED.			Working Expenses.	Net Revenue.
		Direct Receipts.	Share of Land Revenue.	Total.		
CLASS I.—WORKS FOR WHICH CAPITAL AND REVENUE ACCOUNTS ARE KEPT.	Acres.	Rs.	Rs.	Rs.	Rs.	Rs.

The figures in para. 3 show that, in comparison with the previous year, there was an increase in area irrigated of 33,008 acres, and in gross revenue of Rs. 24,100: the working expenses show a decrease of Rs. 10,078 and the net revenue an increase of Rs. 38,173.

10. The most noticeable feature in this comparison is the increase in area irrigated, which amounts to over 71 per cent. It is attributable generally to scanty and deficient rainfall, the average of 33 stations having been 19·65 as compared with 26·35 inches, the average in the previous year. The increase in irrigation was largest on the Nira Canal (13,031 acres): that and the other two protective works, which are the most recently opened of those now in operation, together account for 17,029 acres out of the total increase of 33,008 acres. The balance was fairly distributed over the remaining works scattered throughout the Presidency, so that the benefits they conferred as protective works to counteract the effect of drought or deficient rainfall were widespread. Only one of the works shows a serious decrease—the Khari Cut in Gujarat—which is accounted for by the failure of the supply, and indicates the necessity for storage works to assist that work.

11. It is of some importance to note the degree of usefulness of the works in a season of deficient rainfall, as it establishes the argument for their maintenance in a state of readiness to meet such a contingency even at an apparent annual loss in expenditure for their upkeep. To take as examples the Jamda Canals and Pravara River Works (Lakh and Ojhar Canals)—in the five years ending 1887-88, these works taken together irrigated a total area of 20,154 acres, or an average of 4,031 acres, the rainfall having varied in this period from a maximum of 38·69 in 1883-84 (on Ojhar Canal) to a minimum of 21·73 in 1885-86 (on Lakh Canal): in the same period the gross receipts were Rs. 58,313, and working expenses Rs. 85,068, showing a loss of Rs. 26,755, or an average of Rs. 5,351 per annum. In 1888-89, with a rainfall of from 12·69 (on Lakh Canal) to 16·62 inches (on Jamda Canals), the area irrigated was 9,912 acres, and the value of the crops, according to Statement III E., was Rs. 2,84,067. With such an extremely deficient rainfall, it is not an exaggerated view to give the works credit for nearly the whole value of the crops irrigated: the report on the Jamda Canals states that the crops outside the limits of the canal area entirely failed. The direct loss to

Government in the maintenance of the works was thus trifling, in comparison with their effect in improving the agricultural outturn, and indirectly benefiting the districts by affording a plentiful water-supply for drinking purposes, as well as increasing the fodder and food supply. In 1888-89 the loss on the working of these three canals amounted to Rs. 3,716\*, which includes book and indirect charges as well as the cash expenditure on their repairs†: if the latter only were taken into account, the result would of course be much more favourable. It should also be noted that the deficit is entirely due to the extremely low water-rates charged, which averaged only Rs. 1·58 per acre.

12. Generally the results of the year's experience go far to establish the proposition that the works which give the worst financial results are often those of greatest assistance in years of scarcity, and the importance of their maintenance as protective works for such a purpose can hardly be exaggerated.

13. Another important feature in the comparison of results is the decrease in working expenses. The charges under this head have in previous years been steadily growing as will be apparent from the following statement :—

	Rs.
1882-83 . . . . .	1,66,870
1883-84 . . . . .	1,70,089
1884-85 . . . . .	1,92,612

1886-87 . . . . .	2,30,417
1887-88 . . . . .	2,44,355

and both this Government and the Government of India have continually urged the necessity for measures to reduce the charges. It is satisfactory therefore that in 1888-89, notwithstanding the expansion of irrigation and increased usefulness of the works, the working expenses amounted to Rs. 2,34,312, showing a decrease of Rs. 10,073, as compared with the previous year. Of this decrease, Rs. 6,607 was in the outlay on repairs, and Rs. 4,985 was in the charges for Public Works Establishment.

14. As regards the latter item, the subject calls for some further comment. In the review of the report for 1887-88, it was shown that the amalgamation of duties and reductions effected under the orders of this Government had resulted in reducing the Establishment charges against the Capital and Revenue Accounts of Irrigation Works in the Deccan and Gujarat from Rs. 3,52,765 to Rs. 2,73,481, or by 22 per cent., and it was anticipated that the figures for 1888-89 would shew a still further reduction. This result has been fully realized, as will appear from the following abstract :—

The charge in 1888-89 shows a decrease of Rs. 32,446, as compared with 1887-88, and of Rs. 1,11,730 as compared with 1886-87, and the total reduction has thus amounted to over 31 per cent.

15. In the preface to the Public Works Administration Report, 1888-89, it was shown that the total reduction had amounted to Rs. 2,11,689 : of this amount Rs. 1,43,467 is the total saving under the head Irrigation, of which, as shown above, Rs. 1,11,730 goes to reduce the charges affecting the finances of the irrigation works in the Deccan, the balance being partly under the head Agricultural Works and partly in the debits to works in Sind. That the works in the Deccan and Gujarat share in larger proportion is of course due to the principal economies having been effected in the establishments employed in those districts.

16. This very large reduction so materially improves the financial position that, should the works develop in usefulness as they promise to do, it may be anticipated that funds will be found for constructing other works of a character similar to the Nira and Mutha Canals or the Mhaswad Tank, whereby an undoubted advance in the material prosperity of the country will be effected. Another step in this direction, because calculated to improve the revenue results of the existing works, has lately been taken by the re-imposition of the full rates formerly levied for irrigation, which were abated in 1883-84 under what has proved the mistaken impression that they were perhaps deterrent. This subject is alluded to in para. 10 of the Superintending Engineer's report, but will naturally be dealt with fully in the report for the current year. In the case of the Mutha Canals, the new scale of rates came into partial operation during the year 1888-89.

17. The direct receipts amounted to Rs. 3,61,752, as compared with Rs. 3,33,642 in the previous year, an increase of Rs. 28,110. The assessments of *Direct Revenue* amounted to Rs. 4,04,360 as compared with Rs. 3,39,710, an increase of Rs. 64,650, of which Rs. 60,165 was in water-rates and Rs. 4,485 in other receipts. Under Indirect Receipts there was a trifling decrease.

18. The details of the assessments were as follows :—

Minor Works . . . . .	2.46	3.65
All taken together . . . . .	8.53	4.75

The decrease in average rates was due to the increase in the proportion of inferior crops paying low rates on account of the drought. Water was given free for an area of 4,314 acres on the Nira and Mhaswad Tank Canals, owing to the recent opening of the works.

As remarked in para. 16, the water-rates have been raised with effect from 1889-90, and improvement in the average rates will result. The effect of this measure must be watched with care, and it will be convenient if the report for 1889-90 and subsequent years is accompanied by a statement showing areas and water-rate assessments according to the system of classification adopted in fixing the scale of water-rates.

20. The principal crop irrigated was Jowar, which, with Bajri, forms 34 per cent. of the total area irrigated. The increase in the areas of these crops is explained by the scanty rainfall. Wheat, next in order of importance as regards area, shows a large increase as compared with the previous year, and there is a satisfactory extension of the areas of sugarcane, gram and ground-nut. Rice shows a decrease due to the failure in the supply to the Khari Cut and the deficient supply in the Hathmati Canal: omitting these two works, there was an increase in this crop of 600 acres.

The total estimated value of the crops irrigated is shown as Rs. 42,73,519.

21. The assessments under other receipts—*Direct Revenue*—compared with those of the previous year as follows:—

	1888-89. Rs.	1887-88. Rs.
Plantations . . . . .	14,690	16,620
Water-power . . . . .	7,050	7,050

Miscellaneous . . . . .	12,400	8,983
	<u>1,24,650</u>	<u>1,20,165</u>

The decrease in receipts from plantations is not explained. Of the receipts from water-supply to towns, Rs. 87,408 was from the Poona supply and Rs. 2,881 from Sholapur: the figures for Karad supplied from the Krishna Canal are not separately given.

22. The balance of demands unrealized at the commencement of the year is shown as Rs. 29,824, as compared with Rs. 29,851 shown in the report for 1887-88. The difference, though unimportant, should have been explained. The state of the collections was as follows:—

Balance of demands unrealized at the commencement of the year . . . . .	Rs. 29,824
Demands of the year:—	
Rabi, 1887-88 . . . . .	Rs. 41,663

	<u>3,74,675</u>
Deduct—Refunds of Revenue . . . . .	3,130
Revenue realized as per paras. 3 and 9 . . . . .	<u>3,71,545</u>

The remissions and refunds together amount to Rs. 6,881: there is no explanation regarding either—an omission which should be supplied in future reports. The area granted free on the Nira and Mhaswad Tank Canals appears to have not been included in the accounts of assessments. There is an increase in the amount unrealized at the close of the year: of the total (Rs. 34,806), Rs. 14,010 is on the Mutha Canals, and it is explained to be chiefly on account of water-supply. The attention of the Collectors concerned should be invited to the outstanding on the Mhaswad Tank, Krishna Canal, and Maini Tank.

23. The loss on the three Protective Works, the most important of which (the Nira Canal) is still in an incomplete state, amounted to Rs. 12,764, or Rs. 7,677 less than in 1887-88, and the profit on the Productive Works was Rs. 1,63,496, or an improvement of Rs. 42,130. The interest account during the year stood accordingly thus:—

Protective Works . . . . .	Rs. 2,63,748+	Rs. 12,764=	Rs. 2,76,512
Productive Works . . . . .	3,97,543-	1,63,496=	2,34,047
Total . . . . .	<u>6,61,291-</u>	<u>1,50,732=</u>	<u>5,10,559</u>

The amount at debit on account of interest was thereby increased to Rs. 73,70,598, of which Rs. 16,86,621 is on account of Protective Works.

24. The Mutha Canals continue to show improvement in the results, the net revenue having been Rs. 1,45,583, as compared with Rs. 1,21,827 in 1887-88, and Rs. 1,07,329 in

1886-87, and Rs. 83,181 in 1885-86. These figures are exclusive of the credit due to the works for the saving effected in the outlay formerly incurred by Government for the supply

of water to the troops. This saving amounted in 1888-89 to Rs. 21,443. The report claims that credit should likewise be afforded for the full value of water supplied, under special sanction of Government, either free or at reduced rates: this, it is estimated, would add Rs. 47,270 to the receipts, and the total net receipts would thereby be increased to Rs. 2,15,353\* or 3·45 per cent. on the gross Capital outlay to the end of the year, which stood at Rs. 62,45,581.

25. Remarks are made regarding the state of the Ekruk Tank Canals, which indicate the necessity of some further outlay in improving the cross drainage works. The matter is receiving attention.

26. The minor works show a loss in the year of Rs. 13,499, of which Rs. 6,770 was on the Jamda Canals, due principally to the low scale of water-rates in force, and Rs. 5,110 on the Khari Cut, due to the total failure of the supply to that work owing to deficient rainfall. It has been already remarked (para. 10) that this failure indicates the necessity of storage works. The outlay requisite would almost certainly prove remunerative looking at the past history of the work, which was first brought into operation in 1881-82, and in 1887-88, with a limited supply of water, irrigated 2,413 acres, yielding a revenue of Rs. 13,599 and a net return, deducting working expenses, of Rs. 8,146. The subject has already been before the Government of India, and will be re-submitted for their consideration on the receipt of the revised project for the Bokh Reservoir.

CLASS II.—WORKS FOR WHICH ONLY REVENUE ACCOUNTS ARE KEPT.

27. A general comparison of the figures of the year with those of 1887-88 has been made in para. 3, the chief feature of which is the reduction in expenditure. The following gives some details under this head:—

	EXPENDITURE.		COMPARISON.	
	1888-89.	1887-88.	Increase.	Decrease.

Share of Collection Charges . . . . .	52,529	52,299	230	...
	1,57,647	1,78,089	...	20,442

The decrease in Establishment charges has already been explained and commented upon. The increase in expenditure on repairs was principally in Surat, Nasik, and Khandesh. A statement has been added to the report showing the outlay from contributions and from the Patfalla Fund.

28. It would appear that the figures relating to the Khari Irrigation sluices given in paras 6 and 10 are not included in the General Statements in paras. 1 and 2. If this is so, it should be rectified in future reports.

29. A complete revised list of the old Irrigation Works in the Khandesh Irrigation District, comprising the whole of the Khandesh Collectorate and such portion of Nasik as is within the catchment basin of the Tapti River, having been prepared during the year, is printed as an Appendix to the report.

30. It may be observed that the general question of the liability of Government to repair the old tanks in Gujarat and Belgaum and Dharwar, on which Irrigation Revenue is dependent, is now being enquired into. It is undeniable that, in the majority of instances, it has been the custom for the ryots concerned to effect the requisite repairs to tanks without the intervention of Government, or, where Government has intervened, to contribute either in money or labour or both, and they cannot be relieved of any responsibility in this respect, which was taken into consideration in the terms of the settlement under which their lands are assessed. On the other hand, in the absence of any such understanding, Government must

take measures to prevent the works deteriorating from neglect to such an extent as to affect the revenue.

GENERAL.

31. The most important features of the year's operations are:—

- (1)—The increase of 71 per cent. in the area irrigated by Class I Works.
- (2)—The increase of 19 per cent. in the assessed revenue from works of that class, as compared with 15 per cent. in the previous year and 7 per cent. in the year before.
- (3)—The large decrease in working expenses, due to the reduction of establishment charges, from Rs. 3,52,765 in 1886-87 to Rs. 2,73,451 in 1887-88 and to Rs. 2,11,035 in 1888-89, or by in all over 31 per cent.

32. The report was submitted three days earlier than last year. Copies, with copies of this Resolution, should be forwarded to the Government of India and the Secretary of State.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Review of India for the week ending at 8 a.m. on  
Monday, January 20th, 1890.

The weather, during the week under review, has undergone a considerable change. At first conditions were similar to those reported during several weeks past, but on the 17th a change occurred, which was remarkable, as it was not accompanied by any marked change in the general distribution of pressure at the earth surface. Rain, however, fell on that and the two subsequent days over a large part of Northern India. On the 19th a brisk barometric fall occurred over the North-Western Provinces and a low pressure area was formed there. This low pressure area subsequently travelled south-eastward across Bengal and finally became merged in the larger low pressure overlying the Bay. During its passage across Bengal damp winds from the Bay were drawn into Bengal and general though slight rain was produced over that Province. Hence at different times during the week, the weather was unsettled over a large part of Northern India. Over the Peninsula, on the contrary, the weather has been settled throughout. Pressure has been high over the inland parts and moderate barometric gradients have prevailed between the Deccan and the coast districts, so that, at times, the north-north-westerly winds on the eastern, and the easterly winds on the western side, have blown rather strongly. The weather in this region has not, however, been disturbed by barometric depressions and there has been no rain.

The following distribution of pressure and circulation of winds were, with some modifications to be afterwards noticed, characteristic of the whole week. On the 14th the chart showed a large area of high pressure, with its apex over Central India, Rajputana and the south of the Punjab, overlying the whole of North-Western and Central India, and extending southward over the inland parts of the Peninsula as far as Salem and Bangalore. In addition to this main high pressure area a second anticyclonic area was reported from the Upper Assam Valley. From these two regions pressure decreased and was low off both the south-east and south-west coasts of the Peninsula. The wind was anticyclonic in almost all parts of the Indian region, blowing outward from the high pressure areas. Down the Gangetic plain it was westerly and west-north-westerly, over the east of the Peninsula north-westerly and over the west of the Peninsula north-easterly and easterly, while in Assam and North Bengal it was also north-easterly. Within the high pressures themselves the directions were variable. On the hills the winds showed a tendency to draw into south-east. The weather was becoming cloudy over North-Western India and a slight shower had fallen at Quetta. On the 15th the south-easterly current on the hills was becoming stronger and more extensive, and the weather in North-Western India more cloudy. The barometer had fallen over Guzerat and Sind and the chart of abnormal pressure distribution showed steepish gradients for easterly winds over Northern India, although the surface currents were practically the same as on the preceding day. On the 16th pressure, though retaining the same general features in its distribution, became more uniform, the winds became variable and the weather in the North-West improved considerably. On the 17th pressure rose quickly over the Punjab, while it fell briskly over Central India, Guzerat and Sind. Hence the chart of pressure abnormals again showed steep gradients for easterly winds, and though pressure was high over the Punjab, rain fell generally throughout that Province and the sky was densely clouded throughout North-Western India. On the 18th the barometer fell in the Punjab and rose elsewhere and the rainfall area somewhat contracted, though the sky was still very cloudy throughout North-Western India and snow was falling on the hills. On the 19th the barometer was falling briskly generally and quickly in the North-Western Provinces, where a depression had been formed. Slight rain and snow was still reported from the hills and rain from some of the plains stations of the Punjab. On the 20th the weather had improved in the North-West but the depression from the North-Western Provinces had passed into Bengal, and the sky had become cloudy with rain in that province.

*Temperature*—Continued above the average in all Provinces except Madras. In Madras the mean temperature on all days of the week was below the normal average, and in the Punjab one day (19th) was colder than usual, but with these exceptions there was everywhere excess.

The following table shows the variations from the normal for the present and for the past weeks :—

PROVINCE.	Difference of the mean temperature of last week from the normal.	Difference of the mean temperature of present week from normal.
	o	o
Burma . . . . .	+ 1·6	+ 1·2
Bengal . . . . .	+ 2·3	+ 2·4
North-Western Provinces . . . . .	+ 3·1	+ 3·7
Punjab . . . . .	+ 4·9	+ 3·1
Bombay . . . . .	+ 0·2	+ 0·6
Central Provinces . . . . .	+ 0·4	+ 2·7
Guzerat and Central India . . . . .	+ 3·3	+ 2·7
Sind and Rajputana . . . . .	+ 6·1	+ 3·5
Madras . . . . .	— 1·1	— 1·1

This table shows that, except over North-Western India (Sind, Rajputana, Central India and the Punjab), where there has been some fall, the mean temperature of the present week bears the same relation to the normal as did that of the past week. The warmest day was the 14th when very mild weather prevailed all over Northern India.

*Rain.*—The rainfall returns show that rain has been confined to two districts of India, *vis.*, the North-East and North-West, the fall being somewhat heavier in the former than in the latter district. Of the rainfall divisions thirteen report rainfall during the week and thirty-eight no rain. The heaviest fall was over the hill districts of the Punjab, the lightest over the centre and south of the Punjab and the submontane parts of the North-Western Provinces.

The following was the daily distribution :—Rain commenced at Quetta on the 16th and extended over the greater part of the Punjab and as far east as Ranikhet on the 17th. On the 18th the fall continued at Quetta, but in the Punjab there was very little rain except over and near the hills. The chart of the 19th showed rain at Mussoorie, Simla, Rawalpindi, Peshawar and Kushab in the North-West, and at Sibsagar in the North-East. On the 20th rain had ceased all over the North-West and become general though not heavy over Bengal and Assam.

The following were the heaviest falls in North-Eastern India :—

East Bengal . . . . .	Bramenberiah . . . . .	1·19 inch
" . . . . .	Mymensing . . . . .	1·16 "
Assam . . . . .	Sibsagar . . . . .	1·15 "
Bengal (Deltaic) . . . . .	Fareedpur . . . . .	1·55 "
and North-Western India		
Punjab Hills . . . . .	Hamirpur . . . . .	1·30 "
" N. W. . . . .	Gujranwala . . . . .	1·20 "
" " . . . . .	Swabi (Peshawar) . . . . .	3·20 "

In no case in North-Western India has the rainfall of the past week exceeded the amount normally expected, hence there has been very little improvement in the figures showing the state of the seasonal rainfall in that region, there being still a very large deficiency. In Bengal, on the contrary, the week's fall has been generally in excess of the average, and hence the excess which already prevailed in the seasonal fall has been slightly increased. In the east and south of the Peninsula there has also been a trifling increase of the existing deficiency.

## REVENUE AND AGRICULTURAL DEPARTMENT.

## Weekly Report on the State of the Season and Prospects of the Crops.

**Madras.**—*For week ending 25th January.*—No rain. Crops generally good, but withering in parts of Nellore, South Arcot, Chingleput, Madura, Tinnevely, Coimbatore and Salem. Want of rain felt in these districts and parts of North Arcot and Tanjore. Prices fairly steady. General prospects fair.

**Bombay.**—*For week ending 29th January.*—Late crops in parts of Deccan and Karnatak below average for want of late rains, elsewhere good except where in parts damaged by locusts or otherwise injured. Cotton prospects generally good. Harvesting of late crops commenced in some districts. Fodder generally sufficient and agricultural stock healthy.

**Bengal.**—*For week ending 28th January.*—Rain fell over considerable portions of Bengal and North Behar on the 20th and 24th instants, doing much good to the standing crops. Weather has become very cold. Rice harvest still proceeding on low lands in some districts. Prospects of *rabi* crops generally favourable, but rain is required in South Behar and Chota Nagpore, where none has fallen during the week. Mustard and other earlier *rabi* crops being gathered. Sugarcane also being cut and pressed in several districts. Poppy flowering and in good condition, but the late sowings in Hajipore are unsuccessful, and those in Monghyr injured by caterpillars. Tobacco promises to be a good crop, as also *ganja* in Rajshahye district. Cultivation and transplanting of *boro* or spring rice in progress, and prospects favourable. Prices practically stationary at the high level to which they rose at the end of 1888. In Balasore prices reported to be high, but condition of people remains unchanged.

**North-Western Provinces and Oudh.**—*For week ending 29th January.*—Weather cold and cloudy with light rain in a few districts. More rain needed, but prospects both of the *rabi* and poppy sowings continue fair. Prices fluctuating slightly. Food stocks ample.

**Panjab.**—*For week ending 29th January.*—Slight rain has fallen in most districts. Prices stationary except in Rawalpindi where they are rising. Sowings of *rabi* crops over. Watering commenced. More rain urgently wanted throughout the Province. Condition of crops average. Crops suffering from want of rain in Delhi and Shahpur. Fodder sufficient in all districts except in Jullundur, Sialkot and Sadr Station of Lahore where it is scarce.

**Central Provinces.**—*For week ending 29th January.*—Weather clear and cold. Slight damage from frost in Jabalpur. *Rabi* crops require rain in northern and eastern districts, especially in Saugor and Bilaspur. Prices remain generally steady.

**Burma.**—*For week ending 25th January.*—In Lower Burma considerable rain fell in seven districts. In Upper Burma no rain fell during the week. It is to be feared that the recent heavy rain in some districts in Lower Burma will injure paddy reaped, but not stored. In Pegu there has been no rain, but paddy on threshing floor is reported endangered by threatening rain. The price of paddy has fallen in three and risen in two districts, elsewhere no fluctuations are shown. In Upper Burma in the Bhamo township the crop prospect is not good owing to want of water, but in other districts the prospect is fair.

**Assam.**—*For week ending 29th January.*—Weather cold. Rain in all districts. Reaping of late rice finished. Ploughing for early rice commenced. Gathering of mustard in progress. Tea pruning continues.

**Mysore and Coorg.**—*For week ending 29th January.*—Standing crops in good condition in Mysore. Harvesting continued in parts. Prospects favourable. Prices slightly fallen in Bangalore district.

Season favourable in Coorg for rice harvest.

**Berar and Hyderabad.**—*For week ending 29th January.*—In Berar the weather is clear and cold. Threshing of *jowari* continues. Cotton-picking nearly completed. *Rabi* in excellent condition. Fodder sufficient except in Ellichpur taluk. Land being prepared for next year. Prices almost stationary.

No rain at Hyderabad. Sowing of *tabi* crops continues. *Rabi* crops prospering. Prices—wheat  $11\frac{3}{4}$ , coarse rice 10, white *juar*  $16\frac{1}{2}$ , yellow *juar* 19 and *tur*  $15\frac{1}{4}$  seers per current sicca rupee.

**Central India.**—*For week ending 29th January.*—Prices of food-grains high in Goona Agency and stationary in Neemuch. No other material changes since last report.

**Rajputana.**—*For week ending 29th January.*—Agricultural operations generally satisfactory. Standing crops good but rain needed in Kerowli. Agricultural stock good. Pasturage or fodder sufficient except in Marwar. Prices steady generally.

**Nepal.**—*For week ending 23rd January.*—Weather cold and cloudy. Slight showers fell during the week. Prospects good.

"Si la demanda se refiere á un reo remata lo, debe ir acompañada del fallo condenatorio dictado contra la persona convicta por el tribunal competente del Estado que hace la demanda de extradición.

"La sentencia dictada *in contumaciam* no le considerará como fallo condenatorio: pero as persona sentenciada de esta manera pueda tratarse como cualquier individuo acusado.

## "ARTICLE X.

"A fugitive criminal may be apprehended under a warrant issued by any Police Magistrate, Justice of the Peace, or other competent authority in either country, on such information or complaint, and such evidence, or after such proceedings as would, in the opinion of the authority issuing the warrant, justify the issue of a warrant if the crime had been committed, or the person convicted, in that part of the dominions of the two Contracting Parties in which the Magistrate, Justice of the Peace, or other competent authority exercises jurisdiction; provided, however, that in the United Kingdom the accused shall, in such case, be sent as speedily as possible before a Police Magistrate in London. He shall, in accordance with this Article, be discharged, as well in Colombia as in the United Kingdom, if, within the term of thirty days a requisition for extradition shall not have been made by the Diplomatic Agent of his country, in accordance with the stipulations of this Treaty.

## "ARTICLE XI.

"The extradition shall take place only if the evidence be found sufficient according to the laws of the State applied to, either to justify the committal of the prisoner for trial, in case the crime had been committed in the territory of the same State, or to prove that the prisoner is the identical person convicted by the Courts of the State which makes the requisition, and that the crime of which he has been convicted is one in respect of which extradition could, at the time of such conviction, have been granted by the State applied to; and no criminal shall be surrendered until after the expiration of fifteen days from the date of his committal to prison to await the warrant for his surrender.

## "ARTICLE XII.

"In the examinations which they have to make in accordance with the foregoing stipulations, the authorities of the State applied to shall admit as valid evidence the sworn depositions or statements of witnesses taken in the other State, or copies thereof, and likewise the warrants and sentences issued therein, and certificates of, or judicial documents stating, the fact of a conviction, provided the same are authenticated as follows:—

"1. A warrant must purport to be signed by a Judge, Magistrate, or officer of the other State.

## "ARTICULO IX.

"Si la demanda de extradición estuviere de acuerdo con las anteriores estipulaciones, la autoridad competente del Estado al cual se dirija ésta, procederá á la aprehensión del prófugo.

## "ARTICULO X.

"Un criminal fugitivo puede ser aprehendido por orden expedida por cualquier magistrado de policía, juez de paz, ú otra autoridad competente en ambos países, por informes ó quejas, y por pruebas, ó después de procedimientos que, en opinión de la autoridad que dió la orden, justificarían la expedición de ésta, si el delito hubiese sido cometido ó el criminal condenado en aquella parte del territorio de los dos países contratantes en la cual el magistrado, el juez, ú otra autoridad competente ejerzan jurisdicción; con tal, sin embargo, que en ese caso, en el Reino Unido el acusado sea enviado con la brevedad posible á un magistrado de policía en Londres. De acuerdo con este Artículo, el acusado será puesto en libertad, tanto en Colombia como en el Reino Unido, si en el término de treinta días no se solicitare su extradición por el Agente Diplomático de su país conforme á las estipulaciones de este Tratado.

"La misma regla se aplicará en los casos de personas acusadas ó convictas de los delitos especificados en este Tratado, y cometidos en alta mar, á bordo de algún buque de cualquiera de los dos Estados que llegue á un puerto del otro.

## "ARTICULO XI.

"La extradición solo tendrá lugar si las pruebas fueren suficientes conforme á las leyes del Estado de quien se solicita, bien sea para justificar el sometimiento del procesado á juicio, caso que el delito haya sido cometido en el territorio del mismo Estado, ó bien para probar que el reo es la misma persona sentenciada por los Tribunales del Estado que hace la demanda, y que el delito de que ha sido convicta es de aquellos respecto de los cuales podría haber sido concedida la extradición al tiempo de la sentencia, por el Estado de quién se solicita. Ningun criminal será entregado antes de haber transcurrido quince días desde la fecha en que fué reducido á prisión en espera de la orden de entrega.

## "ARTICULO XII.

"En la investigación que hayan de hacer, conforme á las anteriores estipulaciones, las autoridades del Estado demandado admitirán como pruebas las declaraciones juradas ó las deposiciones de testigos tomadas en el otro Estado, ó sus copias, así como también los autos y sentencias producidos allí, y los certificados que acrediten el hecho de la condenación, ó los documentos judiciales que la establezcan, con tal de que tales piezas se hallen autenticadas como sigue:—

"1. Toda orden debe llevar la firma de un Juez, Magistrado, ó agente público del otro Estado.

"2. Depositions or affirmations, or the copies thereof, must purport to be certified under the hand of a Judge, Magistrate, or officer of the other State, to be the original depositions or affirmations, or to be true copies thereof, as the case may require.

"3. A certificate of, or judicial document stating, the fact of a conviction must purport to be certified by a Judge, Magistrate, or officer of the other State.

"4. In every case, such warrant, deposition, affirmation, copy, certificate, or judicial document must be authenticated either by the oath of some witness, or by being sealed with the official seal of the Minister of Justice, or some other Minister of the other State; but any other mode of authentication for the time being permitted by law where the examination is taken may be substituted for the foregoing.

#### " ARTICLE XIII.

"If the individual claimed by one of the two High Contracting Parties in pursuance of the present Treaty should be also claimed by one or several other Powers, on account of other crimes or offences committed upon their respective territories, his extradition shall be granted to that State whose demand is earliest in date.

#### " ARTICLE XIV.

"If sufficient evidence for the extradition be not produced within two months from the date of the apprehension of the fugitive, or within such further time as the State applied to, or the proper Tribunal thereof, shall direct, the fugitive shall be set at liberty.

#### " ARTICLE XV.

"All articles seized which were in the possession of the person to be surrendered at the time of his apprehension shall, if the competent authority of the State applied to for the extradition has ordered the delivery of such articles, be given up when the extradition takes place; and the said delivery shall extend not merely to the stolen articles, but to everything that may serve as a proof of the crime.

#### " ARTICLE XVI.

"All expenses connected with extradition shall be borne by the demanding State.

#### " ARTICLE XVII.

"The stipulations of the present Treaty shall be applicable to the Colonies and foreign possessions of Her Britannic Majesty, so far as the laws for the time being in force in such Colonies and foreign possessions respectively will allow.

"The requisition for the surrender of a fugitive criminal who has taken refuge in any of such Colonies or foreign possessions shall be made to the Governor or chief authority of such Colony or possession by the chief Consular officer of the Republic of Colombia in such Colony or possession.

"2. Las declaraciones ó atestaciones ó sus copias deben ser certificadas de puño y letra del juez, Magistrado ó agente público del otro Estado, con expresión de que son declaraciones originales, ó sus copias fieles según el caso.

"3. Todo certificado de condenacion, ó todo documento judicial en que conste el fallo condenatorio, debe ser certificado por un Juez, Magistrado, ó agente público del otro Estado.

"4. En cada caso, la orden, declaración atestación, copia, certificado, ó documento judicial, debe ser autenticado, ora por el juramento de algun testigo, ora por el sello oficial del Ministro de Justicia ó de algún otro Ministro del otro Estado; pero cualquiera otro modo de autenticación permitido por las leyes vigentes al tiempo de la investigación puede sustituirse por el anterior.

#### " ARTICULO XIII.

"Si el individuo reclamado por una de las dos Altas Partes Contratantes conforme al presente Tratado fuere asimismo reclamado por otro ó otros Gobiernos, con motivo de otros delitos cometidos en sus respectivos territorios, la extradición se concederá al que primero haya hecho la demanda.

#### " ARTICULO XIV.

"Si dentro de dos meses contados desde la fecha de la aprehensión del prófugo no se hubieren producido pruebas suficientes, ó dentro de la prórroga que ordene el Estado de quien se solicita la extradición ó el Tribunal competente de él, entónces el detenido será puesto en libertad.

#### " ARTICULO XV.

"Todos los bienes embargados al tiempo de su aprehensión al individuo reclamado se entregarán también cuando tenga lugar la extradición, si la autoridad competente del Estado de que ésta se solicita lo ordenare; y la entrega no sólo se extenderá á los objetos robados, sino también á todos aquellos que puedan servir como prueba del delito.

#### " ARTICULO XVI.

"Todos los gastos relacionados con la extradición serán de cargo del Estado que la solicitare.

#### " ARTICULO XVII.

"Las estipulaciones del presente Tratado serán aplicables á las Colonias y á las posesiones extranjeras de Su Majestad Británica, hasta donde lo permitan las leyes vigentes en tales colonias y en tales posesiones extranjeras respectivamente.

"La demanda para la entrega de un reo prófugo que se haya refugiado en alguna de tales Colonias ó posesiones extranjeras, se dirigirá al Gobernador ó á la autoridad principal de la Colonia ó posesión por el principal empleado Consular de la República de Colombia residente en ella.

"Such requisition may be disposed of, subject always, as nearly as may be, and so far as the law of such Colony or foreign possession will allow, to the provisions of this Treaty, by the said Governor or chief authority, who, however, shall be at liberty either to grant the surrender or to refer the matter to his Government.

"Her Britannic Majesty shall, however, be at liberty to make special arrangements in the British Colonies and foreign possessions for the surrender of Colombian criminals who may take refuge within such Colonies and foreign possessions, on the basis, as nearly as may be, and so far as the law of such Colony or foreign possession will allow, of the provisions of the present Treaty.

"Requisitions for the surrender of a fugitive criminal emanating from any Colony or foreign possession of Her Britannic Majesty shall be governed by the rules laid down in the preceding Articles of the present Treaty.

#### "ARTICLE XVIII.

"Tal demanda pueda resolverse por dicho Gobernador ó por la principal autoridad, quienes quedan en libertad de conceder la extradición ó referir el asunto á su Gobierno, sujetándose, hasta donde sea posible, á este Tratado en cuanto las leyes de la Colonia ó de la posesión extranjera lo permitan.

"Su Majestad Británica queda, sin embargo, en la libertad de hacer arreglos especiales en las Colonias Británicas y en las posesiones extranjeras para la entrega de criminales Colombianos que se refugien en tales Colonias ó posesiones extranjeras, sobre la base de las disposiciones de este Tratado, en cuanto sea posible y hasta donde lo permitan las leyes de tal Colonia ó posesión extranjera.

"Las demandas para la extradición de un reo prófugo procedentes de alguna Colonia ó posesión extranjera de Su Majestad Británica se ajustarán á las reglas establecidas en los Artículos anteriores del presente Tratado.

"Este Tratado se ratificará después de su aprobación por el Congreso de Colombia, y las ratificaciones se canjearán en Bogotá, en el mas breve término posible.

The Consul-General shall also have jurisdiction to try in Siam crimes which cannot under this Order be tried by a District Court, and for that purpose shall have the power of the Supreme Court.

The Consul-General may, from time to time, visit in a magisterial or judicial capacity any District Court, and there inquire of, or hear and determine, any case, civil or criminal pending in that Court, or arising within its district.

A District Court may, of its own motion, or on the application of any person concerned, report to the Consul-General the pendency of any case, civil or criminal, which appears to the District Court fit to be heard and determined by the Consul-General.

The Consul-General shall thereupon direct in what mode and where the case shall be heard and determined, and (notwithstanding anything in this Order) the same shall be so heard and determined accordingly.

11.—(1.) The Supreme Court shall have appellate jurisdiction under this Order.

The appellate jurisdiction of the Supreme Court shall be exercised by the full Supreme Court sitting in the Straits Settlements in such manner and according to such procedure as, subject to the provisions of this Order and of any Rules made under this Order, the Supreme Court from time to time determines.

Judgments or orders of the Supreme Court in the exercise of its appellate jurisdiction shall be certified by the Supreme Court to the District Court in Siam from which the appeal is brought, or, when the appeal is from the judgment or order of a Judge of the Supreme Court acting in Siam or in the Straits Settlements, then to such District Court in Siam as the Supreme Court thinks fit, and (subject to any appeal to Her Majesty in Council) that District Court may and shall execute and give effect to the same in like manner as to its own judgments or orders.

(2.) The Supreme Court, on petition presented to it in accordance with any rules to be made under this Order, or in such manner as the Supreme Court directs, and alleging that any order of a District Court or of the Consul-General has the effect of a refusal of justice to any suitor or complainant, may, after such inquiry (if any) as it thinks fit to direct, issue an order directing the proper Court to take cognizance of the matter and may, if satisfied that such order has not been properly complied with, entertain and determine the matter of the suit or complaint, and shall certify its determination to the proper Court, which shall give effect thereto.

(3.) Except as provided by this Order the Supreme Court shall not exercise any control over a District Court or the Consul-General, whether by way of mandamus, prohibition, certiorari, writ of habeas corpus, or otherwise.

12. The Supreme Court shall, for the purposes of this Order, have original jurisdiction as follows :—

- (1.) When, under this Order, a person accused of crime is sent for trial to the Straits Settlements the Supreme Court shall have the like jurisdiction, and may proceed in the same manner as if the crime had been committed in the Straits Settlements, except that the criminality of the act charged and the punishment to be inflicted must be determined according to the law applicable under this Order in Siam.
- (2.) On the request of the Consul-General, made with the consent of the Government of the King of Siam, the Supreme Court may exercise in Siam in relation to any civil or criminal matter any original jurisdiction which can be exercised by the Consul-General, and all the provisions of this Order shall apply accordingly (*mutatis mutandis*), and any appeal shall be to the full Supreme Court.
- (3.) On the like request made with the like consent, the Supreme Court may hear and determine at Bangkok, or elsewhere in Siam, any criminal case which could under this Order be sent for trial to the Straits Settlements, and for that purpose shall have the like jurisdiction and may proceed in the same manner as nearly as may be as if it were trying the same case in the Straits Settlements, or as if it were the Consul-General trying in Siam a criminal case within the jurisdiction of a District Court.
- (4.) The Supreme Court may hear and determine within the Straits Settlements any civil case arising in Siam, with the consent of the parties and of the Consul-General, and for that purpose may adopt any procedure proper either in the Straits Settlements or in Siam. In such case any appeal shall be to the full Supreme Court.
- (5.) For the purposes of the exercise of original jurisdiction under this Article, such Judge or Judges of the Supreme Court as the Chief Justice of the Straits Settlements from time to time nominates shall exercise the powers of the Supreme Court.
- (6.) Every District Court in Siam may and shall, according to its powers, execute, enforce, and give effect to any judgment or order of the Supreme Court in the exercise of its original jurisdiction, and may and shall, for the purposes of anything to be done preliminary to a sitting of the Supreme Court—as, for instance, the summoning of a jury, or of Assessors, or of witnesses—exercise (*mutatis mutandis*) all the powers which such District Court has for any purpose under this Order in a case or matter pending before itself.

#### PART IV.—GENERAL POWERS OF COURTS AND GENERAL PROCEDURE.

13.—(1.) All Her Majesty's jurisdiction, civil and criminal, exercisable in Siam, shall, except as otherwise provided by this Order, be exercisable by the District Courts each for and within its own district.

(2.) Every District Court in Siam and the Supreme Court shall be auxiliary each to the other in all particulars relative to the administration of justice, civil or criminal, under this Order.

(3.) Every Court shall, in the exercise of every part of its respective jurisdiction under this Order, be a Court of Record, and a Court of Law and of Equity.

(4.) In any matter, civil or criminal, a District Court within whose district (in civil matters) the matter of complaint wholly or in part arose or happened, or the subject in dispute is wholly or partly situate, or the contract in question was wholly or partly made, or the breach thereof wholly or partly occurred, or the defendant resides or carries on business, or (in criminal matters) the crime was wholly or partly committed, or the accused person happens to be, shall have jurisdiction, and may deal with the case, as if every material fact or thing had happened or was situate within its district; but any such Court, if, in its opinion, justice or convenience so requires, may decline or suspend the exercise of jurisdiction, and may, if it thinks necessary or just, require security from the defendant or accused person for his appearance before some other Court having jurisdiction in the matter, and for obedience to any judgment or order of such other Court, and further, in a criminal case, if necessary, may arrest and commit the accused person, and cause him to be removed under warrant and in custody, to be dealt with by such other Court.

(5.) Every Court acting under this Order, shall have power to rehear any civil matter, and to review its judgments or orders in any civil case in which, in the opinion of the Court, justice so requires, on such terms as to costs and otherwise as the Court thinks just.

14. In every case, civil or criminal, heard in a District Court, proper minutes of the proceedings shall be drawn up, and shall be signed by the Judge or officer before whom the proceedings are taken, and sealed with the seal of the Court, and shall, where Assessors are present, be open for their inspection and for their signature if concurred in by them.

The minutes, with depositions of witnesses and notes of evidence taken at the trial by the Judge or officer, shall be preserved in the public office of the Court.

15. Each District Court shall, every six months, furnish to the Consul-General a report respecting every case, civil and criminal, brought before it, in such form as the Consul-General from time to time directs.

16. Any Registrar of a Court, or person acting as Registrar, and any other officer of the Court designated in this behalf by the Consul-General, may administer oaths, and take affidavits, declarations, and affirmations.

The Judge of any Court shall be, and act as, the Registrar of the Court, if there is no other person appointed to be Registrar there.

17.—(1.) In a civil case, any Court may order such costs, charges, and expenses as to the Court seem reasonable, to be paid by any party to the proceedings, or out of any fund to which the proceeding relates.

(2.) All costs and all charges and expenses of witnesses, prosecutions, punishments, and deportations, and other charges and expenses, and all fees, fines, forfeitures, and pecuniary penalties payable under this Order, and all judgments, may be levied or enforced by distress and seizure and sale of ships, goods, and lands, and in default of sufficient distress by imprisonment; and no bill of sale, or mortgage, or transfer of property made with a view to security in regard to crimes committed, or to be committed, shall be of any avail to defeat any provision of this Order.

(3.) Imprisonment in default of distress shall not, except as may be provided by rules of procedure made under this Order, operate as a discharge or satisfaction.

(4.) Where money ordered by the Court to be paid is due for seamen's wages, or is other money recoverable under the Merchant Shipping Acts or other law relating to ships, and the person ordered to pay has not paid as ordered, the Court, in addition to other powers for compelling payment, shall have power to direct that the amount unpaid be levied by seizure and sale of the ship.

18.—(1.) The Consul-General shall have all the powers and authorities of the Sheriff of a county in England, with all the privileges and immunities of the office, and as such Sheriff shall be charged with the execution of all decrees, orders, and sentences made and passed by a Court, on the requisition in that behalf of the Court. He shall not be liable to any action or proceeding for anything done or purporting to be done or anything omitted by him as such Sheriff.

(2.) A District Court shall execute any writ, order, or warrant directed by a Consul-General to a District Court; and may take security from any person named therein for his appearance personally or by attorney, according to the writ, order, or warrant; or may cause such person to be taken, in custody or otherwise, to a Court, or elsewhere in Siam, according to the writ, order, or warrant.

19. A District Court may promote reconciliation and encourage and facilitate the settlement in an amicable way of any suit or proceeding pending before it.

A District Court may, with the consent of the parties, refer to arbitration the final determination of any suit or proceeding pending before it, or of all or any matters in difference between the parties, on such terms, and with such directions, as to appointment of an Arbitrator and other things, as may seem fit, and may, if it thinks fit, take from the parties or any of them, security to abide by the result of the reference.

In any such case the award shall be final and conclusive.

On the application of any party a decree of the Court may be entered in conformity with the award, and such decree shall not be open to any appeal or rehearing whatever, except on the ground that it is not in conformity with the award.

Every agreement for reference to arbitration or submission to arbitration by consent may, on the application of any party, be made a rule of a Court having jurisdiction in the matter of the reference or submission, which Court shall thereupon have power and authority to enforce the agreement or submission and the award made thereunder, and to control and regulate the proceedings before and after the award in such manner, and on such terms, as may be just.

20. No proceeding under this Order shall be invalidated by any informality, mistake, or omission, so long as, in the opinion of the Court before which any question arises,

the essential requisites of law and justice have been complied with, or may be met by amendment.

#### PART V.—SPECIAL POWERS (BANKRUPTCY, PROBATE, &C.)

21. A District Court shall be a Court of Bankruptcy, and as such shall, as far as circumstances admit, have for and within its own district, with respect to British subjects and to their debtors and creditors, being either British subjects or foreigners submitting to the jurisdiction of the Court, all such jurisdiction as for the time being belongs to any judicial authority having for the time being jurisdiction in bankruptcy in England.

22. A District Court shall have, and may exercise, for and within its own district, with respect to British subjects, all the powers, rights, and duties appertaining to the office of Coroner in England, but it shall not be necessary to summon a jury in holding any inquest.

23. The District Court at Bangkok shall be a Vice-Admiralty Court, and as such shall, for and within Siam, and for vessels and persons coming to and within Siam; have all such jurisdiction as for the time being ordinarily belongs to Vice-Admiralty Courts in Her Majesty's possessions abroad.

The said Court shall have all powers and jurisdiction which can be exercised by Justices or a Vice-Admiralty Court under or for the purposes of the Acts relating to merchant shipping or the Passenger Acts, or relating to quarantine.

24. The District Court at Bangkok shall, so far as circumstances admit, have for and within Siam, with respect to British subjects, all such jurisdiction relative to the custody and management of the persons and estates of persons of unsound mind as for the time being belongs to the Lord Chancellor or other person or persons in England intrusted with the care and commitment of the custody of the persons and estates of persons found, by inquisition in England, idiot, lunatic, or of unsound mind.

25.—(1.) The District Court at Bangkok shall be a Court of Probate, and as such shall, as far as circumstances admit, have for and within Siam, with respect to the property of British subjects having at the time of death their fixed places of abode in Siam, all such jurisdiction as for the time being belongs to the Probate Division of Her Majesty's High Court of Justice in England.

(2.) Every District Court shall also have power to grant probate or administration where there is no contention respecting the right to the grant, and it is proved on oath that the deceased had at the time of his death his fixed place of abode within the jurisdiction of the District Court.

26. Probate or administration granted by a Court shall have effect over all the property of the deceased within Siam, and shall effectually discharge persons dealing with an executor or administrator thereunder, and that notwithstanding any defect afterwards appears in the grant.

Such a grant shall not be impeachable by reason only that the deceased had not at the time of his death his fixed place of abode within the particular jurisdiction.

27. Any person having in his possession or under his control any paper or writing of a deceased British subject, being or purporting to be testamentary, shall forthwith deliver the original to the District Court within the district whereof such person is at the time of his first knowledge of the death of the deceased and deposit it there.

Any person neglecting to do so for fourteen days after having knowledge of the death of the deceased shall be liable to such penalty, not exceeding fifty pounds, as the Court thinks fit to impose.

28. From the death of a British subject, having at the time of death his fixed place of abode in Siam, intestate, until administration granted, his personal property in Siam shall be vested in the Consul-General.

29. If any person, other than one of Her Majesty's Consular officers, takes possession of or in any manner administers any part of the personal property of any person deceased without obtaining probate or administration within three months after the death of the deceased, or within one month after the termination of any suit or dispute respecting probate or administration (if there is any such which is not ended within two months after the death of the deceased), he shall be liable to such penalty, not exceeding one hundred pounds, as the Court having jurisdiction in the matter of the property of the deceased thinks fit to impose; and in every such case the same fees shall be payable by the person so administering as would have been payable by him if he had obtained probate or administration.

30. Where a British subject, not having at the time of death his fixed place of abode in Siam, dies there, the District Court within whose district he dies shall, where the circumstances of the case appear to the Court so to require, forthwith on the death of the deceased, or as soon after as may be, take possession of his personal property

within the particular jurisdiction, or put it under the seal of the Court (in either case, if the nature of the property or other circumstances so require, making an inventory), and so keep the property until it can be dealt with according to law.

31.—(1.) In a case of apparent intestacy, where the circumstances of the case appear to the Court so to require, for reasons recorded in the minutes, the Court having probate jurisdiction may, if it thinks fit, of its own motion, or otherwise, grant administration to an officer of the Court.

(2.) Any officer so appointed shall act under the direction of the Court, and shall be indemnified thereby.

(3.) A commission of  $2\frac{1}{2}$  per cent. may be charged on an estate administered under this Article.

(4.) All expenses incurred on behalf of the Court in the execution of this Article, and the said commission, shall be the first charge on the personal property of the deceased in Siam; and the Court shall, by sale of part of that property or otherwise, provide for the discharge of those expenses and the payment of the said commission.

32. Where it appears to the Court having probate jurisdiction that the value of the property or estate of a deceased person does not exceed one hundred pounds, the Court may, without any probate or letters of administration, or other formal proceeding, pay thereout any debts or charges, and pay, remit, or deliver any surplus to such persons in such manner as a Secretary of State from time to time directs, and shall not be liable to any action, suit, or proceedings in respect of anything done or purporting to be done under this Article.

#### PART VI.—CRIMINAL LAW AND PROCEDURE.

33. The crimes punishable under this Order are:—

(1.) Any acts or omissions which are for the time being punishable in England, on indictment, by death, penal servitude, or imprisonment, as treasons, felonies, or misdemeanours.

(2.) Acts or omissions by this Order, or by any regulations made by virtue of this Order declared to be punishable as offences against this Order.

In case an act or omission is punishable both as a crime under the law in force in England and as an offence against this Order, the accused person may be tried and punished for such act or omission either as a crime, as aforesaid, or as an offence against this Order, but he shall not be liable to be tried or punished in both ways.

34. Any British subject being in Siam may be proceeded against, tried, and punished under this Order for the crime of piracy wherever committed.

If the Court before which a British subject charged with the crime of piracy is brought is a District Court, the Court shall report to the Consul-General the pendency of the case.

The Consul-General shall thereupon direct in what mode and where the case shall be heard and determined, and (notwithstanding anything in this Order) the case shall be so heard and determined accordingly.

35.—(1.) If any British subject does any of the following things without Her Majesty's authority, that is to say:—

Levies war, or takes any part in any operation of war against, or aids or abets any person in carrying on war, insurrection, or rebellion against the Kings of Siam,

Every person so offending shall be deemed guilty of an offence against this Order, and on conviction thereof shall be liable (in the discretion of the Court before which he is convicted) to be punished by imprisonment for any term not exceeding one year, with or without hard labour, and with or without a fine not exceeding one thousand pounds, or by a fine not exceeding one thousand pounds, without imprisonment.

In addition to such punishments, every such conviction shall of itself, and without further proceedings, make the person convicted liable to deportation; and the Court before which he is convicted may order that he be deported from Siam to such place as the Court directs.

(2.) If any British subject, without the authority of Her Majesty (proof whereof shall lie on the party accused), takes part in any operation of war in the service of the Kings of Siam against any persons engaged in carrying on war, insurrection, or rebellion against the Kings of Siam, he shall be deemed guilty of an offence against this Order, and on conviction thereof shall be liable (in the discretion of the Court before which he is convicted) to be punished by imprisonment for any term not exceeding one year, with or without hard labour, and with or without a fine not exceeding one thousand pounds, or by a fine not exceeding one thousand pounds, without imprisonment.

(3.) If the Court before which any person charged with having committed such a misdemeanour as in this Article mentioned is brought is a District Court, the Court shall report to the Consul-General the pendency of the case.

The Consul-General shall thereupon direct in what mode and where the case shall be heard and determined, and (notwithstanding anything in this Order) the case shall be so heard and determined accordingly.

36. If any British subject is guilty of publicly deriding, mocking, or insulting any religion established or observed in Siam, or of publicly offering any insult to any religious service, feast, or ceremony established or kept in any part of Siam, or to any place of worship, tomb, or sanctuary belonging to any such religion, or to the ministers or professors thereof, or of wilfully committing any act tending to bring any such religion, or its ceremonies, mode of worship, or observances into hatred, ridicule, or contempt, and thereby to provoke a breach of the public peace, he shall be deemed guilty of an offence against this Order, and shall be liable (in the discretion of the Court before which he is convicted) to imprisonment for any term not exceeding six months, with or without hard labour, and with or without a fine not exceeding one hundred pounds, or to a fine not exceeding one hundred pounds, without imprisonment.

Notwithstanding anything in this Order, every charge against a British subject of having committed any such offence shall be heard and determined in a summary way, and any District Court shall have power to impose the punishment aforesaid.

Her Majesty's Consular officers shall take such precautionary measures as seem to them proper and expedient for the prevention of such offences.

37. If any person subject to the criminal jurisdiction of any Court exercising jurisdiction in Siam under this Order does any of the following things, namely:—

- (i.) Wilfully by act or threat obstructs any officer of or person executing any process of the Court in the performance of his duty; or
- (ii.) Within or close to the room or place where the Court is sitting, wilfully misbehaves in a violent, threatening, or disrespectful manner to the disturbance of the Court, or to the intimidation of suitors or others resorting thereto; or
- (iii.) Wilfully insults any member of the Court, or any juror or Assessor, or any person acting as a clerk or officer of the Court during his sitting or attendance in Court, or in his going to or returning from Court; or
- (iv.) Does any act in relation to the Court, or a Judge thereof, or a matter pending therein, which, if done in relation to a Superior Court in England, would be punishable as a contempt of such Court, or as a libel on such Court, or the Judges thereof, or the administration of justice therein;

Such person shall be liable to be apprehended by order of the Court, with or without warrant, and on inquiry and consideration, and after the hearing of any defence which such person may offer, without further process or trial, to be punished with a fine not exceeding ten pounds, or with imprisonment not exceeding twenty-four hours.

A minute shall be made and kept of every such case of punishment, recording the facts of the offence and the extent of the punishment, and a copy of the minute shall be forthwith sent to the Consul-General in the case of punishment so inflicted by a District Court, or to the Secretary of State in the case of punishment so inflicted by the Consul-General.

Provided that, if the Court thinks fit, instead of proceeding under the preceding provisions, it may direct or cause the offender to be tried in a separate criminal prosecution or proceeding, in which the offender shall be liable to be tried and punished for his offence as an offence against this Order.

Nothing herein shall interfere with the power of the Court to remove or exclude persons who interrupt or obstruct the proceedings of the Court.

38. If any person in Siam does any act or makes any publication of such kind, and under such circumstances, that, in the opinion of the Consul-General, grave danger to public order is thereby occasioned, the Consul-General shall have the same powers as under this Order a District Court has in relation to apprehended breaches of the peace.

39. If any clerk or officer of any Court acting under this Order in Siam, acting under pretence of the process or authority of the Court, is charged with extortion, or with not duly paying any money levied, or with other misconduct, the Court may (without prejudice to any other liability or punishment to which the clerk or officer would in the absence of the present provision be liable) inquire into the charge in a summary way, and for that purpose summon and enforce the attendance of all necessary persons, in like manner as the attendance of witnesses and others may be enforced in a suit, and may make such order thereupon for the repayment of any money extorted, or for the due payment of any money levied, and for the payment of such damages and costs as the Court thinks just, and the Court may also, if it thinks fit, impose such fine upon the clerk or officer, not exceeding one hundred pounds for each offence, as seems just.

40. Any act which, if done in the United Kingdom or in a British possession, would be an offence against any of the following Statutes of the Imperial Parliament, or Orders in Council, that is to say:—

“The Merchandise Marks Act, 1887;”

The Patents, Designs, and Trade Marks Acts, 1883 to 1888;

Any Act, Statute, or Order in Council, for the time being in force relating to copyright, or to inventions, designs, or trade-marks;

Any Statute amending or substituted for any of the above-mentioned Statutes—

Shall, if done by a British subject in Siam, be punishable as an offence against this Order, whether such Act is done in relation to any property or right of a British subject or of a foreigner, or otherwise:

Provided—

(1.) That a copy of any such Statute or Order in Council shall be published by the Consul-General in his public office at Bangkok, and shall be there open for inspection by any person at all reasonable times; and a person shall not be punished under this Article for anything done before the expiration of one month after such publication, unless the person offending is proved to have had express notice of the Statute or Order:

(2.) That a prosecution by or on behalf of a prosecutor who is not a British subject shall not be entertained without the consent in writing of the Consul-General, who may withhold such consent, unless he is satisfied that effectual provision exists for the punishment in Consular or other Courts in Siam of similar acts committed by the subjects of the State or Power of which such prosecutor is a subject, in relation to or affecting the interests of British subjects.

41. A District Court shall have jurisdiction to make an order requiring a person to contribute, in such manner as the Court directs, to the support of his wife or child, whether legitimate or not, being in the opinion of the Court under the age of 16 years. Any such Order may be made in a summary way, as if the neglect to provide for the support of such wife or child were an offence against this Order, and a failure to comply with any such order shall be deemed to be an offence against this Order, and shall be punishable accordingly, and the Court may direct any penalty imposed for such offence to be applied for the support of such wife or child in such manner as the Court thinks fit.

42. Where any act or omission is, by virtue of this Order, or of any regulation made under this Order, an offence against this Order, and no penalty or punishment is specified in respect thereof, such offence shall be punishable with imprisonment for not exceeding three months, or fine not exceeding one hundred pounds, or both.

43. A District Court may cause to be apprehended and brought before it any British subject being within the district of the Court, and charged with having committed a crime in Siam, and may deal with the accused according to the jurisdiction of the Court, and in conformity with the provisions of this Order; or where the crime is triable, and is to be tried, in Her Majesty's dominions, may take the preliminary examination, and commit the accused for trial, and cause or allow him to be taken to the place of intended trial.

44.—(1.) Where a person is charged with an offence on a summons or warrant issuing out of a Court, he shall be brought before the Court within forty-eight hours after service of the summons or execution of the warrant, unless, in any case, circumstances unavoidably prevent his being brought before the Court within that time, which circumstances shall be recorded in the minutes.

(2.) In every case he shall be brought before the Court as soon as circumstances reasonably admit, and the time and circumstances shall be recorded in the minutes.

45.—(1.) Where an accused person is in custody he shall not be remanded at any time for more than seven days, unless circumstances appear to the Court to make it necessary or proper that he should be remanded for a longer time, which circumstances, and the time of remand, shall be recorded in the minutes.

(2.) In no case shall a remand be for more than fourteen days at one time, unless in case of illness of the accused person or other case of necessity.

46.—(1.) Except in cases of murder, an accused person may be admitted to bail at any stage of the proceedings.

(2.) Where the offence charged is one of the following, it shall be in the discretion of the Court before whom such person appears or is tried to admit the accused to bail or not, according to the circumstances, namely:—

Felony (not being murder);

Riot;

Assault on an officer of a Court in the execution of his duty, or on any person acting in his aid ;

Neglect or breach of duty by an officer of a Court.

(3.) In all other cases except murder the Court shall admit the accused to bail, unless in any instance, the Court, having regard to the circumstances, see good reason to the contrary, which reason shall be recorded in the minutes.

(4.) The Consul-General may, if he thinks fit, admit to bail a person charged with any offence except murder, although any other Court, in the exercise of its discretion, has not thought fit to admit the accused to bail.

47. Crimes punishable under this Order are to be tried as follows (subject to the provisions of this Order as to the powers of the Consul-General and of the Supreme Court or a Judge thereof) :—

(1.) Crimes by this Order directed to be tried in a summary way are to be tried by a District Court without a jury or Assessors.

(2.) Crimes which are not punishable with a longer term of imprisonment than three months, nor punishable with fine exceeding fifty pounds, shall be tried in a summary way by a District Court without a jury or Assessors.

(3.) Crimes other than as aforesaid, and except crimes punishable with death or with penal servitude for seven years or upwards, shall be tried on indictment by a District Court with Assessors or a jury. Provided that if the accused person desires to be tried in a summary way, and the Court is of opinion that the case is such that, if proved, it can be adequately punished under the powers of a District Court, the Court may hear and determine the case in a summary way.

(4.) Every case of crime punishable with death, or with penal servitude for seven years or upwards, shall, before the committal of the accused person for trial, be specially reported to the Consul-General, who shall direct to what Court the accused person shall be committed for trial. Such Court shall be either the Supreme Court acting in the Straits Settlements, or acting in Siam, or the Consul-General acting in Siam with the powers of the Supreme Court; and the trial shall be by such Court with a jury if the trial takes place in the Straits Settlements, or if the accused person at the time of his being committed for trial in Siam so requires: provided that, in case of inability to obtain a jury, or if the accused person does not require a jury, the Court may try the case with Assessors.

(5.) Whenever a District Court commits a person for trial, it shall take all proper steps by commitment, bail, or otherwise for securing the attendance of the accused person to take his trial, and by recognizance or otherwise for securing the attendance at the trial of the prosecutor and of the witnesses for the prosecution and for the defence respectively, and shall transmit to the proper Court the depositions and any documents, recognizances, or things necessary for the purpose of the trial, with a certificate under the seal of the District Court specifying the depositions, documents and things so transmitted. Such certificate shall be *prima facie* evidence of all the matters stated therein to have been done by or before the District Court, and that the depositions transmitted therewith were duly taken.

48. A District Court may impose the punishment of imprisonment for any term not exceeding six months, with or without hard labour, and with or without a fine not exceeding two hundred pounds, or the punishment of a fine not exceeding two hundred pounds, without imprisonment.

49. Every Court and authority in imposing and inflicting punishments under this Order shall have regard, so far as circumstances admit, and subject to the other provisions of this Order, to the punishments imposed by the law of England in like cases, and to the mode in which the same are inflicted in England.

50. Any Court acting under this Order (but, in the case of a District Court, subject to the approval of the Consul-General) may order any person convicted before it of any crime or offence to pay all or any part of the expenses of or preliminary to his trial and of his imprisonment or other punishment.

Where it appears to any Court that any charge made before it is malicious, or is frivolous and vexatious, the Court may order all or any part of the expenses of the prosecution to be paid by the person making the charge.

In either of the two last-mentioned cases the amount ordered to be paid shall be deemed a debt due to the Crown, and may, by virtue of the Order, without further proceedings, be levied on the property of the person convicted or making the charge, as the case may be, or may be enforced by imprisonment for not exceeding one month or until payment.

51.—(1.) A Court may, if it thinks fit, order a person convicted of an assault to pay to the person assaulted, by way of damages, any sum not exceeding twenty pounds.

(2.) Damages so ordered to be paid may be either in addition to or in lieu of a fine, and shall be recoverable in like manner as a fine.

(3.) Payment of such damages shall be a defence to an action for the assault.

52.—(1.) If, on a trial, a Court is of opinion that the accused attempted to commit the offence with which he is charged, but did not complete it, he shall not be therefore acquitted, but the Court may find him guilty of the attempt, and may adjudge him to be punished as if he had been charged with the attempt.

He shall not be liable to be afterwards prosecuted for the offence.

(2.) If, on the trial of a person charged with robbery, a Court is of opinion that the accused committed an assault with intent to rob, but did not commit robbery, he shall not be therefore acquitted, but the Court may find him guilty of the assault, and may adjudge him to be punished as if he had been charged with the assault.

He shall not be liable to be afterwards prosecuted for the assault.

(3.) If, on a trial for any of the following offences, namely, burglary, or stealing in a dwelling-house, or breaking and entering and stealing in a shop, warehouse, or counting-house, or a building within the curtilage of a dwelling-house, or larceny, or feloniously receiving property stolen, embezzled, or otherwise feloniously taken, obtained, or disposed of, the facts proved authorise a conviction for one of those offences, not being the offence charged, the Court may find the accused guilty of that other offence, and may adjudge him to be punished as if he had been charged with that other offence.

He shall not be liable to be afterwards prosecuted for that other offence.

(4.) If any person procures, or endeavours to procure or incites any other person to commit a crime or offence, he shall be punishable on conviction in the same manner as if he were convicted of an attempt to commit that crime or offence. If the crime or offence is actually committed in pursuance of the procurement or incitement, both persons may be tried and punished for that crime or offence as principal offender.

53. Where a person charged with having committed a crime or offence in the district of one Court escapes or removes from that district and is found within the district of another Court, the Court within the district of which he is found may proceed in the case to examination, indictment, trial, and punishment, or in a summary way (as the case may require), in the same manner as if the crime or offence had been committed in its own district; or may on the requisition or with the consent of the Court of the district in which the crime or offence is charged to have been committed, send him in custody to that Court, or require him to give security for his surrender to that Court, there to answer the charge and be dealt with according to law.

Where any person is to be so sent in custody a warrant shall be issued by the Court within the district of which he is found and such warrant shall be sufficient authority to any person to whom it is directed to receive and detain the person therein named, and to carry him to, and deliver him up to, the Court of the district within which the crime or offence was committed, according to the warrant.

54. Where any person is charged with the commission of a crime or offence the cognizance whereof appertains to any of Her Majesty's Courts in Siam, and it is expedient that the crime or offence be enquired of, tried, determined, and punished within Her Majesty's dominions, the accused may, in accordance with the 4th section of "The Foreign Jurisdiction Act, 1843," be sent for trial to a British possession to which under the next following Article he could be sent for execution of a sentence of imprisonment.

The Consul-General may where it appears expedient, by warrant under his hand and seal, cause the accused to be taken for trial accordingly.

55 —(1.) Sentences of imprisonment shall ordinarily be carried into effect in such prisons within Siam as the Consul-General directs, either by any general directions or in any particular case. A warrant of the Consul-General, or of a Court before which a person is convicted, shall be sufficient authority for the removal of the person to the prison named in the warrant, and for his detention there.

(2.) Where any offender convicted before a Court in Siam is sentenced to imprisonment in respect of the crime or offence of which he is convicted, and it appears to the Consul-General to be expedient that the sentence be carried into effect within Her Majesty's dominions, the offender may, in accordance with the 5th section of "The Foreign Jurisdiction Act, 1843," be sent for execution of his sentence as follows:—

(a.) In the case of a prisoner who is, or who appears to the person signing the warrant under the said 5th section to be, a native of Burmah or of any other part of British India, and not of European descent, to Her Majesty's possession of Burmah or some other part of British India.

- (b.) In the case of any other prisoner, to the Colony of the Straits Settlements, or to some other part of Her Majesty's dominions out of the United Kingdom the Government whereof consents that offenders may be sent thither under this Article.

And the Consul-General shall have authority for the purposes of the said section.

56.—(1) In cases of murder or manslaughter, if either the death or the criminal act which wholly or partly caused the death happened within the jurisdiction of a Court acting under this order, such Court shall have the like jurisdiction over any person, being a British subject who is charged either as the principal offender or as accessory before the fact to murder, or as accessory after the fact to murder or manslaughter, as if both such criminal act and the death had happened within such jurisdiction.

(2) In the case of any crime committed on the high seas, or within the Admiralty jurisdiction, by any British subject on board a British ship, or on board a foreign ship to which he did not belong, a Court acting under this Order shall have jurisdiction as if the crime had been committed within the district of such Court. In cases tried under this provision no different sentence can be passed from the sentence which could be passed in England if the crime were tried there.

(3) The foregoing provisions of this Article shall be deemed to be adaptations for the purposes of this Order and of "The Foreign Jurisdiction Act, 1878," of the following enactments described in the first Schedule to that Act (that is to say):—

"The Admiralty Offences (Colonial) Act, 1849."

"The Admiralty Offences (Colonial) Act, 1860."

"The Merchant Shipping Act, 1867," section 11.

And the said enactments shall so far as they are repeated and adapted by this Article (but not further or otherwise), extend to Siam.

57. "The Fugitive Offenders Act, 1881," shall apply to Siam as if Siam were a British possession, subject to the conditions, exceptions, and qualifications following:—

- (i.) The said Act shall apply only in the case of British subjects.
- (ii.) The Consul-General is, for the purposes of the said Act, substituted for the Governor of a British possession, and for a Superior Court, or a Judge thereof, in a British possession, and for a Magistrate or Justice of the Peace in a British possession.
- (iii.) So much of the 4th and 5th sections of the said Act as relates to the sending a report of the issue of a warrant, together with the information, or a copy thereof, or to the sending of a certificate of committal and report of a case, or to the information to be given by a Magistrate to a fugitive, shall be excepted.
- (iv.) So much of the 6th section of the said Act as relates to *habeas corpus*, and as requires the expiration of fifteen days before issue of a warrant, shall be excepted.
- (v.) The said Consul-General shall not be bound to return a fugitive offender to a British possession unless satisfied that the proceedings to obtain his return are taken with the consent of the Governor of that possession.
- (vi.) For the purposes of Part II of the said Act, Siam and the Colony of the Straits Settlements shall be deemed to be one group of British possessions.

58. "The Colonial Prisoners Removal Act, 1884," shall apply to Siam as if Siam were a British possession, and part of Her Majesty's dominions, subject as follows:—

The Consul-General shall, in relation to Siam, be substituted for the Governor of a British possession.

59. The Consul-General shall, when required by the Secretary of State, send to the Secretary of State a report of the sentence passed in every case not heard and determined in a summary way, with a copy of the minutes of proceedings and notes of evidence, and may send with such report any observations he thinks fit.

Every Court (other than the Consul-General) shall forthwith send to the Consul-General a report of the sentence passed by it in Siam in every case not heard and determined in a summary way, with a copy of the minutes of proceedings and notes of evidence, and with any observations the Court thinks fit. The Consul-General shall, when required by the Secretary of State, transmit the same to the Secretary of State, and may send therewith any observations he thinks fit.

60.—(1.) Where any person is sentenced in Siam to suffer the punishment of death, the Court pronouncing the sentence shall forthwith send a report of the sentence, with a copy of the minutes of the proceedings and notes of the evidence in the case, and with any observation the Court thinks fit to make, to the Governor in Council of the Straits Settlements.

(2.) The sentence shall not be carried into execution without the order of the Governor of the Straits Settlements in Council.

(3.) In any such case, if the said Governor in Council does not order that the sentence of death be carried into execution, he shall direct what punishment in lieu of the punishment of death is to be inflicted on the person convicted, and the person convicted shall be punished accordingly.

61. The Governor in Council of the Straits Settlements shall have power, in the name of Her Majesty, to remit or commute in whole or in part any sentence passed by a Court exercising criminal jurisdiction under this Order, and every such Court shall give effect to any such remission.

62. Nothing in this Order shall be deemed to affect Her Majesty's prerogative of pardon.

#### PART VII.—APPEALS.

63.—(1.) Where any decision of a District Court, sitting with or without Assessors, or a decision of a Judge of the Supreme Court acting under this Order, with or without Assessors, either in Siam or in the Straits Settlements, is given in a civil case in respect of a sum or matter at issue of the amount or value of fifty pounds or upwards, or determines directly or indirectly, any claim or question respecting property of the amount or value of fifty pounds or upwards, any party aggrieved by the decision may apply to the Court for leave to appeal to the Supreme Court, and shall be entitled to leave on the terms prescribed by rules made under this Order, and subject to any restrictions and exceptions therein contained.

In any other case the Court or Judge may, if it seems just and expedient, give leave to appeal on like terms.

In any case the Supreme Court may give leave to appeal on such terms as seem just.

(2.) In any matter in which an appeal lies, as of right or otherwise, to the Supreme Court, it shall be lawful for the Supreme Court, by special leave, to enlarge the time for appealing, or to permit an appeal to be brought on such terms as to costs or otherwise as it thinks fit, although the time limited for appeal has elapsed, or any other formal requisite for an appeal has not been complied with.

(3.) The said Supreme Court, on the hearing of any appeal, may admit fresh evidence in such cases and on such terms as he or they think just, subject to any rules to be made under this Order.

64.—(1.) Where any final decree or order of the Supreme Court on appeal under this Order is made in a civil case in respect of a sum or matter at issue of the amount or value of five hundred pounds or upwards, or determines directly or indirectly any claim or question respecting property of the amount or value of five hundred pounds or upwards, any party aggrieved by the decree or order may, within fifteen days after the same is made, apply by motion to the Supreme Court for leave to appeal to Her Majesty in Council.

(2.) If leave to appeal is applied for by a party adjudged to pay money or perform a duty, the Supreme Court shall direct either that the decree or order appealed from be carried into execution, or that the execution thereof be suspended, pending the appeal, as the said Court considers to be in accordance with substantial justice.

(3.) If the said Court directs the decree or order to be carried into execution, the party in whose favour it is made shall, before the execution of it, give security to the satisfaction of the said Court for the due performance of such order as Her Majesty in Council may think fit to make.

(4.) If the said Court directs the execution of the decree or order to be suspended pending the appeal, the party against whom the decree is made shall, before any order for suspension of execution, give security to the satisfaction of the said Court for the due performance of such order as Her Majesty in Council may think fit to make.

(5.) In all cases security shall also be given by the appellant to the satisfaction of the said Court, to an amount not exceeding five hundred pounds, for the prosecution of the appeal, and for payment of all such costs as may be awarded to any respondent on appeal to Her Majesty in Council.

(6.) If the last mentioned security is given within one month from the filing of the motion-paper for leave to appeal, then, and not otherwise, the said Court shall give leave to appeal.

(7.) In any case other than the cases hereinbefore described, the Supreme Court may give leave to appeal on the terms and in the manner aforesaid, if it considers it just or expedient to do so.

(8.) In every case where leave to appeal is given as aforesaid, the appellant shall be at liberty to prefer and prosecute his appeal to Her Majesty in Council according to

the rules for the time being in force respecting appeals to Her Majesty in Council from Her Colonies, or such other rules as Her Majesty in Council from time to time thinks fit to make concerning appeals from the Supreme Court.

(9.) Nothing in this Order shall affect the right of Her Majesty at any time, on the humble petition of a party aggrieved by any decision of the Supreme Court, to admit his appeal thereon on such terms and in such manner as Her Majesty in Council may think fit, and to deal with the decision appealed from in such manner as may be just.

65. In any case in which an appeal lies under this Order from a District Court to the Supreme Court as of right, or leave to appeal is given by the District Court, the parties may agree that the appeal shall be to the Consul-General, and upon any such agreement in writing being filed in the District Court, or upon such agreement being made in open Court and embodied in any Order of the District Court, the appeal shall be to the Consul-General, who shall hear and dispose of the appeal in a summary way in such manner as he thinks fit, and may make any Order which could have been made by the District Court, and shall certify his Order to the District Court, and that Court shall give effect thereto.

Any such Order shall be final, and shall not be subject to any further appeal, either to the Supreme Court or to Her Majesty in Council.

This Article does not apply to cases which are in the first instance heard by the Consul-General, as such, in the exercise of any original jurisdiction under this Order.

66.—(1.) Where any person is convicted otherwise than in a summary way of a crime or offence, the Court trying the case may, if it seems fit, upon or without written application by the prosecutor or defendant, reserve for the consideration of the full Supreme Court any question of law arising on the trial.

The Court shall then state a special case, setting out the question reserved, with the facts and circumstances on which it arose, and shall send the case to the Supreme Court.

(2.) Where any person is convicted in a summary way of a crime or offence, and is dissatisfied with the conviction as being erroneous in point of law, the Court trying the case may, on his application in writing, and on compliance by him with any terms prescribed by the rules made under this Order, state a special case, setting out the facts and the grounds of the conviction, for the opinion of the Supreme Court.

(3.) Where a special case is stated, the Court stating it shall, as seems fit, either postpone judgment on the conviction, or respite execution of the judgment, and either commit the person convicted to prison, or take proper security for him to appear and receive judgment or to render himself in execution (as the case may require), at an appointed time and place.

(4.) The Supreme Court shall hear and determine the matter, and thereupon shall reverse, affirm, or amend the judgment, conviction, or sentence in question; or set aside the same and order an entry to be made in the minutes of proceedings to the effect that in the judgment of the Supreme Court the person convicted ought not to have been convicted, or arrest the judgment, or order judgment to be given at a subsequent sitting of the Court stating the case, or order a new trial, or make such other order as justice requires, and shall also give the necessary and proper consequential directions.

(5.) The judgment of the Supreme Court shall be delivered in open Court after the public hearing of any argument offered on behalf of the prosecution or of the person convicted.

(6.) Before delivering judgment, the Supreme Court may, if necessary, cause the special case to be amended by the Court stating it.

(7.) If on an application for a special case the Court refuses to state a case, the Court so refusing shall forthwith send to the Supreme Court a report of the sentence, with a copy of the minutes of proceedings and notes of evidence, and any observations the Court thinks fit and with a copy of the application for a special case.

(8.) The Supreme Court shall examine the report and documents so sent, and may, on the application in that behalf of the appellant, if made within one month after the refusal of a special case, proceed to hear and determine the matter according to the foregoing provisions, as nearly as may be as if a special case has been stated.

(9.) In this Article expressions referring to the Court which tries a case include a District Court or a Judge or Judges of the Supreme Court acting under this Order either in Siam or in the Straits Settlements, or the Consul-General acting with the power of the Supreme Court.

## PART VIII.—EVIDENCE.

67.—(1.) In any case, criminal or civil, and at any stage thereof, a District Court, either of its own motion, or on the application of any party, may summon a British subject to attend to give evidence, or to produce documents, or to be examined.

(2.) If the person summoned, having reasonable notice of the time and place at which he is required to attend, fails to attend and be sworn, and give evidence, or produce documents, or submit to examination accordingly, and does not excuse his failure to the satisfaction of the Court, he shall be guilty of an offence against this Order.

(3.) A person punished under this Article shall not be liable to an action in respect of the same matter; and any such action, if begun, shall be stayed by the Court in such manner and on such terms as the Court thinks fit.

(4.) In a criminal case, where it is proved that a British subject is likely to give material evidence, either for the prosecution or for the defence, and that he will not voluntarily attend to give evidence, the Court may issue a summons for his attendance.

(5.) If he does not obey the summons, and does not excuse his failure to the satisfaction of the Court, then, after proof of service of the summons, the Court may issue a warrant to compel his attendance.

(6.) Where it is proved that he will not attend to give evidence unless compelled to do so, the Court may issue a warrant in the first instance.

(7.) In civil cases, any Court may, where the circumstances appear to justify it, order that the expenses of a witness, on his appearing to give evidence, shall be defrayed by the parties, or any of them.

68.—(1.) Any person appearing before a District Court to give evidence in any case, civil or criminal, may be examined or give evidence on oath in the form or with the ceremony that he declares to be binding on his conscience.

(2.) Any British subject wilfully giving false evidence in any suit or proceeding, civil or criminal, or on any arbitration, or in any affidavit, shall be deemed guilty of wilful and corrupt perjury.

69.—(1.) Judicial notice shall be taken of this Order, and of the commencement thereof, and of the appointment of Consular or other officers, and of the constitution and limits of any jurisdiction, Court, or district, and of Consular seals and signatures, and of any rules or regulations made or in force under this Order, and no proof shall be required of any of such matters.

(2.) Every signature or seal affixed to any instrument purporting to be the signature of any Consular officer or person acting under this Order, or to be the seal of any Court, shall, for all purposes under this Order, without any proof thereof, be presumed to be genuine, and shall be taken as genuine until the contrary is proved.

70. A person attending to give evidence before a District Court shall not be compelled or allowed to give any evidence, or produce any document, if, in the opinion of the Consul-General, signified by him personally or in writing to the Court, the giving or production thereof would be injurious to Her Majesty's service.

71.—(1.) The provisions of "The Evidence Act, 1851" (14 & 15 Vict., cap. 99), sections 7 and 11, relating to the proof of judicial and other documents, shall extend and be applied for all purposes as if the district were in a British Colony.

(2.) The following Acts, namely:—

"The Foreign Tribunals Evidence Act, 1856,"

"The Evidence by Commission Act, 1859,"

"The Evidence by Commission Act, 1885,"

or so much thereof as is for the time being in force, and any enactment for the time being in force amending or substituted for the same, are hereby extended to all places and Courts to which this Order applies, with the adaptations following, namely:—

In the said Acts the Consul-General is hereby substituted for a Supreme Court or the Judge of a Court in a Colony.

(3.) The following Acts, namely:—

"The British Law Ascertainment Act, 1859,"

"The Foreign Law Ascertainment Act, 1861."

or so much thereof as is for the time being in force, and any enactment for the time being in force amending or substituted for the same, are hereby extended to all places and Courts to which this Order applies, with the adaptations following, namely:—

In the said Acts the Consul-General is hereby substituted for a Superior Court in a Colony.

## PART IX.—JURIES AND ASSESSORS.

*Juries.*

72.—(1.) Every male British subject resident in Siam, being of the age of 21 years or upwards, being able to speak and read English, having or earning a gross income at the rate of not less than fifty pounds, a-year, not having been attainted of treason or felony, or convicted of any crime that is infamous (unless he has obtained a free pardon), and not being under outlawry, shall be qualified to serve on a jury.

(2.) All persons so qualified shall be liable so to serve, except the following:—

Persons in Her Majesty's Diplomatic, Consular, or other Civil Service in actual employment;

Officers, clerks, keepers of prisons, messengers, and other persons attached to or in the service of any of Her Majesty's Courts;

Officers and others on full pay in Her Majesty's navy or army, or in actual employment in the service of any Department connected therewith;

Persons holding appointments in the Civil Service of the Kings of Siam, and commissioned officers in the Naval or Military Service of the Kings of Siam;

Clergymen and ministers in the actual discharge of professional duties;

Advocates and attorneys in actual practice;

Physicians, surgeons, and apothecaries in actual practice;

And except persons disabled by mental or bodily infirmity.

73. On or before the 14th day of January in every year each District Court shall make out a list of the persons so qualified and liable resident within its district.

The list shall, on or before the 21st day of the same respective month, be affixed in some conspicuous place in the Court, and shall be there exhibited until the end of that month, with a notice annexed that on a day specified, not being sooner than the 7th or later than the 14th day of the then next month, the Court will hold a special sitting for the revision of the list.

The Court shall hold such special sitting accordingly, and at such sitting, or at some adjournment thereof (of which public notice shall be given), shall revise the list by striking out the name of any person appearing to be not qualified or not liable to serve, and by inserting the name of any person omitted, and appearing to be so qualified and liable, either on the application of the person omitted, or on such notice to him as the Court thinks fit.

The list shall be finally revised and settled not later than the 21st day of February in every year, and when settled shall be affixed in some conspicuous place in the Court, and be there exhibited during not less than two months.

Such list, as settled, shall be brought into use on the 1st day of March, and shall be used as the Jury List of the Court until the 1st day of March next after the time of its being brought into use.

74. Where, in pursuance of this Order, a jury is ordered, the Court before which the trial is to be had shall summon so many of the persons comprised in the Jury List, not fewer than seven, as seems requisite.

Any person failing to attend according to such summons shall be liable to such fine, not exceeding ten pounds, as the Court thinks fit to impose.

Any such fine shall not be levied until after the expiration of fourteen days. The proper officer of the Court shall forthwith give to the person fined notice in writing of the imposition of the fine, and require him within six days after receipt of the notice to file an affidavit excusing his non-attendance, if he desires to do so. The Court shall consider the affidavit, and may, if it seems proper, remit the fine.

75. Where a suit relates to money, goods, or other property, or any matter at issue appearing to the Court to be of the amount or value of three hundred pounds or upwards, or is brought for recovery of damages of the amount of three hundred pounds or upwards, the suit shall, on the demand of either party, be under order of the Court before which the trial is to be had, tried with a jury.

In any case a suit may be tried with a jury, if the Court, of its own motion or on the application of either party, thinks fit so to order.

76.—(1.) The foregoing provisions relating to the preparation of jury lists and the summoning of juries shall not, as regards any District Court other than the District Court at Bangkok, come into operation until the Consul-General so directs by order in writing published in such manner as he thinks fit.

He may from time to time by any such order, as regards any district, alter the number of jurors to be summoned or the quorum of a jury;

He may suspend the operation of any such order from time to time, or revoke any order.

(2.) If, in any civil or criminal case where a jury is ordered, or is required by this Order or by any rules of procedure, a sufficient jury cannot be obtained, the Court before which the trial is to be had may either hear the case without a jury, or with a jury of less than the proper number, or postpone it in order to obtain a jury or Assessors, as the Court thinks just.

77.—(1.) Subject to the other provisions of this Order, the number of the jury shall be five.

(2.) In criminal cases tried with a jury, the verdict of the jury must be unanimous. In civil cases the verdict must be unanimous unless the parties otherwise agree.

(3.) No challenge shall be allowed except for cause shown to the satisfaction of the Court.

(4.) No grand jury shall be summoned.

78. Where a District Court proceeds, in pursuance of this Order, to hear and determine any case, civil or criminal, with Assessors, the Court shall nominate and summon as Assessors not less than two and not more than four indifferent British subjects of good repute, resident in the district of the Court, or belonging to a British ship.

Where, by reason of local circumstances, the Court is able to obtain the presence of one fit person only as Assessor, the Court may sit with him alone as Assessor; and where, for like reasons, the Court is not able to obtain the presence of any fit person as Assessor, the Court may (notwithstanding anything in this Order) sit without an Assessor; but in every such case the Court shall record in the minutes of proceedings its reasons for sitting with one Assessor only, or without an Assessor.

An Assessor shall not have voice or vote in the decision of the Court in any case, civil or criminal; but an Assessor dissenting in a civil case from any decision of the Court, or in a criminal case from any decision of the Court, or the conviction, or the amount of punishment awarded, may record in the minutes of proceedings his dissent and the grounds thereof; and an Assessor dissenting shall be entitled to receive gratis a certified copy of the minutes.

79. In civil cases, any party who has a right to demand a trial with a jury may, in lieu thereof, demand a trial with Assessors, unless a trial with a jury is ordered, and can be had. If no party demands a jury or Assessors, the Court before whom the trial is to be had may, if it thinks fit, summon Assessors.

80. If any person summoned to act as Assessor fails, without lawful excuse, to attend at the trial, or at any adjournment thereof, or to continue to serve throughout the trial, he shall be liable under a summary order of the Court to a fine not exceeding ten pounds, to be levied by attachment and sale of his goods within the district, and in default of recovery thereby of the fine, to be imprisoned for any time not exceeding six days, if the fine is not sooner paid.

#### PART X.—RULES OF PROCEDURE.

81.—(1.) The Consul-General, with the approval of the Chief Justice of the Straits Settlements, may from time to time frame rules for any purpose for which it is in this Order expressed or implied that rules of procedure or practice are to be made for the execution of judgments or orders, and for the regulation of appeals in civil and in criminal cases, and of rehearings, and generally for the purpose of making any provision proper or necessary for the proper or effectual exercise of the jurisdiction of Courts under this Order, and may thereby impose reasonable penalties, and may provide for the enforcement of any judgment or order by imprisonment for not exceeding one month.

(2.) Rules affecting the conduct of civil suits shall be so framed as to secure, as far as may be, that cases shall be decided on their merits according to substantial justice, without excessive regard to technicalities of pleading or procedure, and without unnecessary delay.

(3.) Rules framed under this Article shall not have effect unless and until they are approved by the Secretary of State, save that in case of urgency declared in any rules framed by the Consul-General the same shall have effect unless and until they are disapproved by the Secretary of State, and notification of such disapproval is received and published by the Consul-General.

(4.) Provision may, amongst other things, be made by rules under this Article authorizing any Court to grant and enforce search-warrants, and to enforce awards, and to enforce by distress, or by attachment or commitment, judgments or orders of any Court, or payment of any damages, costs, penalties, fines, or forfeitures, and for the sale of things forfeited, and for garnishee process, and for attachments of property in order to compel appearance or submission to the jurisdiction or process of any Court, and authorizing any Court to compel, by fine, distress, or recognizance, or in default of

security by commitment, the attendance of witnesses before any Court, or before a Colonial Court to which a case is sent for trial, and to fix and enforce the fees to be taken in respect of any proceedings under this Order, not exceeding, as regards any matters provided for by the Act of 6 Geo. IV, cap. 87, fees fixed and allowed from time to time by any Order in Council made under that Act, and to take and transmit depositions of witnesses for use at trials in a Colony or in England, and to appoint forms of indictment or charge in criminal proceedings, and for regulating the conditions on which persons may be admitted to practise as barristers, advocates, or solicitors in proceedings in any Court and for suspending or excluding such persons from practice in case of misconduct: Provided that the scales of all fees fixed under the provisions of this Order shall have been sanctioned by the Commissioners of Her Majesty's Treasury.

82. A copy of the rules for the time being in force shall be kept exhibited conspicuously in each District Court and Consulate.

Printed copies shall be provided and sold at such reasonable price as the Consul-General from time to time directs.

No penalty shall be enforced in any District Court for the breach of any rule until the rule has been so exhibited in the Court for one month, unless the person offending is proved to have had express notice of the rule.

A printed copy of any rule purporting to be certified under the hand of the Consul-General shall be for all purposes conclusive evidence of the due framing, approval, and publication of the contents thereof.

From and after the commencement of any rules made under this Order, all rules and regulations theretofore in force in the district in respect of any matter in respect whereof rules are made under this Order shall cease to operate.

#### PART XI.—TREATIES AND QUEEN'S REGULATIONS.

83. If any British subject violates or fails to observe any stipulation of any Treaty made with or by or on behalf of Her Majesty, for the time being in force, in respect of the violation whereof any penalty is stipulated for in the Treaty, he shall be deemed guilty of an offence against the Treaty, and on conviction thereof under this Order shall be liable to a penalty not exceeding the penalty stipulated for in the Treaty.

84.—(1.) The Consul-General may, from time to time, subject and according to the provisions of this Order, make, on behalf of Her Majesty, such Regulations as to him seem fit for the peace, order, and good government of British subjects resident in, or resorting to, Siam.

(2.) The power aforesaid extends to the making of Regulations for securing observance of the stipulations of Treaties between Her Majesty, Her heirs and successors, and the Kings of Siam, and for enforcing any local law or customs, whether relating to trade, commerce, revenue, or any other matter, and for maintaining friendly relations between British subjects and Siamese subjects and authorities, and for requiring Returns to be made of the nature, quantity, and value of articles exported from or imported into Siam, by or on account of any British subject or in any British ship, and for prescribing the times and manner at or in which, and the persons by whom, such Returns are to be made.

(3.) The Consul-General may, as he thinks fit, make any Regulation under this Order extend either throughout Siam, or to some one or more only of the Consular districts in Siam.

(4.) The Consul-General, in the exercise of the powers aforesaid, may, if he thinks fit, join with the Ministers or Representatives of any foreign Powers in amity with Her Majesty in making or adopting Regulations for the municipal government of any foreign Concession or Settlement in Siam; and, as regards British subjects, joint Regulations so made shall be as valid and binding as if they related to British subjects only.

(5.) The Consul-General may, by any Regulation made under this Order, repeal or alter any Regulation made under any Order in Council relating to Siam.

(6.) Regulations made under this Order shall not have effect unless and until they are approved by Her Majesty, that approval being signified through the Secretary of State, save that, in case of urgency declared in any such Regulations, the same shall take effect before that approval, and shall continue to have effect unless and until they are disapproved by Her Majesty the Queen, that disapproval being signified through the Secretary of State, and until notification of that disapproval has been received and published by the Consul-General.

That approval, where given, shall be conclusive, and the validity or regularity of any Regulations so approved shall not be called in question in any legal proceeding whatever.

85. Any Regulations made under this Order may, if the Consul-General thinks fit, impose penalties for offences against the same.

Penalties so imposed shall not exceed the following, namely: for any offence, imprisonment for three months, with or without hard labour, and with or without a fine of one hundred pounds, or a fine of one hundred pounds, without imprisonment; with or without a further fine, for a continuing offence, of ten pounds for each day during which the offence continues after the original fine is incurred.

Regulations imposing penalties shall be so framed as to allow in every case of part only of the highest penalty being inflicted.

In addition to or in lieu of penalties, such Regulation may provide for forfeiture of any goods, receptacles, or things in relation to which, or to the contents of which, any breach is committed of such Regulations, of any Treaty, or any Siamese Law or Ordinance the observance of which is provided for by such Regulations.

86. All Regulations made under this Order, whether imposing penalties or not, shall be printed, and a printed copy thereof shall be affixed, and be at all times kept exhibited conspicuously in the public offices of each Consulate in Siam.

Printed copies of the Regulations shall be kept on sale at such reasonable price as the Consul-General from time to time directs.

Where a Regulation imposes a penalty or forfeiture, the same shall not be enforceable in any Consular district until a printed copy of the Regulation has been affixed in the public office of the Consulate for that district, and has been kept exhibited conspicuously there during one month, unless the person offending is proved to have had express notice of the Regulation.

A printed copy of a Regulation purporting to be made under this Order, and to be certified under the hand of the Consul-General, shall be conclusive evidence of the due making of the Regulation and of its contents.

87. A charge of an offence against a Regulation made under this Order imposing a penalty or forfeiture shall be inquired of, heard, and determined as an ordinary criminal charge under this Order, except that where the Regulation is one for securing observance of the stipulations of a Treaty, the charge shall be heard and determined in a summary way, and (where the proceeding is before a District Court) without Assessors.

88. The respective powers aforesaid extend to the making of Regulations for the governance, visitation, care, and superintendence of prisons in Siam, and for the infliction of corporal or other punishment on prisoners committing offences against the rules or discipline of a prison; but the provisions of this Order respecting penalties, and respecting the printing, affixing, exhibiting, and sale of Regulations, and the mode of trial of charges of offences against Regulations, do not apply to Regulations respecting prisons and offences of prisoners.

## PART XII.—FOREIGNERS AND FOREIGN COURTS.

89.—(a.) Where a foreigner desires to institute or take a suit or proceeding of a civil nature against a British subject, or a British subject desires to institute or take a suit or proceeding of a civil nature against a foreigner, a District Court may entertain the suit or proceeding, and hear and determine it (and if all parties desire, or the Court directs a trial with a jury or Assessors, then with a jury or Assessors) at a place where such a trial might be had if all parties were British subjects, and in all other respects according to the ordinary course of the Court.

(b.) Provided that the foreigner (i) first files in the Court his consent to the jurisdiction of the Court; and (ii) also, if required by the Court, obtains and files a certificate in writing from a competent authority of his own Government to the effect that no objection is made by that Government to the foreigner submitting in the particular cause or matter to the jurisdiction of the Court; and (iii) also, if required by the Court, gives security to the satisfaction of the Court, to such reasonable amount as the Court directs, by deposit of money or otherwise, to pay fees, costs, damages, and expenses, and to abide by and perform the decision to be given by the Court or on appeal.

(c.) A counter-claim or cross-suit cannot be brought or instituted in the Court against a plaintiff, being a foreigner, who has submitted to the jurisdiction, by a defendant, except by leave of the Court first obtained.

(d.) The Court, before giving leave, shall require proof from the defendant that his claim arises out of the matter in dispute, and that there is reasonable ground for it, and that it is not made for vexation or delay.

(e.) Nothing in this article prevents the defendant from instituting or taking in the Court against the foreigner, after the termination of the suit or proceeding in which the foreigner is plaintiff, any suit or proceeding that the defendant might have instituted or

taken in the Court against the foreigner if no provision restraining counter-claims or cross-suits had been inserted in this Order.

(f.) Where a foreigner obtains in the Court an order against a defendant being a British subject, and in another suit that defendant is plaintiff and the foreigner is defendant, the Court may, if it thinks fit, on the application of the British subject, stay the enforcement of the order pending that other suit, and may set off any amount ordered to be paid by one party in one suit against any amount ordered to be paid by the other party in the other suit.

(g.) Where a plaintiff, being a foreigner, obtains in the Court an order against two or more defendants, being British subjects, jointly, and in another suit one of them is plaintiff, and the foreigner is defendant, the Court may, if it thinks fit, on the application of the British subject, stay the enforcement of the order pending that other suit, and may set off any amount ordered to be paid by one party in one suit against any amount ordered to be paid by the other party in the other suit, without prejudice to the right of the British subject to require contribution from his co-defendants under the joint liability.

(h.) Where a foreigner is co-plaintiff in a suit with a British subject who is within the particular jurisdiction, it is not necessary for the foreigner to make deposit or give security for costs unless the Court so directs; but the co-plaintiff British subject is responsible for all fees and costs.

90.—(a.) Where it is shown to a District Court that the attendance of a British subject to give evidence, or for any other purpose connected with the administration of justice, is required in a Siamese Court, or before a judicial officer in Siam of any State in amity with Her Majesty, the Court may, in cases and under circumstances which would require the attendance of that British subject before one of Her Majesty's Courts in Siam, and if it seems to the Court just and expedient so to do, make an order for the attendance of the British subject in such Court or before such judicial officer, and for such purpose as aforesaid, but so that a District Court shall not have power to make an order for such attendance of a British subject at any place beyond the particular jurisdiction of the Court.

The order may be made subject to conditions as to payment or tender of expenses or otherwise.

(b.) If the person ordered to attend, having reasonable notice of the time and place at which he is required to attend, fails to attend accordingly, and does not excuse his failure to the satisfaction of the Court, or if he refuses to give evidence or wilfully gives false evidence, or fails to produce documents which he is properly required to produce, he is, independently of any other liability, guilty of an offence against this order, and for every such offence, on conviction thereof, by summary trial, is liable to a fine not exceeding one hundred pounds, or to imprisonment for not exceeding one month, in the discretion of the Court.

91. Where, in pursuance of the IXth Article of the Treaty between Great Britain and Siam, dated the 3rd September, 1883, an appeal is brought to Bangkok from any Siamese Judge or Judges, Commissioner or Commissioners, the Consul-General shall take such steps as may be directed by the Secretary of State, in order that the final decision on appeal may be recorded at Bangkok and duly transmitted to the Court from which the appeal is brought, and in order that effect may be given thereto by such Court.

#### PART XIII.—DEPORTATION AND REMOVAL.

92.—(1.) Where it is shown on oath to the satisfaction of a District Court that there is reasonable ground to apprehend that any British subject within the district of such Court is about to commit a breach of the public peace, or that the acts or conduct of any British subject are or is likely to produce or excite to a breach of the public peace, the Court may cause him to be brought before it and require him to give security to the satisfaction of the Court to keep the peace or for his future good behaviour, as the case may require.

(2.) Where any British subject is convicted under this Order of any crime or offence, a District Court within the jurisdiction whereof he happens to be may require him to give security to the satisfaction of the Court for his future good behaviour.

(3.) In either of these cases, if the person required to give security fails to do so, the Court may order that he be deported from Siam to such place as the Court directs.

(4.) The place shall be a place in some part of Her Majesty's dominions prescribed by the Secretary of State, or a place the Government whereof consents to the reception therein of persons deported under this Order. The order for deportation may, in any case with reference to which the Secretary of State by any general or special directions so directs, provide for the deportation of the person to whom it refers in the first instance to any place, as above mentioned, and also for his further deportation

from that place to any other place to which he could lawfully have been deported in the first instance.

(5.) A District Court shall forthwith report to the Consul-General any order of deportation made by it, and the grounds thereof.

The Consul-General may reverse the order, or may confirm it with or without variation, and in case of confirmation shall direct it to be carried into effect.

(6.) The person to be deported shall be detained in custody until a fit time and opportunity for his deportation arrives.

(7.) The Consul-General shall (and in the case of a person convicted, either after execution of the sentence or while it is in course of execution), by warrant, cause the person to be taken to the place of deportation.

(8.) The Consul-General may order that the person to be deported do pay all or any part of the expenses of, or preliminary to, his deportation.

(9.) The Consul-General shall forthwith report to the Secretary of State any order of deportation made or confirmed by him, and the grounds thereof.

(10.) Where any person is deported to Singapore, he shall, on his arrival there, be delivered, with the warrant under which he is deported, into the custody of the Superintendent of Prisons of Singapore, or other officer of Her Majesty there lawfully acting as such, who, on receipt of the person deported, with the warrant, shall detain him, and shall forthwith report the case to the Governor or person administering the Government of the Straits Settlements, who shall either, by warrant (if the circumstances of the case appear to make it expedient), cause the person so deported to be taken to England, and in the meantime to be detained in custody (so that the period of such detention do not exceed three months), or else shall discharge him from custody.

(11.) If any person deported returns to Siam without the permission of the Secretary of State or of the Consul-General, in writing under his hand, he shall be guilty of an offence against this Order, and shall be liable, on conviction thereof, to punishment (in the discretion of the Court before which he is convicted) by imprisonment for any term not exceeding one month, with or without hard labour, and with or without a fine not exceeding forty pounds, or by a fine not exceeding forty pounds, without imprisonment, and also to be forthwith again deported in manner hereinbefore provided.

93.—(1.) Whenever under this Order any person is to be taken in custody or otherwise for trial or imprisonment, or by way of deportation, or for any other purpose, to Bangkok or elsewhere in Siam or to Singapore or elsewhere, the Court or other authority by this Order authorized to cause him to be so taken may for that purpose (if necessary) cause him to be embarked on board one of Her Majesty's vessels of war, or if there is no such vessel available, then on board any British or other fit vessel, at any port or place whether within or beyond the particular jurisdiction or district of that Court or authority, and in order to such embarkment may (if necessary) cause him to be taken, in custody or otherwise, by land or by water, from any place to the port or place of embarkment.

(2.) The writ, order, or warrant of the Consul-General, or of a District Court in Siam, or of the Supreme Court, or the warrant of the Governor or person administering the Government of the Straits Settlements (as the case may be), by virtue whereof any person is to be so taken, shall be sufficient authority to every constable, officer, or other person acting thereunder, and to the commander or master of any vessel of war, or other vessel (whether the constable, officer, or other person, or the vessel or the commander or master thereof is named therein or not), to receive, detain, take, and deliver up such person, according to the writ, order, or warrant.

(3.) Where the writ, order, or warrant is executed under the immediate direction of the Court or authority issuing it, the writ, order, or warrant shall be delivered to the constable, officer, or other person acting thereunder, and a duplicate thereof shall be delivered to the commander or master of any vessel in which the person to whom the writ, order, or warrant relates is embarked.

(4.) Where the writ, order, or warrant is made or issued by the Consul-General, and is executed by a District Court in Siam, and where the writ, order, or warrant issues from the Supreme Court of the Straits Settlements, and is executed by any of Her Majesty's Courts in Siam, a copy thereof certified under the seal of the Court executing the same shall be delivered to the constable, officer, or other person acting thereunder, and to the commander or master of any vessel in which the person taken is embarked; and any such copy shall be for all purposes conclusive evidence of the order of which it purports to be a copy.

#### PART XIV.—REGISTRATION.

94.—(1.) Every British subject resident in Siam, being of the age of twenty-one years or upwards, or being married, or a widower or widow, though under that age

shall, in the month of January in the year 1889, and every subsequent year, register himself in a register to be kept at the Consulate of the Consular district within which he resides, subject to this qualification, that the registration of a man shall be deemed to include the registration of his wife (unless she is living apart from him), and that the registration of the head of a family, whether male or female, shall be deemed to include the registration of all females, being relatives of the head of the family (in whatever degree of relationship), living under the same roof with the head of the family at the time of his registration.

(2.) Every British subject not so resident arriving after the commencement of this Order at any place in Siam where a Consular officer is maintained, unless borne on the muster-roll of a British vessel there arriving, shall, within one month after his arrival, register himself in a register to be kept at the Consular office, but so that no such person shall be required to register himself more than once in any year, reckoned from the 1st day of January.

(3.) Any person failing so to register himself, and not excusing his failure to the satisfaction of the Consular officer, shall not be entitled to be recognized or protected as a British subject in Siam, and shall be liable to a fine not exceeding two pounds for each instance of such failure; but he shall nevertheless be subject to the jurisdiction of the Courts for all purposes.

(4.) Every person shall, on every registration of himself, pay a fee of two shillings and sixpence.

(5.) The Consular officer shall issue to every person so registered a certificate of registration under his hand and Consular seal; and the name of a wife (unless living apart from her husband) shall be endorsed on her husband's certificate; and the names and descriptions of females whose registration is included in that of the head of the family shall be endorsed on the certificate of the head of the family.

#### PART XV.—MORTGAGES AND BILLS OF SALE.

95.—(1.) A deed or other instrument of mortgage, legal or equitable, of lands or houses in Siam, executed by a British subject, may be registered at any time after its execution at the District Court of the district wherein the property mortgaged is situate.

(2.) Registration is made as follows: The original and a copy of the deed or other instrument of mortgage, and an affidavit verifying the execution and place of execution thereof, and verifying the copy, are brought into the Court; and the copy and affidavit are left there.

(3.) If a deed or other instrument of mortgage is not registered at the Court within the respective time following (namely):—

- (i.) Within fourteen days after its execution, where it is executed in the district wherein the property mortgaged is situate;
- (ii.) Within two months after its execution, where it is executed in Siam, elsewhere than in that district;
- (iii.) Within six months after its execution, where it is executed elsewhere than in Siam; then, and in every such case, the mortgage debt secured by the deed or other instrument and the interest thereon shall not have priority over judgment or simple contract debts contracted before the registration of that deed or other instrument.

(4.) Registered deeds or other instruments of mortgage, legal or equitable, of the same lands or houses have, as among themselves, priority in order of registration.

(5.) The provisions of this Order do not apply to a deed or other instrument of mortgage executed before the commencement of this Order.

96. The power given by this Order for framing Rules from time to time is hereby extended to the framing of Rules for prescribing and regulating the making and keeping of indexes, and of a general index to the register of mortgages, and searches in those indexes, and other particulars connected with the making, keeping, and using of those registers and indexes, and for authorizing and regulating the removal from the register of any deed or other instrument of mortgage, or the registering of any lease or satisfaction in respect thereof.

97. The provisions of this Order relating to bills of sale—

- (i.) Apply only to such bills of sale executed by British subjects as are intended to affect chattels in Siam;
- (ii.) Do not apply to bills of sale given by Sheriffs or others under or in execution of process authorizing seizure of chattels.

98.—(a) Every bill of sale must conform with the following rules (namely):—

- (1.) It must state truly the name, description, and address of the grantor.

- (2.) It must state truly the consideration for which it is granted.
  - (3.) It must have annexed thereto or written thereunder an inventory of the chattels intended to be comprised therein.
  - (4.) Any defeasance, condition, or declaration of trust affecting the bill not contained in the body of the bill must be written on the same paper as the bill.
  - (5.) The execution of the bill must be attested by a credible witness, with his address and description.
  - (b.) Otherwise, the bill is void to the extent following, but not further (that is to say):
    - (i.) In the case of failure to conform with the rule respecting an inventory, as far as regards chattels omitted from the inventory; and
    - (ii.) In any other case, wholly.
  - (c.) The inventory, and any defeasance, condition or declaration as aforesaid, respectively, is for all purposes deemed part of the bill.
99. A bill of sale conforming, or appearing to conform, with the foregoing rules, may be registered at the Court of the district wherein the chattels are; within the respective time following, and not afterwards (namely):—
- (i.) Within fourteen days after its execution, where it is executed in the district wherein the chattels are;
  - (ii.) Within two months after its execution, where it is executed in Siam, elsewhere than in that district;
  - (iii.) Within six months after its execution, where it is executed elsewhere than in Siam.
- 100.—(1.) Registration is made as follows: The original and a copy of the bill of sale, and an affidavit verifying the execution, and the time and place of execution, and the attestation thereof, and verifying the copy, are brought into the proper office of the Court; and the copy and affidavit are left there.
- (2.) If a bill of sale is not registered at a place and within the time by this Order appointed and allowed for registration thereof, it is, from and after the expiration of that time, void to the extent following, but not further (that is to say):
- (i.) As against trustees or assignees of the estate of the grantor, in or under bankruptcy, liquidation, or assignment for benefit of creditors; and
  - (ii.) As against all Sheriffs and others seizing chattels under process of any Court, and any person on whose behalf the seizure is made; but only
  - (iii.) As regards the property in, or right to, the possession of such chattels comprised in the bill as, at or after the filing of the petition for bankruptcy or liquidation, or the execution of the assignment, or the seizure, are in the grantor's possession, or apparent possession.
101. Registered bills of sale affecting the same chattels have as among themselves priority in order of registration.
- Chattels comprised in a registered bill of sale are not in the possession, order, or disposition of the grantor within the law of bankruptcy.
102. If in any case there is an unregistered bill of sale, and within or on the expiration of the time by this Order allowed for registration thereof, a subsequent bill of sale is granted affecting the same or some of the same chattels, for the same or part of the same debt, then the subsequent bill is, to the extent to which it comprises the same chattels and is for the same debt, absolutely void, unless the Court is satisfied that the subsequent bill is granted in good faith for the purpose of correcting some material error in the prior bill, and not for the purpose of unlawfully evading the operation of this Order.
- The registration of a bill of sale must be renewed once at least every twelve months.
103. Renewal of registration is made as follows: An affidavit stating the date of and parties to the bill of sale, and the date of the original registration, and of the last renewal, and that the bill is still a subsisting security, is brought in to the proper office of the Court of original registration, and is left there.
- If the registration of a bill of sale is not so renewed in any period of five years, then on and from the expiration of that period the bill cannot be again registered.
104. A transfer or assignment of a registered bill of sale need not be registered; and renewal of registration is not necessary by reason only of such a transfer or assignment.
- 105.—(1.) Where the time for registration or renewal of registration of a bill of sale expires on a Sunday, or other day on which the office for registration is closed, the registration or renewal is valid if made on the first subsequent day on which the office is open.

(2.) If in any case the Court is satisfied that failure to register or to renew the registration of a bill of sale in due time, or any omission or mis-statement connected with registration or renewal, was accidental or inadvertent, the Court may, if it thinks fit, order the failure, omission, or mis-statement to be rectified in such manner and on such terms, if any, respecting security, notice by advertisement or otherwise, or any other matter, as the Court thinks fit.

(3.) The provisions of this Order do not apply to a bill of sale executed before the commencement of this Order.

106. The power conferred by this Order for framing Rules from time to time is hereby extended to the framing of Rules for prescribing and regulating the making and keeping of indexes, and of a general index, to the registers of bills of sale, and searches in those indexes, and other particulars connected with the making, keeping and using of those registers and indexes, and for authorizing and regulating the removal from the register of any bill of sale, or the registering of any release or satisfaction in respect thereof.

#### PART XVI.—PARTNERS.

107 —(1.) Persons claiming or being liable as partners may sue or be sued in the firm name, if any.

(2.) Where partners sue in the firm name, they must, on demand in writing on behalf of any defendant, forthwith declare the names and addresses of the partners.

(3.) Otherwise, all proceedings in the suit may, on application, be stayed on such terms as the Court thinks fit.

(4.) When the names of the partners are so declared, the suit proceeds in the same manner, and the same consequences in all respects follow, as if they had been named as the plaintiffs in the petition.

(5.) All subsequent proceedings, nevertheless, continue in the firm name.

(6.) Where partners are sued in the firm name, the petition must be served either on one or more of the partners within the jurisdiction, or at the principal place of the partnership business within the jurisdiction, or some person having then and there control or management of the partnership business.

(7.) Where one person, carrying on business in the name of a firm apparently representing more persons than one, is sued in the firm name, the petition may be served at the principal place of the business within the jurisdiction on some person having then and there control or management of the business.

(8.) Where partners are sued in the firm name they must appear individually in their own names.

(9.) All subsequent proceedings, nevertheless, continue in the firm name.

(10.) Where a person, carrying on business in the name of a firm apparently representing more persons than one, is sued in the firm name he must appear in his own name.

(11.) All subsequent proceedings, nevertheless, continue in the firm name.

(12.) In any case not hereinbefore provided for, where persons claiming or being liable as partners sue or are sued in the firm name, any party to the suit may, on application to the Court, obtain a statement of the names of the persons who are partners in the firm, to be furnished and verified on oath or otherwise, as the Court thinks fit.

(13.) Where a judgment is against partners in the firm name, execution may issue—

(i.) Against any property of the partners as such; and

(ii.) Against any person who has admitted in the suit that he is a partner, or who has been adjudged to be a partner; and

(iii.) Against any person who has been served in the suit as a partner and has failed to appear.

(14.) If the party who has obtained judgment claims to be entitled to issue execution against any other person, as being a partner, he may apply to the Court for leave so to do; and the Court, if the liability is not disputed, may give such leave, or if it is disputed may order that the question of the liability be tried and determined as a question in the suit, in such manner as the Court thinks fit.

(15.) The provisions of Part XVI may be from time to time varied by Rules made under this Order.

#### PART XVII.—OFFICIAL.

108. Notwithstanding anything in this Order, a District Court shall not exercise any jurisdiction in any proceeding whatsoever over Her Majesty's Minister, or his official or other residences, or his official or other property.

109. Except as in this Order expressly provided, nothing in this Order shall preclude any of Her Majesty's Consular officers from performing any act, not of a

judicial character, which Her Majesty's Consular officers might by law, or by virtue of usage or sufferance, or otherwise, have performed if this Order had not been made.

110. Whenever an Acting Consular officer has commenced the hearing of any cause or matter, civil or criminal, he may unless the Consul-General otherwise directs, continue and complete the hearing and determination thereof, notwithstanding that his authority to act as such Consular officer has otherwise ceased by reason of the expiration of the time for which he was appointed to act, or by reason of the happening of any event by which his authority is determined.

111. Any suit or proceeding shall not be commenced in any Court in Siam or the Straits Settlements against any person for anything done, or purporting to be done, or anything omitted in pursuance, or execution, or intended execution of this Order, or of any Regulation or Rule made under it, unless notice in writing is given by the intended plaintiff or prosecutor to the intended defendant one clear month before the commencement of the suit or proceeding, nor unless it is commenced within three months next after the act or omission complained of, or in case of a continuation of damage within three months next after the doing of such damage has ceased.

The plaintiff in any such suit shall not succeed if tender of sufficient amends is made by the defendant before the commencement thereof; and if no tender is made, the defendant may, by leave of the Court, at any time pay into Court such sum of money as he thinks fit, whereupon such proceedings and order shall be had and made in and by the Court as may be had and made on the payment of money into Court in an ordinary suit.

#### PART XVIII.—FEES AND EXPENSES.

112. All fees, fines, forfeitures, confiscations and pecuniary penalties, and all commissions levied or received under this Order shall be accounted for, paid, and applied as the Secretary of State, with the concurrence of the Commissioners of Her Majesty's Treasury, from time to time directs.

113. Subject to the other provisions of this Order, all expenses of removal of prisoners and others, and the expenses of deportation and of the sending of any person to England, or to the Straits Settlements, or India, or British Burmah, including expenses of maintenance, shall be defrayed in such manner as the Secretary of State, with the concurrence of the Commissioners of Her Majesty's Treasury, from time to time directs.

#### PART XIX.—SUPPLEMENTAL.

114. Where by virtue of any Imperial Act or of this Order, or otherwise, any provisions of any Imperial Acts or of any Law or of any Orders in Council other than this Order are applicable in Siam, or any Form, Regulation, or Procedure prescribed or established by or under any such Act or Law or Order, are made applicable for any purpose of this Order such Act, Law, Order, Form, Regulation, or Procedure shall be deemed applicable, so far only as the constitution and jurisdiction of the Courts and the local circumstances permit; and for the purpose of facilitating application, may be construed or used with such alterations and adaptations as may be necessary, and anything required to be done by or to any Court, Judge, officer, or authority may be done by or to a Court, Judge, officer, or authority having the like or analogous functions, or by any officer designated by the Secretary of State or by the Court (as the case may require) for that purpose; and the seal of the Court may be substituted for any other seal; and in case any difficulty occurs in the application it shall be lawful for the Secretary of State to direct by and to whom and in what manner anything is to be done, and such Act, Law, Order, Form, Regulation, or Procedure shall be construed accordingly.

115. Sums of money, fines, forfeitures, penalties, or fees payable under this Order shall be calculated and paid in English money, or, with the consent of the Court, in its equivalent in local currency or produce, or bills of exchange, approved by the Court.

#### PART XX.—REPEALS AND TEMPORARY PROVISIONS.

116. From the commencement of this Order the Orders in Council described in the Schedule to this Order shall be repealed, but this repeal shall not affect the past operation of any such Order, or any existing right, title, obligation, or liability, or the validity of any Rules or Regulations made or confirmed under any of the Orders hereby repealed, or revive anything repealed by any such Order.

117. Nothing in this Order or in any Rules made under it shall apply to or in any manner affect any suit or proceeding, either of a civil or of a criminal nature, pending

at the commencement of this Order, either with reference to the original proceedings therein, or with reference to any appeal therein, or otherwise subject, nevertheless, as follows :—

- (1.) All suits and proceedings, whether of a civil or of a criminal nature, instituted or taken before the commencement of this Order in the Consular Court at Bangkok, and pending at the commencement of this Order, are hereby transferred to the jurisdiction of the District Court at Bangkok, and the same may be carried on and shall be tried, heard, and determined in like manner as nearly as may be in all respects as if the same had been instituted or taken in the District Court at Bangkok, after the commencement of this Order.
- (2.) In any suit or proceeding, whether of a civil or of a criminal nature, the Court before which the same is pending at the commencement of this Order, after hearing the parties, or of its own motion, or on the application of either party, or by consent, may, if it seems fit, from time to time direct that the procedure and practice prescribed by this Order, or by any Rule made under it, be followed in any respect.
- (3.) Nothing in this Order shall take away any right of appeal in any suit of a civil nature pending at the commencement of this Order, or interfere with the bringing or prosecution of any appeal in any such suit that might have been brought or prosecuted if this Order had not been made, or take away or abridge any jurisdiction, power, or authority of any Court, Judge, officer, or any person in relation to any appeal in any such suit, or to the execution or enforcement of any judgment, decree, or order, made before or after the commencement of this Order, in or respecting any appeal in any such suit ; and, notwithstanding this Order, any appeal in any such suit shall lie and may be brought and presented, and any such judgment, decree or order may be made, executed, and enforced in like manner and with the like effect and consequences in all respects as if this Order had not been made.

18. This Order shall commence and have effect as follows :—

- (1.) As to the making of any warrant or appointment under this Order, immediately from and after the date of this Order.
- (2.) As to the framing of Rules or Procedure or Regulations, and the approval thereof by the Secretary of State, immediately from and after the date of this Order.
- (3.) As to all other matters and provisions comprised and contained in this Order, immediately from and after the expiration of one month after this Order is first exhibited in the public office of the Consul-General ; for which purpose he is hereby required forthwith, on receipt by him of a copy of this Order, to affix and exhibit the same conspicuously in his public office, and he is also hereby required to keep the same so affixed and exhibited during one month from the first exhibition thereof ; and notice of the time of such first exhibition shall, as soon thereafter as practicable, be published in every Consular district in Siam, in such manner as the Consul-General directs ; and, notwithstanding anything in this Order, the time of the expiration of the said month shall be deemed to be the time of the commencement of this Order.
- (4.) Proof shall not in any proceeding or matter be required that the provisions of this Article have been complied with, nor shall any act or proceeding be invalidated by any failure to comply with any of such provisions.

119. A copy of this Order shall be kept exhibited conspicuously in each Court and Consulate in Siam.

Printed copies shall be provided and sold at such reasonable price as the Consul-General directs.

And the Most Honourable the Marquess of Salisbury, the Right Honourable Lord Knutsford, and the Right Honourable Viscount Cross, three of Her Majesty's Principal Secretaries of State, and the Lords Commissioners of the Admiralty, are to give the necessary directions herein as to them may respectively appertain.

## REVENUE DEPARTMENT.

### A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,  
Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India R10 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, R6 and 8 shillings respectively, will be charged extra for the whole sets.

**No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately.** The price to non-subscribers will be R15 in India, and 3 guineas in England, exclusive of packing and postage.

REVENUE AND AGRICULTURAL DEPARTMENT.

### Weather Summary for December 1889.

The weather of the past month, like that of its predecessors during the present cold weather period, has been exceptionally fine and settled. It is usual for fine weather to hold over the whole of India till about the third week of December when pressure usually gives way in the North and the weather there and often in the Central Provinces becomes unsettled. This unsettled weather usually begins very gradually. The barometer falls for a day or two, ascensional movements of the air take place and clouds appear, then the barometer rises again, the ascensional movement ceases, and a period of very fine fresh weather supervenes. After a time the barometer again falls and this time the oscillation is larger and cycles of this character are repeated till by the close of the month rain falls and a depression is produced. At other times this change of weather is produced by the advance of an already formed depression from Sind and Baluchistan, but on the whole the oscillatory cause is more frequent. It is remarkable that disturbed weather over North-Western India is very commonly coincident with disturbed weather over North-Eastern India and the rainfall is on the whole heavier over the latter than over the former region. Over the central parts of the country, *viz.*, the Central Provinces, Central India and Rajputana, as well as the Deccan and Konkan, the weather is ordinarily very fine though with a certain liability to small storms either formed over Central India or entering that region from the westward or north-westward. In Sind and Guzerat there is hardly anything more than a few cloudy days. On the Peninsula coasts the weather is liable to be more disturbed. The north-easterly monsoon still gives a good deal

A

of rain to the Carnatic and Ceylon during the first half of the month and Malabar and Mysore have fairly frequent showers.

During the past month the region which departed most from the normal conditions was Northern and Central India where neither of the rainfall causes mentioned above were operative and where the weather was exceptionally fine and clear.

On December 1st normal cold weather conditions prevailed over India. A large high pressure area existed over the North-West (30·00 inches and above) whence a tongue of high readings extended southward over the central parts of the Peninsula as far as Salem and Coimbatore. Between this tongue and the coast lines slight gradients existed and the wind was anticyclonic throughout the whole country. It blew from north-west down the Gangetic plain, along the whole of the coast line of the east of the Peninsula, across the Bay and in Burma, while all along the East Coast it was easterly or north-easterly. The weather was everywhere fine and there was no rain. On the 4th south-easterly winds were reported from parts of the Punjab and on the following day a small depression was shown over the Punjab and strong winds and slight rain had been experienced at Peshawar and Murree, and on the following day at Sib-sagar (Assam). With this single exception the above conditions of pressure, wind and weather lasted until the 16th when a moderate fall of the barometer with overcast weather was reported from the Madras Presidency. On the following day a well defined but comparatively slight depression was shown lying off the Carnatic and Ceylon coasts. This storm occasioned strong cyclonic winds and heavyish rain over the south of the Peninsula and this weather lasted until the 21st. On the 19th the barometer was falling at Tavoy with rain and a north-north-west wind. On the 20th the rain had extended to other parts of Burma and the wind had shifted towards east. This change of weather intensified on the 21st, and it became evident that a depression was advancing across the Bay. On the 23rd the barometer was falling along the Madras coast, gradients were steep and the winds were strong and cyclonic. On the 24th the storm appeared off the Madras coast. The subsequent course of this storm was very irregular. From the 24th to the 26th it hung about off the coast occasioning strong winds and rain all over the west and north of the Bay from Chittagong to Madras, but between the 26th and 27th it passed inland and on the morning of the 27th the centre lay between Madras and Bangalore. After this the storm disappeared though a fresh low pressure area was propagated westward to the Arabian Sea. After the breaking up of the main depression and the disappearance of the unsettled weather originating from it, the distribution of pressure and the circulation of the winds became the same as those which existed at the commencement of the month and these conditions lasted until the 31st.

#### *Barometric depressions.*

*Feeble depression of 4th and 5th.*—The barometer fell briskly over the Punjab and south-easterly winds and cloudy weather were reported at a few stations. On the following day a well marked but exceedingly slight depression was shown over the east of that Province. The effects of this depression were felt almost entirely on its western side, showers being reported from Peshawar and Murree.

*Depressions in the Bay.*—On the 7th and 8th, a slight depression crossed the extreme south of the Bay and gave rain to several of the more southern stations.

*Slight depression of the 15th to 20th December.*—This depression, which, though very slight, was the cause of the breaking of the drought which had prevailed in Madras for so long, gave the first indications of its existence on

the 16th, when the wind rose at Diamond Island and on the Madras coast. On the 17th the centre was off the coast about 200 miles to the east of Negapatam. Slight rain was falling at Madras, Negapatam and Colombo. By the morning of the 18th the centre had advanced over Palks Straits, the wind had shifted to north-east and the rainfall area had extended. On the 19th the north-easterly current was stronger and more general and the rainfall was both heavier and more widely distributed. On the 20th and 21st the rainfall gradually fell off and the disturbance disappeared.

*Important depression of the 19th to 27th December.*—This was the only really large depression during the month. Apparently it crossed the Malay Peninsula as the wind at Tavoy on the 19th was north-north-westerly with an overcast sky and rain. On the 20th the wind had veered to north-east and the cloudy weather and rain had extended to other parts of Burma with a briskly falling barometer. By the morning of the 21st the wind was easterly and east-south-easterly over Burma with general rain but a rising barometer, showing that the centre of the depression had left Burma and begun its passage across the Bay. On the two following days, beyond a falling barometer on the east side of the Bay and strengthening winds, there was no sign of the disturbance, but on the morning of the 24th it appeared off the coast between Masulipatam and Madras. Between the 24th and 26th it hung about the Madras coast giving general rain to the north and east side of the Bay, but on the 27th it crossed the coast and lay between Madras and Bangalore. The rain accompanying this disturbance gradually decreased and by the close of the month the weather was fine again.

*Pressure*—Has relatively to the average for the time of year been everywhere below the normal. Relatively to surrounding regions the barometer has however been high over Guzerat, Rajputana, Central India, the Central Provinces, the Deccan and the West Coast of the Peninsula, the greatest excess being in Central India and the Deccan. Elsewhere pressure was low—most so in Bengal and the Gangetic plain.

*Temperature.*—The following table gives a summary of the temperature data and shows the general character of the the variations of temperature from week to week.

PROVINCE.	DIFFERENCE OF MEAN TEMPERATURE FROM NORMAL FOR WEEK ENDING DECEMBER.				Difference of mean tempera- ture from the normal for the month.

Madras . . . . .	+1.2	—1.6	—0.4	+3.9	+0.7

This table shows that except during one week of the month the average temperature of each week was largely exceeded, but that in Bombay, the Central Provinces and Central India the excess has generally been less than in the other Provinces. Hence it may be assumed that a large part of the deficiency of pressure noticed above is due to an excess of temperature. This assumption is supported by the fact that at the hill stations there was an excess of pressure. The

high temperatures which obtained on some days during the month were quite phenomenal, but they have been noticed in the weekly summaries.

*Rain.*—The daily distribution of rainfall has been fully dealt with in the earlier parts of this summary. The monthly fall shows an excess in only three districts, *viz.*, Malabar, Mysore and Sind; in all other districts the fall has been deficient. In fourteen of the districts the monthly rainfall was either nil or less than 0·1 inch and it was practically only in the Peninsula that there was any rain.

The following table gives complete data, and shows the actual average rainfall and the normal rainfall of the month of the twenty-one districts into which the country is divided, so far as it is indicated by the telegraphic reports of a few stations in each district:—

REVENUE AND AGRICULTURAL DEPARTMENT.

## Weather Review of India for the week ending at 8 a.m. on Monday, January 27th, 1890.

The weather during the week under review has been more favourable for rainfall in Northern India. It has been frequently remarked that during the

cold season there is very often a marked contrast in the conditions over Northern India and over the Peninsula, *i.e.*, that, when rain occurs over the Peninsula at this season, the weather is fine over Northern India, and *vice versa*. The past week has illustrated this contrast in a marked manner, for while there has been fairly general rain over Burma, Assam, Bengal, the North-Western Provinces and the Punjab, not a drop has occurred over the Central Provinces and the Peninsula. This change in the weather over Northern India has been marked by a complete alteration in the distribution of pressure, the area of high readings over the Punjab, which has been such a permanent feature of the distribution during the present cold season, having entirely given way, and been replaced by a depression which passed right down the Gangetic plain and passed out into the Bay of Bengal.

The chart of the 21st showed very uniform pressures existing over Northern India and the inland parts of the Peninsula. Moderate gradients continued to exist round the coasts and the lowest pressures were reported from the Andaman Sea. Readings were also slightly low over Sind and the north-west of the Punjab and the south-easterly and easterly winds in those regions and the southerly wind at Quetta showed that conditions favourable to rainfall were forming in the North-West. On the 22nd a very slight but well marked depression was shown over the Punjab, the centre lying apparently over the western desert. A well marked but very feeble cyclonic circulation of the winds existed in the North-West, but elsewhere the directions were unaffected by the disturbance and remained as during previous weeks. The high pressure area had been pushed southward and lay over the Central Provinces, Khandeish, the Deccan and the Konkan. By the morning of the 23rd, the shallow depression had advanced eastward to the North-Western Provinces, the centre lying near Cawnpore. The depression was very irregularly shaped and extended from Roorkee in the North-West south-eastward to Benares. The high pressure area had moved to the southward, the centre lying over Khandeish. The lowest readings were again reported from the Andaman Sea. The cyclonic circulation around the depression was again well marked, but in other parts of the Indian region directions were very variable. The chart of the 24th showed that the disturbance had continued to advance eastward and that the centre was near Burdwan. It was still accompanied by a well marked circulation of the winds, the force being strong at the head of the Bay. The barometer had risen moderately to briskly in North-Western India and there had been a northerly extension of the area of high pressure which promised an early re-establishment of the former pressure distribution. On the 25th the depression over Bengal had almost filled up, the barometer had risen rapidly in the North-West and the general features of the distribution were the same as those which had prevailed prior to the appearance of the depression. The barometer was high over the Punjab and Rajputana and low over the Bay, the differences of pressure being considerable. This distribution with the ordinary anticyclonic circulation of the winds continued until the close of the week.

*Temperature*—Was very high at the commencement of the week. This excess was most marked at the hill stations and amounted to  $11^{\circ}7$  at Quetta,  $9^{\circ}$  at Simla and Ranikhet and  $6^{\circ}5$  at Mount Abu on the 21st. On the 22nd there was again a large and general excess, but on the 23rd there was a considerable fall all over North-Western India and by the following morning the mean had fallen below the normal average in Sind and Rajputana. This fall of temperature quickly spread over the greater part of the country and almost the only cool period of the season was experienced. Sharp frost was recorded over the plains of North-Western and Central India.

The following table shows the variations of the mean temperature of the present and of the past week from the normal average :—

PROVINCES.	Difference of mean temperature of last week from normal.	Difference of mean temperature of present week from normal.
Burma . . . . .	0	0
Bengal . . . . .	+1'2	+2'0
North-Western Provinces . . . . .	+2'4	+1'7
Punjab . . . . .	+3'7	+1'8
Bombay . . . . .	+3'1	+0'4
Bombay . . . . .	+0'6	—1'1
Central Provinces . . . . .	+2'7	—0'8
Guzerat and Central India . . . . .	+2'7	0
Sind and Rajputana . . . . .	+3'5	+0'8
Madras . . . . .	—1'1	+0'8

This table shows that except in Burma and Madras there has been a general fall of temperature over the country.

*Rain*—Has been much more general than for several weeks. At 22 of the rainfall divisions rain has fallen and at 29 the weather has been fine. In Burma, Eastern, Northern and Deltaic Bengal as well as in Assam and in the hill districts of the Punjab, there has been an excess of rain—very large in Tenasserim but slight elsewhere. As mentioned above the rainfall has been entirely confined to Burma, Bengal, Assam, the North-Western Provinces and the Punjab, and none has fallen over the Central Provinces or the Peninsula. In Northern India also the divisions of Arakan, Chota-Nagpur, the North-Western Provinces (East and Central) and Oudh (South) have been without rain. The heaviest falls are  $1\frac{3}{4}$  inches in Tenasserim and  $1\frac{1}{2}$  inches over the hill districts of the Punjab.

The final column of the accompanying table shows a slight improvement in the seasonal conditions over the Punjab, but on the whole the relations are about the same as those previously shown. There is a large excess in Burma, East Bengal, Deltaic Bengal and Orissa and a moderate to slight excess in Assam, Central Bengal and Chota-Nagpur. There is also more or less excess in the west and north of the Peninsula and parts of the Central Provinces. Elsewhere the seasonal rainfall remains below the normal average.

## Weekly Report on the State of the Season and Prospects of the Crops.

**Madras.**—*For week ending 1st February.*—Rainfall very slight in Madura, Tinnevely and Nilgiris and none elsewhere. Crops generally good, but withering over considerable areas in Nellore, South Arcot, Madura, Coimbatore and Salem. Want of rain felt also in parts of North Arcot, Tanjore, Trichinopoly and Tinnevely. Prices fairly steady. Prospects generally fair.

**Bombay.**—*For week ending 5th February.*—*Rabi* crops slightly damaged by locusts, blight or frost in a few talukas in Sind. indifferent in Poona and parts of Nasik, Ahmednagar, Sholapur and Satara. Cotton blighted in parts of Bijapur and Dharwar, otherwise crops are satisfactory.

**Bengal.**—*For week ending 4th February.*—No rain during the week. Weather fine and cold. Rice harvest practically over, and the outturn, as previously stated, satisfactory for the whole province, although in certain quarters considerably below the average. *Rabi* crops doing well, having been much benefited by the recent rain, and prospects generally hopeful. Rain, however, still required for these crops in places in South Behar. Mustard, pulses and other earlier *rabi* crops being gathered, and sugarcane-pressing in progress. Poppy coming into flower, and generally reported on favourably, except the late sowings in the Hajipore subdivision of Mozufferpore. Tobacco promises to be a good crop, and *ganja* cultivation in Rajshahye successful. *Boro* or spring rice being transplanted and doing well. Prices of rice almost stationary, and still generally high. The Collector of Balasore reports that the condition of people near Talpada in the Sudder thana appears more critical.

**North-Western Provinces and Oudh.**—*For week ending 5th February.*—Weather clear and cold. Slight injury to the *rabi* from blight is reported from Fyzabad. Frost has also slightly injured the *rabi* in most districts. Rain is much wanted. A slight fall of hail occurred in the Bareilly district. Supplies are plentiful and prices generally steady.

**Punjab.**—*For week ending 5th February.*—No rain. Weather cloudy. Prices are reported stationary in all districts except Delhi, Sialkot, Multan and Rawalpindi where they are rising. Sowings of *rabi* crops over and of extra *rabi* commenced. Rain urgently needed throughout the Province. Condition of crops average. They are suffering from drought in certain districts and are slightly damaged by locusts in parts of Rawalpindi and Dera Ismail Khan. Fodder sufficient in all districts except in Jullundur, Sialkot and parts of Multan where it is scarce.

**Central Provinces.**—*For week ending 5th February.*—Weather clear and cold. Rain required for *rabi* crops especially in northern districts and in Bilaspore. Some damage has been caused to gram and pulses by frost in Jabalpur and Seoni. Prices remain steady.

**Burma.**—*For week ending 1st February.*—Rain fell in several districts in Lower Burma and considerable damage has been done to paddy on the threshing floors, especially in the Amherst district. In Upper Burma little or no rain fell and the crops are generally in good condition. The price of paddy fell in five and rose in three districts.

**Assam.**—*For week ending 5th February.*—Weather seasonable. Slight rain in Goalpara district only. Preparing of land for early rice, gathering of mustard and pruning of tea continue.

**Mysore and Coorg.**—*For week ending 5th February.*—Crops good in Mysore. Sowing operations in progress in parts. Outturn of crops harvested generally favourable. Prices slightly risen in Tumkur.

---

Coffee-picking and rice harvest in progress in Coorg.

**Berar and Hyderabad.**—*For week ending 5th February.*—In Berar weather is clear and cold. Cotton-picking nearly completed. Threshing of *Fowari* and other *kharif* crops in progress. *Rabi* in good condition. Prices unchanged. Fodder sufficient except in Ellichpur taluk. Land under preparation for next year.

No rain at Hyderabad. *Rabi* crops thriving. Sowing of *tabi* crops continues. Prices stationary.

**Central India.**—*For week ending 5th February.*—Crops damaged in Bundelkhand. Probable outturn in Baghelkhand indifferent unless rain falls soon. Crops in Goona partly damaged by frost, and opium crops in Neemuch slightly damaged. No other changes since last report.

**Rajputana.**—*For week ending 5th February.*—Agricultural operations generally satisfactory. Standing crops good, but rain needed in Kerowli. Damage by frost in Meywar, Kotah, Kerowli, Dholpore, Bhurtpore and Alwar. Agricultural stock good. Pasturage or fodder sufficient except in Marwar and Dholpore. Prices steady generally.

## AT THE COURT AT WINDSOR,

The 13th day of December, 1889.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY

LORD PRESIDENT  
EARL OF COVENTRY  
LORD MORRIS

SIR WILLIAM HART DYKE, BART.  
MR. RITCHIE

**W**HEREAS, by Treaty, capitulation, grant, usage, sufferance, and other lawful means, Her Majesty the Queen has power and jurisdiction in relation to Her Majesty's subjects and others in the territories on the Somali Coast of the Gulf of Aden within the limits defined by this Order:

NOW, THEREFORE, Her Majesty, by virtue and in exercise of the powers in this behalf by the Foreign Jurisdiction Acts, 1843 to 1878, or otherwise in Her Majesty vested, is pleased, by and with the advice of Her Privy Council, to order, and it is hereby ordered, as follows:—

1. This Order may be cited as the Somali Order in Council, 1889.
2. This Order shall come into operation on such day, not being earlier than the day on which the Persian Coast and Islands Order in Council of 1889 comes into operation, as a Secretary of State appoints by notification published in the *London Gazette* and in the *Gazette of India*.

- 3.—(i.) Subject as hereinafter provided, this Order shall apply to the places and territories for the time being comprised in the Protectorate of the Somali Coast

from Ras Jibuti on the south coast of the entrance to the Bay of Tajourra, eastwards to and including Bunder Ziadeh on the forty-ninth meridian of longitude east of Greenwich, as notified on the 20th July, 1887, in pursuance of the General Act of the Conference at Berlin relative to the Congo, dated the 26th February, 1885, including such islands and territorial waters of the said coast as are not expressly excluded from the said Protectorate.

(ii.) The places to which this Order for the time being applies are hereinafter described as the "limits of this Order."

(iii.) Provided that a Secretary of State, by instructions addressed to a principal Consular officer or Resident acting within the said limits, may from time to time direct that any place or district within the said limits shall not be subject to this Order, or shall be subject thereto with any restrictions or modifications.

(iv.) In case of dispute or doubt whether any place is within the limits of this Order, or whether any place within the limits of this Order is excluded from the operation thereof under any such instructions as aforesaid, a principal Consular officer or Resident acting within the said limits may, by any writing under his hand, determine such dispute or doubt, and his determination shall, as to all cases and matters arising under or depending on this Order, be conclusive unless and until a Secretary of State otherwise directs.

4. Within the limits of this Order, the Persian Coast and Islands Order in Council of 1889 shall apply and have effect as if the places within the limits of this Order were included in that Order, provided that in relation to such places that Order shall be construed and have effect with the following modifications, that is to say:—

- (1) Expressions referring to the Persian coasts and islands, or to Persia, or Persian Courts or laws, or Persian subjects, shall be construed as referring to the places within the limits of this Order, and the native or other courts and laws there, and the subjects of the native or other Chiefs or Rulers of such places.
- (2) All things to be done by, or in relation to, a Consul-General, or Judicial Assistant, or Political Resident, shall be done by, or in relation to, such Consular or other officer, Resident, or person, as may be designated in that behalf, either permanently or temporarily, and either generally or for any particular district, by a Secretary of State, either by way of any Commission or instructions or otherwise in writing signed by a Secretary or Under-Secretary of State; and if either generally or in relation to any class of matters, or to any district or place, there are not distinct officers or persons designated to perform severally the functions by the said Order severally assigned to the Consul-General and the Judicial Assistant, the provisions of the said Order may be administered as if all the jurisdiction thereby given to each of such officers respectively were also given as original jurisdiction to the other of them; and when under this provision, the officer or person exercising the functions of one of such officers also exercises the functions of the other in a matter in which an appeal lies to the Sessions Judge, or to the High Court of Bombay, an appeal may be brought directly to the High Court of Bombay, but on the like conditions, *mutatis mutandis* as are prescribed in the case of an appeal from a Sessions Judge.

And the Most Honourable the Marquis of Salisbury and the Right Honourable Viscount Cross, two of Her Majesty's Principal Secretaries of State, and the Lords Commissioners of the Admiralty, are to give the necessary directions herein as to them may respectively appertain.

C. L. PEEL.

10. If a British subject smuggles or imports into or exports from the Persian coast and islands any goods whereon any duty is charged or payable to the Government of Persia, with intent to evade payment of the duty, he shall be punished with imprisonment for a term which may extend to two months, or with fine which may extend to 1,000 rupees (459·77 dollars), or with both.

(3) In cases tried under this Article no different sentence can be passed from the sentence which could be passed in England if the crime were tried there.

(4) The foregoing provisions of this Article shall be deemed to be adaptations, for the purposes of this Order and of "The Foreign Jurisdiction Act, 1878," of the following enactments described in the first Schedule to that Act, namely:—

(i.) The said Act shall apply only in the case of British subjects.

(ii.) The Consul-General is, for the purposes of the said Act, substituted for the Governor of a British possession, and for a Superior Court, or a judge thereof, in a British possession, and for a Magistrate or Justice of the Peace in a British possession.

(iii.) So much of the 4th and 5th sections of the said Act as relates to the sending a report of the issue of a warrant, together with the information, or a copy thereof, or to the sending of a certificate of committal and report of a case, or to the information to be given by a Magistrate to a fugitive, shall be excepted.

(iv.) So much of the 6th section of the said Act as relates to *habeas corpus*, and as requires the expiration of fifteen days before issue of a warrant, shall be excepted.

(v.) The said Consul-General shall not be bound to return a fugitive offender to a British possession unless satisfied that the proceedings to obtain his return are taken with the consent of the Governor of that possession.

(1) It shall apply with respect to British subjects only.

(2) Anything to be done by or in relation to the Governor or Government of a British possession shall be done by or in relation to the Consul-General or other officer or person designated from time to time in this behalf by a Secretary of State.

16. Where a warrant or order of arrest is issued by a competent Consular authority in inland Persia for the apprehension of a person who is accused of crime committed in inland Persia, and who is, or is supposed to be, within the limits of this Order, and such warrant or order is produced to any Court acting under this Order, the Court may back the warrant or order, and the same, when so backed, shall be sufficient authority to any person to whom it was originally directed, and also to any constable or officer of the Court by which it is backed, and to any person named on the back of the warrant or order, to apprehend the accused person at any place within the limits of this Order, and to carry him to and deliver him up within the jurisdiction of the authority issuing the warrant or order.

17. Where a British subject is convicted of an offence, the Court before which he is convicted may, if it thinks fit, require him to give security to the satisfaction of the Court for his future good behaviour, and for that purpose may, if it thinks fit, cause him to come or be brought before the Court.

18.—(1) If a British subject, required by an order under the last foregoing Article of this Order, or under the law relating to criminal procedure for the time being in force, to give security for good behaviour or for keeping the peace, fails to do so, the Court making the order may, if it thinks fit, order that he be deported from the Persian coast and islands to a place to be named by the Consul-General.

(2) The Court, on making an order of deportation, shall forthwith report to the Consul-General the order, and the grounds thereof.

(3) Thereupon the person ordered to be deported shall, if the Consul-General thinks fit, be, as soon as practicable, and in the case of a person convicted, either after execution of the sentence or while it is in course of execution, removed in custody under the warrant of the Consul-General to the place named in the warrant.

(4) The place shall be either a place in the Presidency of Bombay, or a place in some other part of Her Majesty's dominions out of the United Kingdom, the Government whereof consents to the reception therein of persons deported under this Order.

5) The Court, on making an order of deportation, may, if it thinks fit, order the person to be deported to pay all or any part of the expenses of his deportation, to be fixed by the Court in the order. Subject thereto, the expenses of deportation shall be defrayed as the Secretary of State, with the concurrence of the Commissioners of Her Majesty's Treasury, directs.

(6) The Consul-General shall forthwith report to the Secretary of State every order of deportation made under this Order, and the grounds thereof, and the proceedings thereunder.

(7) If a person deported under this Order returns to the Persian coast and islands without permission in writing of the Consul-General, or the Governor-General of India in Council, or the Secretary of State, he shall be punished with imprisonment for a term which may extend to two months, or with a fine which may extend to 1,000 rupees (459'77 dollars), or with both.

(8) He shall also be liable to be forthwith again deported under the original or a new order, and a fresh warrant of the Consul-General.

(iii.) Wilfully insults any member of the Court, or any assessor, or any person acting as a Clerk or Officer of the Court during his sitting or attendance in Court, or in his going to or returning from Court; or

(iv.) Does any act in relation to the Court or a Judge thereof, or a matter pending therein, which, if done in relation to a Superior Court in England, or in India, would be punishable as a contempt of such Court, or as a libel on such Court, or the Judges thereof, or the administration of justice therein; such person shall be liable to be apprehended by order of the Court with or without warrant, and, on inquiry and consideration, and after the hearing of any defence which such person may offer, without further process or trial, to be punished with a fine not exceeding 100 rupees (45'97 dollars), or with imprisonment not exceeding twenty-four hours.

A Minute shall be made and kept of every such case of punishment, recording the facts of the offence and the extent of the punishment, and a copy of the Minute shall be forthwith sent to the Governor-General of India in Council.

Provided that, if the Court thinks fit, instead of proceeding under the preceding provisions, it may direct or cause the offender to be tried in a separate criminal prosecution or proceeding in which the offender shall be liable to any punishment to which he would be liable if the offence were committed in relation to the Court of a Sessions Judge in India.

Nothing herein shall interfere with the power of the Court to remove or exclude persons who interrupt or obstruct the proceedings of the Court.

20. Where a person entitled to appeal to the High Court of Bombay from any judgment or order passed in the exercise of criminal jurisdiction under this Order desires so to appeal, he shall present his petition of appeal to the Court which passed the judgment or order; and the petition shall with all practicable speed be transmitted by or through the Consul-General to the High Court, with certified copies of the charge (if any) and proceedings, of all documentary evidence admitted or tendered, of the depositions, of the notes of the oral testimony, and of the judgment or order, and any argument on the petition of appeal that the appellant desires to submit to the High Court.

21. The Court against whose judgment or order the appeal is preferred shall postpone the execution of the sentence pending the appeal, and shall, if necessary, commit the person convicted to prison for safe custody, or detain him in prison for safe custody, or shall admit him to bail, and may take security, by recognizance, deposit of money, or otherwise, for his payment of any fine.

22.—(1) Where under this Order a person is to be sent or removed or deported from the Persian coast and islands, he shall, by warrant of the Consul-General under his hand and seal, be detained, if necessary, in custody, or in prison, until a fit opportunity for his removal or deportation occurs, and then be put on board a vessel belonging to, or in the service of, Her Majesty, or if no such vessel is available, then on board some other British or other fit vessel.

(2) The warrant of the Consul-General shall be sufficient authority to the person to whom it is directed or delivered for execution, and to the Commanding Officer or master of the vessel, to receive and detain the person therein named, in the manner therein prescribed, and to send or remove and carry him to the place therein named, according to the warrant.

(3) In case of sending or removal for any purpose other than deportation, the warrant of the Consul-General shall be issued in duplicate, and the person executing it shall, as soon as practicable after his arrival at the place therein named, deliver, according to the warrant, with one of the duplicates of the warrant, to a constable, or proper officer of police, or keeper of a prison, or other proper authority or person there, the person named in the warrant, to be produced on the order of the proper Court or authority there, or to be otherwise dealt with according to law.

#### PART V.—CIVIL MATTERS.

23. Subject to the other provisions of this Order, the Code of Civil Procedure, "The Bombay Civil Courts Act, 1869," "The Indian Succession Act," and the other enactments relating to the administration of civil justice and to insolvency and bankruptcy for the time being applicable to the Persian coast and islands, shall have effect as if the Persian coast and islands were a district in the Presidency of Bombay; the Consul-General shall be deemed to be the District Judge of the district, and his Court the District Court or Principal Civil Court of Original Jurisdiction in the district; the High Court of Bombay shall be deemed to be the highest Civil Court of Appeal for the district and the Court authorized to hear appeals from the decisions of the District Court; and the powers, both of the Governor-General in Council and the Local Government, under those enactments, shall be exercisable by the Secretary of State, or, with his previous or subsequent assent by the Governor-General of India in Council.

24.—(1) The Consul-General shall endeavour to obtain, as early as may be, notice of the deaths of all British subjects dying within the Persian coast and islands leaving property to be administered, and all such information as may serve to guide him with respect to the securing and administration of their property.

(2) On receiving notice of the death of such a person, the Consul-General shall put up a notice thereof at his office, and shall keep the same there until probate or administration is granted, or, where it appears to the Consul-General that probate or administration will not be applied for or cannot be granted, for such time as he thinks fit.

(3) The Consul-General shall, where the circumstances of the case appear to him so to require, as soon as may be, take possession of the property within the Persian coast and islands of the deceased, or put it under his seal (in either case, if the nature of the property or other circumstances so require, making an inventory), and so keep it until it can be dealt with according to law.

(4) All expenses incurred on behalf of the Consul-General in so doing shall be the first charge on the property of the deceased, and the Consul-General shall, by sale of part of that property, or otherwise, provide for the discharge of these expenses.

(5) The Consul-General may, by an order under his hand, delegate to any officer subordinate to him, whether as Consul-General or as Political Resident in the Persian Gulf, the exercise of the powers and performance of the duties conferred and imposed on the Consul-General by this Article.

(6) The Consul-General, or any officer or person acting under this Article, shall not be responsible for anything done in good faith in execution, or intended execution, of this Article.

25. If a person who has been named executor in a will, and to the establishment of whose title, as such, it is necessary to obtain probate of that will, takes possession of and administers or otherwise deals with any part of the property of the deceased, and does not obtain probate within one month after the death or after the termination of any proceeding respecting probate or administration, he shall be punished with fine, which may extend to 1,000 rupees (459·77 dollars).

26. If any person, other than the person named executor, or the administrator, or a person entitled to represent the deceased without obtaining probate or letters of administration, or an officer subordinate to the Consul-General, either as such or as Political Resident in the Persian Gulf, takes possession of and administers or otherwise deals with any part of the property of the deceased, he shall, as soon as practicable, notify the fact and the circumstances to the Consul-General, and shall furnish to the Consul-General all such information as the Consul-General requires, and shall conform to any direction of the Consul-General in relation to the custody, disposal, or transmission of the property or the proceeds thereof, and, in case of any contravention of this Article, he shall be punished with fine, which may extend to 1,000 rupees (459·77 dollars).

27.—(1) When the peculiar circumstances of the case appear to the Court having jurisdiction to grant letters of administration so to require for reasons recorded in its proceedings, the Court may, if it thinks fit, of its own motion or otherwise, grant letters of administration to an officer of the Court.

(2) The officer so appointed shall act under the direction of the Court, and shall be indemnified thereby.

(3) He shall publish such notices, if any, as the Court thinks fit, within the Persian coast and islands, Bombay, the United Kingdom, and elsewhere.

(4) The Court shall require and compel him to file in the proper office of the Court his accounts of his administration, at intervals not exceeding three months, and shall forthwith examine them and report thereon to the Consul-General.

(5) The accounts shall be audited under the direction of the Consul-General.

(6) All expenses incurred on behalf of the Court in execution of this Article shall be the first charge on the estate of the deceased within the Persian coast and islands and the Court shall, by the sale of that estate or otherwise, provide for the discharge of those expenses.

28.—(1) Where any person entitled to appeal to the High Court of Bombay from any decree or order made in the exercise of civil jurisdiction under this Order desires so to appeal, he shall present his memorandum of appeal to the Court which made the decree or order, and, subject to the provisions hereinafter contained, that Court shall receive the same for transmission to the High Court in manner hereinafter provided.

(2) The appellant shall give security to the satisfaction of the Consul-General, and to such amount as the Consul-General thinks reasonable, for prosecution of the appeal, and for payment of any costs which may be ordered by the High Court of Bombay on the appeal, to be paid by the appellant to any person.

(3) The appellant shall pay into the proper office of the Court which passed the decree or order such sum as the Consul-General thinks reasonable, to defray the expense of the making up and transmission to the High Court of Bombay of the record.

29. The appellant may with his memorandum of appeal file any argument which he desires to submit to the High Court of Bombay in support of the appeal.

30.—(1) The memorandum of appeal and the argument (if any) shall be served on such persons as respondents as the Court in which they are filed direct.

(2) A respondent may, within fourteen days after service, file in that Court a Memorandum (if any) of cross-appeal, and such arguments as he desires to submit to the High Court of Bombay against the appeal, or in support of the cross-appeal.

(3) Copies thereof shall be furnished by the Court in which they are filed to such persons as the Court thinks fit.

31.—(1) On the expiration of the time for the respondent filing his argument, the Court shall, without the application of any party, make up and send to the Consul-General the record of appeal, which shall consist of the memorandum of appeal and the arguments (if any), and certified copies of the following, namely, the plaint, written statements (if any), all proceedings, all written and documentary evidence admitted or tendered, the notes of the oral evidence, the judgment, and the decree or order.

(2) The several pieces shall be fastened together consecutively numbered, and the whole shall be secured by the seal of the Consul-General, and be forthwith forwarded by him to the High Court of Bombay.

(3) The Consul-General may if for special reasons he thinks fit, send any portion of the documentary evidence, in original, to the High Court.

#### PART VI.—VICE-ADMIRALTY.

32. The Consul-General shall, for and within the Persian coast and islands, and for vessels and persons coming within the Persian coast and islands, and in regard to vessels captured on suspicion of being engaged in the Slave Trade, have all such jurisdiction as for the time being ordinarily belongs to Courts of Vice-Admiralty in Her Majesty's possessions abroad.

#### PART VII.—PERSIAN AND FOREIGN SUBJECTS AND TRIBUNALS.

33.—(1) Every suit in which a British subject is a defendant, and a Persian subject is a plaintiff, shall within the Persian coast and islands be heard by a Court established under this Order.

(2) The High Court of Bombay shall not exercise jurisdiction in any such suit, but where a decree or order in any such suit has been passed by any Court subordinate to the Consul-General, the Consul-General may call for the proceedings, and pass thereon such order as he may think fit, and any order so passed by him shall be final.

34.—(1) Where a foreigner desires to bring in a Court established under this Order a suit against a British subject, or a British subject desires to bring in such a Court a suit against a foreigner not being a subject of a Mahommedan Power, the Court shall entertain the same and shall hear and determine it.

(2) Provided that the foreigner, if required by the Court, first obtains and files in the proper office of the Court the consent, in writing, of the competent authority (if any), on behalf of his own nation to his submitting, and that he does submit by writing, to the jurisdiction of the Court, and, if required by the Court, gives security to the satisfaction of the Court, and to such reasonable amount as the Court thinks fit, by deposit or otherwise, to pay fees, costs, and damages, and abide by, and perform, the decision to be given by the Court or on appeal.

(3) A cross-suit shall not be brought in the Court against a plaintiff, being a foreigner, who has submitted to the jurisdiction, by a defendant, without leave of the Court first obtained.

(4) The Court, before giving leave, may require proof from the defendant that his claim arises out of the matter in dispute, and that there is reasonable ground for it, and that it is not made for vexation or delay.

(5) Nothing in this Article shall prevent the defendant from bringing in the Court against the foreigner, after the termination of the suit in which the foreigner is plaintiff, any suit which the defendant might have brought in the Court against the foreigner if no provision restraining cross-suits had been inserted in this Order.

(6) Where a foreigner obtains, in a Court established under this Order, a decree or order against a defendant being a British subject, and in another suit that defendant is plaintiff and the foreigner is defendant, the Court may, if it thinks fit, on the application of the British subject, stay the enforcement of the decree or order pending that other suit, and may set off any amount decreed or ordered to be paid by one party in one suit against any amount decreed or ordered to be paid by the other party in the other suit.

(7) Where a plaintiff, being a foreigner, obtains a decree or order, in a Court established under this Order, against two or more defendants, being British subjects, jointly, and in another suit one of them is a plaintiff and the foreigner is defendant, the Court may, if it thinks fit, on the application of the British subjects, stay the enforcement of the decree or order pending that other suit, and may set off any amount

decreed or ordered to be paid by one party in one suit against any amount decreed or ordered to be paid by the other party in the other suit, without prejudice to the right of the British subject to obtain contribution from his co-defendants under the joint liability.

(8) Where a foreigner is co-plaintiff in a suit with a British subject who is within the Persian coast and islands, it shall not be necessary for the foreigner to give security under this Article as regards fees and costs, unless the Court so directs; but the co-plaintiff British subject shall be responsible for all fees and costs.

35.—(1) Where it is proved that the attendance of a British subject to give evidence, or for any other purpose connected with the administration of justice, is required before a Persian or foreign Court, the Consul-General may, if he thinks fit, in a case and in circumstances in which he would, if acting in his judicial capacity, require the attendance of that person before himself, ordered that he do attend as required.

(2) If the person ordered to attend, having reasonable notice of the time and place at which he is required to attend, fails to attend accordingly and does not satisfactorily excuse his failure, he shall, independently of any other liability, be liable to be punished with imprisonment for a term which may extend to two months, or with fine which may extend to 1,000 rupees (459·77 dollars), or with both.

36.—(1) If a British subject wilfully gives false evidence in a proceeding before a Persian or foreign Court, or in an arbitration between a British subject on the one hand, and a Persian subject or foreigner on the other hand, he shall, on conviction before a competent Court of Criminal Jurisdiction, be liable to be punished with imprisonment for a term which may extend to two months, or with fine which may extend to 1,000 rupees (459·77 dollars), or with both.

(2) Nothing in this Article shall exempt a person from liability under any other British or British Indian Law to any other or higher punishment or penalty:

Provided that no person shall be punished twice for the same offence.

37.—(1) Every agreement for reference to arbitration between a British subject on the one hand, and a Persian subject or a foreigner on the other hand, may, on the application of any party, be filed for execution in the proper office of a Court established under this Order.

(2) The Court shall thereupon have authority to enforce the Agreement, and the award made thereunder, and to control and regulate the proceedings before and after the award, in such manner and on such terms as the Court may think fit:

(3) Provided that the Persian subject or foreigner, if so required by the Court, first obtains and files, in the proper office of the Court, the consent, in writing, of the competent authority (if any) on behalf of his own nation to his submitting, and that he does submit by writing, to the jurisdiction of the Court, and, if required by the Court, gives security to the satisfaction of the Court, and to such reasonable amount as the Court thinks fit, by deposit or otherwise, to pay fees, costs, damages and expenses, and abide by and perform the award.

#### PART VIII.—REGISTRATION OF BRITISH SUBJECTS.

38.—(1) Every resident British subject, being of the age of 21 years or upwards, or being married or a widower or widow, though under that age, shall, unless already registered, register himself or herself at an office appointed by the Consul-General in that behalf for the local area within which the British subject is resident.

(2) Every such British subject, not resident, arriving at a place within the Persian coast and islands where there is an office as aforesaid, unless borne on the muster-roll of a British or foreign vessel there arriving, shall, within one month after arrival, register himself or herself at the office. But this provision shall not be deemed to require any person to register himself or herself oftener than once in a year reckoned from the 1st day of January.

(3) The registration of a man shall, nevertheless, comprise the registration of his wife, if living with him; and

(4) The registration of the head, male or female, of a family, shall be deemed to comprise the registration of all females being his or her relatives, in whatever degree, living under the same roof with him or her at the time of his or her registration.

(5) The officer in charge of the office shall give to each person registered by him a certificate of registration signed by him and sealed with his seal.

(6) The name of a wife, if her registration is comprised in her husband's, shall, unless in any case the Consul-General sees good reason to the contrary, be indorsed on the husband's certificate.

(7) The names and descriptions of females, whose registration is comprised in that of the head of the family, shall, unless in any case the Consul-General sees good reason to the contrary, be indorsed on the certificate of the head of the family.

(8) Every person shall, on every registration of himself, pay a fee of 2 rupees 8 annas (r. 15 dollar), or such other amount as the Secretary of State, or, with his previous or subsequent assent, the Governor-General of India in Council from time to time appoints.

(9) The amount of the fee either may be uniform for all persons, or may vary according to the position and circumstances of different classes, as the Secretary of State or the Governor-General of India in Council, as the case may be, from time to time thinks fit, but shall not in any case exceed 2 rupees 8 annas r. 15 dollar.

(10) Every person by this Order required to register himself at an office shall, unless excused by the officer in charge of the office, or unless such person is a woman who, by the custom of the class to which she belongs, is prevented from appearing in public, attend personally for that purpose at the office on each occasion for registration.

(11) If any person fails to comply with the provisions of this Order respecting registration, and does not satisfactorily excuse his failure, the Courts established and officers appointed under this Order may, in any case in which they think fit, decline to recognize him as a British subject.

#### PART IX.—PROCEDURE.

39. Subject to the control of the Secretary of State, the Consul-General may, from time to time, with the previous sanction of the Governor-General of India in Council, make Rules of Procedure and other Rules, consistent with this Order, for the better execution of the provisions herein contained in respect of any matter arising in the course of any civil or criminal case, including insolvency and bankruptcy proceedings.

(2) But a Court before which any matter is pending may, in any case, if it thinks fit, on account of the poverty of a party, or for any other reason, dispense in whole or in part with the payment of any fees chargeable in respect of such matter.

(3) Nothing in this Order shall affect any Order in Council for the time being in force under the Act of the 6 Geo. Whenever an Acting Consul-General or Acting Judicial Assistant has commenced the hearing of any cause or matter, civil or criminal, he may, unless the Consul-General otherwise directs, continue and complete the hearing and determination thereof, notwithstanding that his authority to act as Consul-General or as Judicial Assistant has otherwise ceased by reason of the expiration of the time for which he was appointed to act, or by reason of the happening of any event by which his authority is determined.

46.—(1) If an officer of any Court established under this Order, employed to execute a decree or order, loses, by neglect or omission, the opportunity of executing it, then, on complaint of the person aggrieved and proof of the fact alleged, the Court may, if it thinks fit, order the officer to pay the damages sustained by the person complaining, or part thereof.

(2) The order may be enforced as an order directing payment of money.

47.—(1) If a clerk or officer of any such Court, acting under pretence of the process or authority of the Court, is charged with extortion, or with not paying over money duly levied or with other misconduct, the Court may, if it thinks fit, inquire into the charge in a summary way, and may for that purpose summon and enforce the attendance of all necessary persons as in a suit, and may make such order for the repayment of any money extorted, or for the payment over of any money levied, and for the payment of such damages and costs as the Court thinks fit.

(2) The Court may also, if it thinks fit, on the same inquiry, impose on the clerk or officer such fine, not exceeding 50 rupees (22.99 dollars) for each offence, as the Court thinks fit.

(3) A clerk or officer punished under this Article shall not, without the leave of the Court, be liable to a civil suit in respect of the same matter; and any such suit, if already or afterwards begun, may be stayed by the Court in such manner and on such terms as the Court thinks fit.

(4) Nothing in this Article shall be deemed to prevent any person from being prosecuted under any other British or British Indian law for any act or omission punishable under this Article, or from being liable under that other law to any other or higher punishment or penalty than that provided by this Article:

Provided that no person shall be punished twice for the same offence.

48. Any such order may be made in a summary way, as if the neglect to provide for the support of such wife or child were an offence, and any failure to comply with any such order shall be deemed to be an offence, and shall be punishable with a fine not exceeding 10 rupees (4.59 dollars) for any one default, and the Court may direct any penalty imposed for such offence to be applied for the support of such wife or child in such manner as the Court thinks fit.

51. Where, by virtue of this Order or otherwise, any Imperial Act, or any Law in force in India, is applicable in any place to which this Order applies, such Act or Law shall be deemed applicable so far only as the constitution and jurisdiction of the Courts acting under this Order and the local circumstances permit, and for the purpose of facilitating the application of any such Act or Law, it may be construed with such alterations and adaptations not affecting the substance as may be necessary, and anything by such Act or Law required to be done by or to any Court, Judge, officer, or authority may be done by or to a Court, Judge, officer, or authority having the like or analogous functions, or by any officer designated by the Court for that purpose, and the seal of the Court may be substituted for any seal required by any such Act or Law ; and in case any difficulty occurs in the application of any such Act or Law, it shall be lawful for a Secretary of State to direct by and to whom, and in what manner, anything to be done under such Act or Law is to be done, and such Act or Law shall, in its application to matters arising within the limits of this Order, be construed accordingly.

**REVENUE DEPARTMENT.**

**A Dictionary of the Economic Products of India.**

By DR. GEO. WATT, C.I.E.,  
*Reporter on Economic Products.*

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta. The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India R30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, R6 and 8 shillings respectively, will be charged extra for the whole sets.

*\*\*No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be R45 in India, and 3 guineas in England, exclusive of packing and postage.*

solidate, amend and add to the Law relating to Railways in India was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as revised by us annexed thereto.

2. The opinions received respecting the Bill were very numerous and valuable, and have suggested to us alterations in many sections. These alterations are indicated in italics in the copy of the Bill annexed to this Report, and the more important of them will now be noticed as far as possible in the order in which they occur.

3. *Section 1, sub-section (2).*—The mention of Upper Burma 1886; and the

is rendered desirable by the terms of the Upper Burma Laws Act,

mention of British Baluchistan, and the manner in which that mention is made, are suggested by the terms of the British Baluchistan Laws Regulation, 1890, and of the Sindh-Pishin Railway Act, 1887.

4. *Section 2.*—After much consideration we have been compelled to the conclusion that a clause saving existing contracts, such as has been proposed by several railway companies, ought not to be inserted in the Bill. Such a clause might bring each railway company under a different law, and would certainly cause great inconvenience. Each company might claim to interpret the Act according to its view of its rights under its contract, and the attempt to do this, even if not successful, might very seriously impair the operation of those parts of the proposed Act which deal with the creation of traffic facilities and with the prevention of undue preference. The powers which it is proposed to take in India are the same as it has been found necessary to take in England for the protection of the public, and so far as appears, without any prejudicial effect on the interests of railway companies. In India the exercise of those powers is scarcely likely to be as frequent as in England, and it may reasonably be presumed their operation will produce equally satisfactory results. The provisions of the Bill, we may add, are in our opinion rather supplementary to, than in conflict with, those of the earlier contracts, which relate almost exclusively to the management of the individual railways and not to their relations with other lines. In later contracts those provisions have been substantially introduced.

5. *Section 3.*—We have inserted in this section definitions of "inland water" and "maund". We have also made more clear the intendment of sub-clause (d) in the definition of "railway".

6. *Section 7.*—We have subjected to the control of the Governor General in Council the exercise by railway administrations of the powers conferred upon them by this section.

7. *Section 8.*—We have made provision here for the alteration of the position of pipes for the supply of compressed air, and of the position of electric wires.

8. *Section 10.*—We have recast this section with a view to making it more effectual for its purpose, and have supplemented it by a definition of "Collector" in section 3.

9. *Section 11.*—We have provided in sub-section (3), clause (b), that a railway administration may be required by the Governor General in Council to execute accommodation works after ten years from the opening of a railway. It has been urged that a mischief caused by a line of railway to the land adjoining it does not in some cases become known till many years after the construction of the line.

10. *Section 12.*—In this section we have provided for cases in which the Government or a local authority may desire to construct a road across, under or over a railway.

11. *Section 26.*—We have made no alteration in the proposed constitution of Railway Commissions. It appears to us that the interest which the Government has in all railways is itself a strong reason for the constitution of an independent tribunal presided over by a Judge of high rank.

12. *Sections 30 and 36.*—We have provided in the latter of these sections for the more effectual enforcement of injunctions made under the former of them.

13. *Section 41.*—We have by this section made it clear that no suit or other proceeding can be instituted or taken in any Civil Court for anything done, or any omission made, by a railway administration in violation or contravention of any of the new provisions respecting traffic facilities.

14. *Section 42, sub-section (4).*—We have added to the proviso a clause in the terms of 51 & 52 Vict., c. 25, s. 25 (9), and have left it to the Governor General in Council to determine in each case whether or not any question as to a proposed through rate shall be referred to a Railway Commission.

15. *Section 44.*—We have limited the effect of this section, with respect to the carriage of traffic by a vessel which is not part of a railway, to carriage for the purposes of the traffic of a railway.

16. *Section 47.*—We have in this section provided for the making of rules with respect to the carriage by railway of persons suffering from infectious or contagious disorders, and the disinfection of carriages which have been used by such persons, and we have recognised the practice of departmental fines which obtains universally on Indian railways.

17. *Section 54.*—We have subjected to the control of the Governor General in Council the power of railway administrations to impose conditions for working traffic.

18. *Section 56.*—We have provided in this section that, before any unclaimed animals or goods in the possession of a railway administration are sold, a notice shall be served on the owner, if he is known, requiring him to remove the animals or goods within a reasonable time.

19. *Sections 58, 78 and 106.*—We have recast much of these sections with the object of making their operation less oppressive to the public, while sufficiently protective of the interests of railway administrations.

20. *Section 60.*—We have endeavoured to remove the objections which have been taken to the application to India of all the provisions of the English Acts of 1873 and 1888

respecting the preparation and maintenance of rate-books, and the keeping of them open to the inspection of the public.

21. *Sections 64 and 95.*—We have made provision here for the reservation of compartments for the convenience and exclusive use of females.

22. *Section 80.*—We have made fuller provision in this section as to the railway administration which may be sued in respect of loss or injury occurring in the course of through traffic.

23. *Section 81.*—We have here defined the responsibility of a railway administration for loss or injury to traffic which the railway administration has procured to be carried by a vessel which is not part of a railway, where the loss or injury occurs in such a vessel.

24. *Section 91.*—We have followed English law in annexing a penalty to refusal or neglect on the part of a railway administration to comply with a decision of the Governor General in Council on a difference regarding the conduct of joint traffic with safety to the public.

25. *Section 104.*—We have proposed to make it an offence for a railway servant to keep a level-crossing closed against the public when it is unnecessary for him to do so.

26. *Section 113.*—We have limited the amount which may be levied by way of excess charge under this section.

27. *Section 132.*—We have endeavoured here, by calling in aid certain provisions of the Code of Criminal Procedure, 1882, to remove difficulties which have been experienced in the working of the corresponding section in the Indian Railway Act, 1879.

28. The other amendments of the Bill are numerous, but do not appear to us to call for special remark.

6. A railway administration shall afford to the [Act IV, 1883, s. 2.] Inspector all reasonable facilities for performing the duties and exercising the powers imposed and conferred upon him by this Act.

CHAPTER III.

CONSTRUCTION AND MAINTENANCE OF WORKS.

7. (1) Subject to the provisions of this Act [8 Vict., c. 2 s. 16.] and, in the case of immovable property not belonging to the railway administration, to the provisions of any enactment for the time being in force for the acquisition of land for public purposes and for companies, and, subject also, in the case of a railway company, to the provisions of any contract between the company and the Government, a railway administration may, for the purpose of constructing a railway or the accommodation or other works connected therewith, and notwithstanding anything in any other enactment for the time being in force,—

- (a) make or construct in, upon, across, under or over any lands, or any streets, hills, valleys, roads, railways or tramways, or any rivers, canals, brooks, streams or other waters, or any drains, water-pipes, gas-pipes or telegraph lines, such temporary or permanent inclined planes, arches, tunnels, culverts, embankments, aqueducts, bridges, roads, ways, passages, conduits, drains, piers, cuttings and fences as the railway administration thinks proper ;
- (b) alter the course of any rivers, brooks, streams or watercourses, for the purpose of constructing and maintaining tunnels, bridges, passages or other works over or under them, and divert or alter, as well temporarily as permanently, the course of any rivers, brooks, streams or watercourses or any roads, streets or ways, or raise or sink the level thereof, in order the more conveniently to carry them over or under or by the side of the railway, as the railway administration thinks proper ;
- (c) make drains or conduits into, through or under any lands adjoining the railway for the purpose of conveying water from or to the railway ;
- (d) erect and construct such houses, warehouses, offices and other buildings and such yards, stations, wharves, engines, machinery, apparatus and other works and conveniences as the railway administration thinks proper ;

*The Indian Railways Bill.**(Chapter III.—Construction and Maintenance of Works.—Sections 8-11.)*

(e) alter, repair or discontinue such *buildings, works and conveniences* as aforesaid or any of them, and substitute others in their stead; and

(f) do all other acts necessary for making, maintaining, altering or repairing and using the railway.

(2) *The exercise of the powers conferred on a railway administration by sub-section (1) shall be subject to the control of the Governor General in Council.*

Act XIII,  
885, s. 14.]

8. A railway administration may, for the purpose of exercising the powers conferred upon it by this Act, alter the position of any pipe for the supply of gas, water or compressed air or the position of any electric wire or of any drain not being a main drain:

Provided that—

(a) when the railway administration desires to alter the position of any such pipe, wire or drain it shall give reasonable notice of its intention to do so, and of the time at which it will begin to do so, to the local authority or company having control over the pipe, wire or drain, or, when the pipe, wire or drain is not under the control of a local authority or company, to the person under whose control the pipe, wire or drain is;

(b) a local authority, company or person receiving notice under proviso (a) may send a person to superintend the work, and the railway administration shall execute the work to the reasonable satisfaction of the person so sent and shall make arrangements for continuing during the execution of the work the supply of gas, water, compressed air or electricity or the maintenance of the drainage, as the case may be.

[5 & 6 Viet.,  
55, s. 14.]

9. (1) The Governor General in Council may authorise any railway administration, in case of any slip or other accident happening or being apprehended to any cutting, embankment or other work under the control of the railway administration, to enter upon any lands adjoining its railway for the purpose of repairing or preventing the accident, and to do all such works as may be necessary for the purpose.

(2) In case of necessity the railway administration may enter upon the lands and do the works aforesaid without having obtained the previous sanction of the Governor General in Council, but in such a case shall, within seventy-two hours after such entry, make a report to the Governor General in Council, specifying the nature of the accident or apprehended accident, and of the works necessary to be done, and the power con-

ferred on the railway administration by this sub-section shall cease and determine if the Governor General in Council, after considering the report, considers that the exercise of the power is not necessary for the public safety.

10. (1) A railway administration shall do as little damage as possible in the exercise of the powers conferred by any of the three last foregoing sections, and compensation shall be paid for any damage caused by the exercise thereof. [Pros., P. W. D., January, 1868, Nos. 60 to 64, E. I. R. 26.]

(2) A suit shall not lie to recover such compensation, but in case of dispute the amount thereof shall, on application to the Collector, be determined and paid in accordance, so far as may be, with the provisions of sections 11 to 15, both inclusive, and sections 18 to 42, both inclusive, of the Land-acquisition Act, 1870, and the provisions of sections 57 and 58 of that Act shall apply to the award of compensation. X of 1870.

11. (1) A railway administration shall make and maintain the following works for the accommodation of the owners and occupiers of lands adjoining the railway, namely:— [8 Viet., c. 20, s. 68.]

(a) such and so many convenient crossings, bridges, arches, culverts and passages over, under or by the sides of, or leading to or from the railway as may, in the opinion of the Governor General in Council, be necessary for the purpose of making good any interruptions caused by the railway to the use of the lands through which the railway is made, and

(b) all necessary arches, tunnels, culverts, drains, watercourses or other passages, over or under or by the sides of the railway, of such dimensions as will, in the opinion of the Governor General in Council, be sufficient at all times to convey water as freely from or to the lands lying near or affected by the railway as before the making of the railway, or as nearly so as may be.

(2) Subject to the other provisions of this Act, the works specified in clauses (a) and (b) of sub-section (1) shall be made during or immediately after the laying out or formation of the railway over the lands traversed thereby and in such manner as to cause as little damage or inconvenience as possible to persons interested in the lands or affected by the works.

(3) The foregoing provisions of this section are subject to the following provisos, namely:—

(a) a railway administration shall not be required to make any accommodation works in such a manner as would prevent or obstruct the working or using of the

*The Indian Railways Bill.**(Chapter III.—Construction and Maintenance of Works.—Sections 12-15.)*

railway, or to make any accommodation works with respect to which the owners and occupiers of the lands have agreed to receive and have been paid compensation in consideration of their not requiring the works to be made;

[8 Vict., c. 20, s. 73.]

(b) save as hereinafter in this Chapter provided, a railway administration shall not, *except on the requisition of the Governor General in Council*, be compelled to defray the cost of executing any further or additional accommodation works for the use of the owners or occupiers of the lands after the expiration of ten years from the date on which the railway passing through the lands was first opened for public traffic;

[Suggested at Railway Conference, 1888.]

(c) where a railway administration has provided suitable accommodation for the crossing of a road or stream, and the road or stream is afterwards diverted by the act or neglect of the person having the control thereof, the administration shall not be compelled to provide other accommodation for the crossing of the road or stream.

[8 Vict., c. 20, s. 70.]

(4) The Governor General in Council may appoint a time for the commencement of any work to be executed under sub-section (1), and if for fourteen days next after that time the railway administration fails to commence the work or, having commenced it, fails to proceed diligently to execute it in a sufficient manner, the Governor General in Council may execute it and recover from the railway administration the cost incurred by him in the execution thereof.

[8 Vict., c. 20, s. 71.]

12. If an owner or occupier of any land affected by a railway considers the works made under the last foregoing section to be insufficient for the commodious use of the land, *or if the Local Government or a local authority desires to construct a public road or other work across, under or over a railway, he or it, as the case may be*, may at any time require the railway administration to make at his or its expense such further accommodation works as he or it thinks necessary and are agreed to by the railway administration or as, in case of difference of opinion, may be authorised by the Governor General in Council.

[Act IV, 1879, s. 52; 5 & 6 Vict., c. 55, s. 10; U. O. Register No. 2360 of 1881; and Pros., P. W. D., May, 1866, Nos. 12 to 17; January 1868,

13. The Governor General in Council may require that, within a time to be specified in the requisition or within such further time as he may appoint in this behalf,—

Fences, screens, gates and bars.

(a) boundary-marks or fences be provided or renewed by a railway administration for a railway or any part thereof and for

roads constructed in connection therewith;

Nos. 62 to 64 Despatch, para. 23; Oct 1869, Nos. 31 to 343; and June, 1874, Nos. 11 & 12

(b) any works in the nature of a screen near to or adjoining the side of any public road constructed before the making of a railway be provided or renewed by a railway administration for the purpose of preventing danger to passengers on the road by reason of horses or other animals being frightened, by the sight or noise of the rolling-stock moving on the railway;

[8 Vict., c. 20, s. 63.]

(c) suitable gates, chains, bars, stiles or hand-rails be erected or renewed by a railway administration at places where a railway crosses a public road on the level;

[5 & 6 Vict. c. 55, s. 9.]

(d) persons be employed by a railway administration to open and shut such gates, chains or bars.

[8 Vict., c. 20, s. 48.]

14. (1) Where a railway administration has constructed a railway across a public road on the level, the Governor General in Council may at any time, if it appears to him necessary for the public safety, require the railway administration, within such time as he thinks fit, to carry the road either under or over the railway by means of a bridge or arch, with convenient ascents and descents and other convenient approaches, instead of crossing the road on the level, or to execute such other works as, in the circumstances of the case, may appear to the Governor General in Council to be best adapted for removing or diminishing the danger arising from the level-crossing.

[26 & 27 Vic. c. 92, s. 7.]

(2) The Governor General in Council may require, as a condition of making a requisition under sub-section (1), that the local authority, if any, which maintains the road shall undertake to pay the whole of the cost to the railway administration of complying with the requisition or such portion of the cost as the Governor General in Council thinks just.

[8 Vict., c. 1 s. 46; 51 & 52 Vict., c. 25, s. 16; and 36 W. R. 491.]

Removal of trees dangerous to or obstructing the working of a railway.

15. (1) In either of the following cases, namely:—

[31 & 32 Vic. c. 119, s. 24 and Act XI 1885, s. 18,

(a) where there is danger that a tree standing near a railway may fall on the railway so as to obstruct traffic,

(b) when a tree obstructs the view of any fixed signal,

the railway administration may, with the permission of any Magistrate, fell the tree or deal with it in such other manner as will in the opinion of the railway administration avert the danger or remove the obstruction, as the case may be.

*The Indian Railways Bill.**(Chapter IV.—Opening of Railways.—Sections 16-19.)*

(2) In case of emergency the power mentioned in sub-section (1) may be exercised by a railway administration without the permission of a Magistrate.

(3) Where a tree felled or otherwise dealt with under sub-section (1) or sub-section (2) was in existence before the railway was constructed or the signal was fixed, any Magistrate may, upon the application of the persons interested in the tree, award to those persons such compensation as he thinks reasonable.

(4) Such an award, subject, where made in a presidency-town by any Magistrate other than the Chief Presidency Magistrate or where made elsewhere by any Magistrate other than the District Magistrate, to revision by the Chief Presidency Magistrate or the District Magistrate, as the case may be, shall be final.

(5) *A Civil Court shall not entertain a suit to recover compensation for any tree felled or otherwise dealt with under this section.*

## CHAPTER IV.

## OPENING OF RAILWAYS.

[Act IV, 1879, s. 4; 8 Vict., c. 20, s. 86; and K. W. Progs., A. March, 1883, No. 182.]  
**16. (1)** A railway administration may, with the previous sanction of the Governor General in Council, use upon a railway locomotive engines or other motive power, and rolling-stock to be drawn or propelled thereby.

[New: U. O. Regr. No. 1622 of 1878, and K. W. No. 1, Pros. A. April, 1879, Nos. 99-113.]  
**(2)** But rolling-stock shall not be moved upon a railway by steam or other motive power until such general rules for the railway as may be deemed to be necessary have been made, sanctioned and published under this Act.

[Act IV, 1883, s. 2; and K. W. No. 5, Pros. A. March, 1883, Nos. 1-82.]  
**17. (1)** Subject to the provisions of sub-section (2), a railway administration shall, one month at least before it intends to open any railway for the public carriage of passengers, give to the Governor General in Council notice in writing of its intention.

**(2)** The Governor General in Council may in any case, if he thinks fit, reduce the period of, or dispense with, the notice mentioned in sub-section (1).

[Act IV, 1883, s. 2; and Pros., P. W. D., Jan., 1868, Nos. 60 to 64, E. I. R. 39-32.]  
**18.** A railway shall not be opened for the public carriage of passengers until the Governor General in Council, or an Inspector empowered by the Governor General in Council in this behalf, has by order sanctioned the opening thereof for that purpose.

**19. (1)** The sanction of the Governor General in Council under the last foregoing section shall not be given until an Inspector has, after inspection of the railway, reported in writing to the Governor General in Council—

(a) that he has made a careful inspection of the railway and rolling-stock;

(b) that the moving and fixed dimensions prescribed by the Governor General in Council have not been infringed;

(c) that the weight of rails, strength of bridges, general structural character of the works, and the size of and maximum gross load upon the axles of any rolling-stock are such as have been prescribed by the Governor General in Council;

(d) that the railway is sufficiently supplied with rolling-stock;

(e) that general rules for the working of the railway when opened for the public carriage of passengers have been made, sanctioned and published under this Act; and

(f) that, in his opinion, the railway can be opened for the public carriage of passengers without danger to the public using it.

**(2)** If in the opinion of the Inspector the railway cannot be so opened without danger to the public using it, he shall state that opinion together with the grounds therefor to the Governor General in Council, and the Governor General in Council may thereupon order the railway administration to postpone the opening of the railway.

**(3)** An order under the last foregoing subsection must set forth the requirements to be complied with as a condition precedent to the opening of the railway being sanctioned, and shall direct the postponement of the opening of the railway until those requirements have been complied with or the Governor General in Council is otherwise satisfied that the railway can be opened without danger to the public using it.

**(4)** The sanction given under this section may be either absolute or subject to such conditions as the Governor General in Council thinks necessary for the safety of the public.

**(5)** When sanction for the opening of a railway is given subject to conditions and the railway administration fails to fulfil those conditions, the sanction shall be deemed to be void and the railway shall not be worked or used until the conditions are fulfilled to the satisfaction of the Governor General in Council.

(Chapter IV.—Opening of Railways.—Sections 20-25. Chapter V.—Railway Commissions and Traffic Facilities.—Section 26.)

[34 & 35  
Vict., c. 78,  
s. 5.]

20. (1) The provisions of sections 17, 18 and 19 with respect to the opening of a railway shall extend to the opening of the works mentioned in sub-section (2) when those works form part of, or are directly connected with, a railway used for the public carriage of passengers and have been constructed after the inspection which preceded the first opening of the railway.

(2) The works referred to in sub-section (1) are additional lines of railway, deviation lines, stations, junctions and crossings on the level, and any alteration or re-construction materially affecting the structural character of any work to which the provisions of sections 17, 18 and 19 apply or are extended by this section.

[New.]

21. When an accident has occurred resulting in a temporary suspension of traffic, and either the original line and works have been rapidly restored to their original standard, or a temporary diversion has been laid for the purpose of restoring communication, the original line and works so restored, or the temporary diversion, as the case may be, may, in the absence of the Inspector, be opened for the public carriage of passengers, subject to the following conditions, namely:—

(a) that the railway servant in charge of the works undertaken by reason of the accident has *certified in writing* that the opening of the restored line and works, or of the temporary diversion, will not *in his opinion* be attended with danger to the public using the line and works or the diversion; and

(b) that notice by telegraph of the opening of the line and works or the diversion shall be sent, *as soon as may be*, to the Inspector appointed for the railway.

[New: suggested at  
Railway  
Conference,  
1888.]

22. The Governor General in Council may make rules defining the cases in which, and in those cases the extent to which, the procedure prescribed in sections 17 to 20 (both inclusive) may be dispensed with.

[Act IV,  
1883, s. 2.]

23. (1) When, after inspecting any open railway used for the public carriage of passengers, or any rolling-stock used thereon, an Inspector is of opinion that the use of the railway or of any specified rolling-stock will be attended with danger to the public using it, he shall state that opinion, together with the grounds therefor, to the Governor General in Council; and the Governor General in Council may thereupon order that the railway be closed for the public carriage of passengers, or that the use of the rolling-stock so

specified be discontinued, or that the railway or the rolling-stock so specified be used for the public carriage of passengers on such conditions *only* as the Governor General in Council may consider necessary for the safety of the public.

(2) An order under sub-section (1) must set forth the grounds on which it is founded. [5 & 6 Vict. c. 55, s. 6.]

24. (1) When a railway has been closed under the last foregoing section, it shall not be re-opened for the public carriage of passengers until it has been inspected, and its re-opening sanctioned, in accordance with the provisions of this Act. [Act IV, 1883, s. 2.]

(2) When the Governor General in Council has ordered under the last foregoing section that the use of any specified rolling-stock be discontinued, that rolling-stock shall not be used until an Inspector has reported that it is fit for use and the Governor General in Council has sanctioned its use. [Act IV, 1883, s. 2.]

(3) When the Governor General in Council has imposed under the last foregoing section any conditions with respect to the use of any railway or rolling-stock, those conditions shall be observed until they are withdrawn by the Governor General in Council.

25. (1) The Governor General in Council may, by general or special order, authorise the discharge of any of his functions under this Chapter by an Inspector, and may cancel any sanction or order given by an Inspector discharging any such function or attach thereto any condition which the Governor General in Council might have imposed if the sanction or order had been given by himself. [Act IV, 1879, s. 5B (2).]

(2) A condition imposed under sub-section (1) shall for all the purposes of this Act have the same effect as if it were attached to a sanction or order given by the Governor General in Council.

## CHAPTER V.

## RAILWAY COMMISSIONS AND TRAFFIC FACILITIES.

*Railway Commissions.*

26. (1) For the purposes of this Chapter the Governor General in Council shall, as occasion may in his opinion require, appoint a commission, styled a Railway Commission (in this Act referred to as the Commissioners) and consisting of one Law Commissioner and two Lay Commissioners. [17 & 18 Vict., c. 31; 36 & 37 Vict. c. 48; and 52 & 53 Vict. c. 25.]

(3) The Law Commissioner shall be such Judge of the High Court having jurisdiction in reference to European British subjects under the Code of Criminal Procedure, 1882, in the place where the Commissioners are to sit as, in the case of a High Court established under the Statute 24 and 25 Victoria, chapter 104, the Chief Justice or, in the case of the Chief Court of the Punjab, the Senior Judge or, in the case of the Court of the Recorder of Rangoon, the Chief Commissioner of Burma may, on the request of the Governor General in Council, assign by writing under his hand.

(4) The Lay Commissioners shall be appointed by the Governor General in Council, and one at least of them shall be of experience in railway business.

27. The Commissioners shall take cognizance of such cases only as are referred to them by the Governor General in Council.

28. In any of the following circumstances, namely:—

(a) where complaint is made to the Governor General in Council of anything done or any omission made by a railway administration in violation or contravention of any provision of this Chapter;

(b) where any difference *which is under the provisions of any agreement required or authorised to be referred to arbitration* arises between railway administrations, and the railway administrations apply to the Governor General in Council to have it referred to the Commissioners;

(c) where any other difference, *being a difference between railway administrations or one to which a railway administration is a party*, arises, and the parties thereto apply to the Governor General in Council to have it referred to the Commissioners;

the Governor General in Council may, if he thinks fit, refer the case to the Commissioners for decision.

29. The three Commissioners shall attend at the hearing of any case referred to them for decision under this Chapter, and the Law Commissioner shall preside at the hearing.

30. (1) In hearing any such case the Commissioners shall have all the powers which may be exercised in the hearing of an original civil suit by a High Court.

(2) *The decision shall, if the Commissioners differ in opinion, be in accordance with the opinion of the majority, and the final order in the case shall be by way of injunction and not otherwise.*

(3) At the hearing the Commissioners may permit any party to appear before them either by himself or by any legal practitioner entitled to practise in any High Court.

31. (1) An appeal shall not lie from any order of the Commissioners upon any question of fact on which two of the Commissioners are agreed.

(2) Subject to the provisions of sub-section (1), an appeal shall lie from an order of the Commissioners—

(a) where the Law Commissioner was the Recorder or Additional Recorder of Rangoon, to the High Court of Judicature at Fort William in Bengal, and

(b) in any other case, to the High Court of which the Law Commissioner was a member.

(3) Such an appeal must be presented within six months from the date of the order appealed from, and shall be heard by a bench of as many Judges, not being fewer than three, as the High Court may by rule prescribe.

(4) In the hearing of the appeal the High Court shall, subject to the other provisions of this Chapter, have all the powers which it has as an Appellate Court under the Code of Civil Procedure, and may make any order which the Commissioners could have made.

32. Notwithstanding any appeal to the High Court from an order of the Commissioners, the order shall, unless the Commissioners or the majority of them see fit to suspend it, continue in operation until it is reversed or varied by that Court.

33. (1) The Commissioners, in the exercise of their jurisdiction under this Chapter, may from time to time, with the general or special sanction of the Governor General in Council, call in one or more persons of engineering or other technical knowledge to act as assessors.

(2) There shall be paid to such persons such remuneration as the Governor General in Council upon the recommendation of the Commissioners may direct.

35. The costs of and incidental to any proceedings before the Commissioners or the High Court under this Chapter shall be in the discretion of the Commissioners or the High Court, as the case may be, and the payment of costs awarded by the Commissioners may be enforced by the Court of which the Law Commissioner was a Judge as if the payment had been ordered by a decree of a High Court.

[17 & 18  
Vict., c. 31,  
s. 3.]

36. (1) The Court of which the Law Commissioner was a Judge may, if it appears on the application of any person who was a party to the proceedings before the Commissioners or on appeal before the High Court, or of the representative of any such person, that an injunction made under this Chapter by the Commissioners or by a High Court has not been obeyed by the party enjoined, order such party to pay a sum not exceeding one thousand rupees for every day during which the injunction is disobeyed after the date of the order directing such payment.

(2) The payment of such sum may be enforced by the Court which made the order as if that Court had given a decree for the same, and the Court may direct that the whole or any part of the sum shall be paid to the person making the application under subsection (1) or to the Government.

37. A document purporting to be signed by the Commissioners, or any of them, shall be received in evidence without proof of the signature, and shall, until the contrary is proved, be deemed to have been so signed and to have been duly executed or issued by the Commissioners.

38. The Commissioners shall, as soon as may be after the disposal of each case referred to them, submit to the Governor General in Council a special report on the case, and the Governor General in Council shall cause the report to be published in such manner as he thinks fit for the information of persons interested in the subject-matter thereof.

39. Except for the purpose of the last foregoing section, a Railway Commission shall be deemed to be dissolved at the close of the last of the sittings of the Commissioners for the decision of the cases referred to them:

*Provided that, on the application of any person who was a party to the proceedings before*

*the Commissioners, or of the representative of any such person, the Governor General in Council may, if he thinks fit, in any case in which the order passed by the Commissioners is not open to appeal, re-appoint the Commissioners for the purpose of hearing an application for a review of their decision and of granting the same and re-hearing the case if they think that the case should be re-heard.*

40. Subject to the foregoing provisions of this Chapter and to any direction of Her Majesty in Council, an order of the Commissioners shall be final and shall not be questioned in or restrained by any Court.

41. Except as provided in this Act, no suit shall be instituted or proceeding taken for anything done or any omission made by a railway administration in violation or contravention of any provision of this Chapter or of any order made thereunder by the Commissioners or by a High Court.

*Traffic Facilities.*

42. (1) Every railway administration shall, according to its powers, afford all reasonable facilities for the receiving, forwarding and delivering of traffic upon and from the several railways belonging to or worked by it and for the return of rolling-stock.

(2) A railway administration shall not make or give any undue or unreasonable preference or advantage to or in favour of any particular person or railway administration, or any particular description of traffic, in any respect whatsoever, or subject any particular person or railway administration or any particular description of traffic to any undue or unreasonable prejudice or disadvantage in any respect whatsoever.

(3) A railway administration having or working railways which form part of a continuous line of railway communication, or having its terminus or station within one mile of the terminus or station of another railway administration, shall afford all due and reasonable facilities for receiving and forwarding by one of such railways all the traffic arriving by the other at such terminus or station, without any unreasonable delay, and without any such preference or advantage or prejudice or disadvantage as aforesaid, and so that no obstruction may be offered to the public desirous of using such railways as a continuous line of communication, and so that all reasonable accommodation may by means of such railways be at all times afforded to the public in that behalf.

(4) The facilities to be afforded under this section shall include the due and reasonable receiving, forwarding and delivering by every railway administration, at the request of any other railway administration, of through traffic to and from the railway of any other railway administration at through rates:

Provided as follows:—

- (a) the railway administration requiring the traffic to be forwarded shall give written notice of the proposed through rate to each forwarding railway administration, stating both its amount and its apportionment and the route by which the traffic is proposed to be forwarded. The proposed through rate for animals or goods may be per truck or per maund;

- (d) if an objection to the rate, apportionment or route has been sent within the prescribed period, the Governor General in Council may, if he thinks fit, on the request of any of the railway administrations, refer the case to the Commissioners for their decision;
- (e) if the objection is to the granting of the rate or to the route, the Commissioners shall consider whether the granting of the rate is a due and reasonable facility in the interests of the public, and whether, regard being had to the circumstances, the route proposed is a reasonable route, and shall allow or refuse the rate accordingly or fix such other rate as may seem to the Commissioners to be just and reasonable;
- (f) if the objection is only to the apportionment of the rate, and the case has been referred to the Commissioners, the rate shall come into operation at the expiration of the prescribed period, but the decision of the Commissioners as to its apportionment shall be retrospective: in the case of any other objection the operation of the rate shall be suspended until the Commissioners make their order in the case;

(g) the Commissioners in apportioning the through rate shall take into consideration all the circumstances of the case, including any special expense incurred in respect of the construction, maintenance or working of the route or any part of the route, as well as any special charges which any railway administration is entitled to make in respect thereof;

(h) the Commissioners shall not in any case compel any railway administration to accept lower mileage rates than the mileage rates which the administration may for the time being legally be charging for like traffic carried by a like mode of transit on any other line of communication between the same points, being the points of departure and arrival of the through route;

(i) subject to the foregoing provisions of this sub-section, the Commissioners shall have full power to decide that any proposed through rate is due and reasonable, notwithstanding that a less amount may be allotted to any forwarding railway administration out of the through rate than the maximum rate which the railway administration is entitled to charge, and to allow and apportion the through rate accordingly; [36 & 37 Vict., c. 48, s. 12.]

(j) the prescribed period mentioned in this sub-section shall be one month, or such longer period as the Governor General in Council may by general or special order prescribe.

(2) In deciding whether a lower charge does or does not amount to an undue preference, the Commissioners may, so far as they think reasonable, in addition to any other considerations affecting the case, take into consideration whether such lower charge is necessary for the purpose of securing, in the interests of the public, the traffic in respect of which it is made.

44. Where a railway administration is a party to an agreement for procuring the traffic of the railway to be carried on any inland water by any ferry, ship, boat or raft [51 & 52 Vict., c. 25, s. 25, and section 3 (d) of this Bill.]

55. (1) *If a person fails to pay on demand made by or on behalf of a railway administration any rate, terminal or other charge due from him in respect of any animals or goods, the railway administration may detain the whole or any of the animals or goods, or, if they have been removed from the railway, any other animals or goods of such person then being in or thereafter coming into its possession.*

(2) When any animals or goods have been detained under sub-section (1), the railway administration may sell by public auction, in the case of perishable goods at once, and in the case of other goods or of animals on the expiration of at least fifteen days' notice of the intended auction, published in one or more of the local newspapers or, where there are no such newspapers, in such manner as the Governor General in Council may prescribe, sufficient of such animals or goods to produce a sum equal to the charge and all expenses of such detention, notice and sale, including, in the case of animals, the expenses of the feeding, watering and tending thereof.

(5) Notwithstanding anything in the foregoing sub-sections, the railway administration may recover by suit any such rate, terminal or other charge as aforesaid or balance thereof.

56. (1) When any animals or goods have come into the possession of a railway administration for carriage or otherwise and are not claimed by the owner or other person appearing to the railway administration to be entitled thereto, the railway administration shall, if such owner or person is known, cause a notice to be served upon him requiring him to remove the animals or goods.

(2) If such owner or person is not known, or the notice cannot be served upon him, or he does not comply with the requisition in the notice, the railway administration may within a reasonable time, subject to the provisions of any other enactment for the time being in force, sell the animals or goods as nearly as may be under the provisions of the last foregoing section, rendering the surplus, if any, of the proceeds of the sale to any person entitled thereto.

57. Where any animals, goods or sale-proceeds in the possession of a railway administration are claimed by two or more persons or the ticket or receipt given for the animals or goods is not forthcoming, the railway administration may withhold delivery of the animals, goods or sale-proceeds until the person entitled in its opinion to receive them has given an indemnity, to the satisfaction of the railway administration, against the claims of any other person with respect to the animals, goods or sale-proceeds.

## RESPONSIBILITY OF RAILWAY ADMINISTRATIONS AS CARRIERS.

IV, s. 10: R. 3 n. 109 and Cal. 166: U. O. No. 2634 879.]  
 72. (1) The responsibility of a railway administration for the loss, destruction or deterioration of animals or goods delivered to the administration to be carried by railway shall, subject to the other provisions of this Act, be that of a bailee under sections 151, 152 and 161 of the Indian Contract Act, 1872.

(2) An agreement purporting to limit that responsibility shall, in so far as it purports to effect such limitation, be void unless it—

(a) is in writing signed by or on behalf of the person sending or delivering to the railway administration the animals or goods, and

(b) is otherwise in a form approved by the Governor General in Council.

(3) Nothing in the common law of England or in the Carriers Act, 1865, regarding the responsibility of common carriers with respect to the carriage of animals or goods, shall affect the responsibility as in this section defined of a railway administration.

73. (1) The responsibility of a railway administration under the last foregoing section for the loss, destruction or deterioration of animals delivered to the administration to be carried on a railway shall not in any case exceed, in the case of elephants or horses, five hundred rupees a head or, in the case of camels or horned cattle, fifty rupees a head or, in the case of sheep, goats, dogs or other animals, ten rupees a head unless the person sending or delivering them to the administration caused them to be declared, or declared them, at the time of their delivery for carriage by railway, to be respectively of higher value than five hundred, fifty or ten rupees a head, as the case may be.

(2) Where such higher value has been declared, the railway administration may charge, in respect of the increased risk, a percentage upon the excess of the value so declared over the respective sums aforesaid.

(3) In every proceeding against a railway administration for the recovery of compensation for the loss, destruction or deterioration of any animal the burden of proving the value of the animal and, where the animal has been injured, the extent of the injury shall lie upon the person claiming the compensation.

74. A railway administration shall not be responsible for the loss, destruction or deterioration of any luggage belonging to or in charge of a passenger unless a railway servant has booked and given a receipt therefor.

75. (1) When any articles mentioned in the second schedule are contained in any parcel or package delivered to a railway administration for carriage by railway, and the value of such articles in the parcel or package exceeds one hundred rupees, the railway administration shall not be responsible for the loss, destruction or deterioration of the parcel or package unless the person sending or delivering the parcel or package to the administration caused its value and contents to be declared or declared them at the time of the delivery of the parcel or package for carriage by railway, and, if so required by the administration, paid or engaged to pay a percentage on the value so declared by way of compensation for increased risk.

(2) When any parcel or package of which the value has been declared under sub-section (1) has been lost or destroyed or has deteriorated, the compensation recoverable in respect of such loss, destruction or deterioration shall not exceed the value so declared, and the burden of proving the value so declared to have been the true value shall, notwithstanding anything in the declaration, lie on the person claiming the compensation.

(3) A railway administration may make it a condition of carrying a parcel declared to contain any article mentioned in the second schedule that a railway servant authorised in this behalf has been satisfied by examination or otherwise that the parcel actually contains the article declared to be therein.

## GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to amend Acts VI and VII of 1884 was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 14th February, 1890:—

WE, the undersigned, Members of the Select Committee to which the Bill to amend Acts VI and VII of 1884 was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this

From Registrar, High Court, Calcutta, No. 1851, dated 6th August, 1889 [Paper No. 1].  
 From Officiating Secretary to Chief Commissioner, Burma, No. 722—28 M. S., dated 22nd August, 1889 [Paper No. 2].  
 From Chief Secretary to Government, Madras, No. 1441, dated 20th August, 1889, and enclosures [Papers No. 3].  
 From Officiating Joint Secretary to Government, Bengal, Public Works Department, No. 2025, dated 3rd September, 1889, and enclosures [Papers No. 4].  
 Resolutions by Government, Bombay, Marine Department, No. 273, dated 4th September, 1889, and enclosures, and No. 279, dated 11th September, 1889 [Papers No. 5].

our Report, with the Bill as revised by us annexed thereto.

2. We have made no material alterations in the clauses which were in the Bill as introduced, but we have made several additions to that Bill.

3. We have proposed in section 1 of the Bill as revised by us to substitute for the definition of "inland water" the definition of that expression which has recently been adopted by the Select Committee on the Indian Railways Bill.

4. We have provided by sections 2, 3, 4(1), 5, 8, 14, 15, 16, 17(1), 18, 21 and 22 of the same Bill that the fee now charged for a certificate of survey shall be payable when a survey is held, whether a certificate is given or not.

5. We have also provided by sections 7 and 20 of the same Bill that a fee at a rate not exceeding twice the ordinary rate may be charged for a second survey held at the instance of an owner or master dissatisfied with the declaration on a previous survey.

6. We have provided by sections 9, 10 and 11 of the same Bill for the grant of certificates of service by Local Governments in cases in which masters, engineers and engine-drivers of inland steam-vessels might be prejudicially affected by the delay which has occurred in the enforcement of rules for their examination.

7. We have proposed in section 12 of the same Bill that a power be conferred on Local Governments to make rules requiring (a) inland steam-vessels to be provided with a sufficient quantity of fresh water, where necessary, for the use of passengers, and (b) the price of passenger-tickets for journeys by such vessels to be printed or otherwise denoted on the tickets.

8. We have considered a proposal made by the Government of Bengal that there be three standards of qualification for, and three classes of, masters and engineers of inland steam-vessels, and that regard be had to tonnage instead of nominal horse-power in determining the size of the vessel in which each class of master or engineer may be employed. The proposal has not been considered by the Government of Bombay or by the Chief Commissioner of Burma and has been received with disfavour by some of the principal representatives of the inland steam-navigation companies in Calcutta. We have therefore not given effect to it.

9. The publication ordered by the Council has been made as follows :—

Gazette of India . . . . .		6th July, 1889.
Fort Saint George Gazette . . . . .		23rd July, 1889.

	Bengali . . . . .	30th July, 1889.

From Officiating Secretary to Chief Commissioner, Central Provinces, No. 7101—373, dated 2nd December, 1889, and enclosure [Papers No. 4].

From Officiating Secretary to Government, Punjab, No. 440, dated 29th November, 1889, and enclosures [Papers No. 5].

From Chief Secretary to Government, Bombay, No. 9231, dated 5th December, 1889, and enclosures [Papers No. 6].

From Secretary to Government, Bengal, No. 4257—690 F., dated 9th December, 1889, and enclosures [Papers No. 7].

From Officiating Chief Secretary to Chief Commissioner, Burma, No. 400—10 C., dated 7th December, 1889, and enclosures [Papers No. 8].

From Acting Chief Secretary to Government, Bombay, No. 9691, dated 21st December, 1889 [Paper No. 9].

From Chief Secretary to Government, North-Western Provinces and Oudh, No. 75 F.—825-41, dated 29th January, 1890, and enclosures [Papers No. 10].

the Indian Forest Act, 1878, the Burma Forest Act, 1881, and the Upper Burma Forest Regulation, 1887, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the

Bill as amended by us annexed thereto.

2. We consider that the Upper Burma Forest Regulation, 1887, should be amended by a Regulation under the Statute 33 Vict., c. 3, and not by an Act. We have amended the Bill accordingly.

3. We have in section 2 adopted for incorporation in the Indian Forest Act, 1878, the definition of "timber" which is contained in the Burma Forest Act, 1881, and we have by the same section, and by section 15 of the Bill as revised by us further altered the definitions of "tree" and "forest-produce" in the Indian Forest Act, 1878, and in the Burma Forest Act, 1881. If our proposals are accepted, the expression "forest-produce" will include, we believe, only those things over which, whether found in or brought from a forest or not, it is essential in the interests of forest-administration and of the public to exercise more or less control.

4. By sections 4 and 6 of the revised Bill we have subjected the wasteful practice of shifting cultivation to the absolute control of the Local Government in those parts of British India in which the Indian Forest Act, 1878, is in force.

5. By sections 7 and 16 of the same Bill we have, on the suggestion of the Chief Commissioner of Assam, made general the provisions of clause (b) of section 24 of the Upper Burma Forest Regulation, 1887, respecting the offence of firing reserved forests or endangering them by fire.

6. Sections 8 and 17 of the same Bill supplement the definitions of "timber" and "forest-produce", and the clause which has been added to each of these sections will enable the Local Government to confine the practical operation of the Indian and Burma Forest Acts to the purposes which they are intended to effect.

7. Sections 9 and 18 of the same Bill are intended to remove an inconsistency which has been brought to our notice by Mr. Sykes, barrister-at-law at Lucknow, between the Indian and Burma Forest Acts on the one hand and section 424 of the Code of Civil Procedure on the other.

8. In sections 12 and 19 of the same Bill we have adopted a provision in the Upper Burma Forest Regulation, 1887, which will facilitate the discharge of accused persons on security for their appearance when required.

9. In sections 13 and 20 of the same Bill we have revised the sections of the Indian and Burma Forest Acts relating to the compounding of forest-offences, and limited (a) the classes of forest-officers who may be authorised to compound such offences, and (b) the sum which may be accepted by way of compensation.

10. We have expressly provided in sections 14 and 22 of the same Bill for cases in which a person covenants to abstain from an act as well as for cases in which a person covenants to perform an act.

11. The other alterations in the Bill are few and do not appear to us to call for remark.

REVENUE AND AGRICULTURAL DEPARTMENT.

### Weather Review of India for the week ending 8 a.m. on Monday, February 3rd, 1890.

It was mentioned in last week's summary that at the close of the week the disturbed weather which had temporarily prevailed over Northern India had disappeared and that the pressure and winds over India had assumed the distribution and the circulation which had characterised the whole of the present cold weather season. This distribution and this circulation has prevailed without interruption during the week under review and a description of the conditions existing on the 28th describes, with some slight modifications, the conditions prevailing throughout the whole week. On the morning of the 28th the chart showed that pressure was high over the greater part of Northern and Central India. The isobar of 30.00 ran from Rawalpindi down the Gangetic plain as far as Patna, turned southward as far as Raipur, and then westward, in which direction it travelled as far as Rajkote. Within this isobar pressure was everywhere high, the highest readings being reported from Rajputana and Central India and from the extreme north-west of the Punjab. In addition to this high pressure area a subsidiary area of high readings was reported from the Upper Assam Valley. From these two regions pressure slowly decreased and readings were relatively low over the Bay and off the West Coast. The winds accompanying this distribution were of the normal anticyclonic character. A north-westerly current prevailed down the Gangetic plain, north winds in Bengal, north north-west winds on the east side of the Peninsula, easterly winds over the Deccan and on the West Coast, and northerly and north-easterly winds in Guzerat and Sind. In Burma the wind directions were very variable. With very few exceptions the wind force was low. On the 29th, owing to a comparatively brisk rise over Northern India and a com-

paratively slight rise over the west of the Peninsula, gradients became steep over the northern parts of the Bombay Presidency and the wind force there increased ; but with this exception there was no important change. On the 30th conditions were unchanged, but on the 31st pressure fell over Northern India and rose over the Peninsula, so that the large barometric differences noticed on the 29th and 30th disappeared again. During the 1st, 2nd and 3rd there was absolutely no change of any importance.

*Temperature.*—The wave of cold, which commenced in North-Western India last week, and subsequently spread to nearly all parts of the Indian region, has continued, but with less intensity than was the case during the closing days of last week. On the 28th the observations showed that a brisk rise of temperature had commenced at the Himalayan stations. This rise subsequently spread to the plains, and by the close of the week the variations from the normal average were small, though in several provinces there was still some deficiency. At the hill stations and to a certain extent in Baluchistan the weather was exceptionally warm throughout the week. The following table shows the variations of the mean temperature of the present and of the past weeks from the normal average :—

PROVINCES.	Difference of mean temperature of last week from normal.	Difference of mean temperature of present week from normal.
	°	°
Burma . . . . .	+ 2·0	+ 1·7
Bengal . . . . .	+ 1·7	— 3·1
North-Western Provinces . . . . .	+ 1·8	— 2·6
Punjab . . . . .	+ 0·4	— 0·6
Bombay . . . . .	— 1·1	+ 0·9
Central Provinces . . . . .	— 0·8	— 2·9
Guzerat and Central India . . . . .	0	— 0·7
Sind and Rajputana . . . . .	+ 0·8	— 0·9
Madras . . . . .	+ 0·8	— 0·9

This table shows that the mean temperature of the present week has been low as compared with the normal average in all provinces except Burma and Bombay, and that, compared with the temperature of last week, the weather has been cool in all provinces except Bombay. The early and brisk rise of temperature which occurred on the Himalayas relatively to the neighbouring plains resulted in much higher night temperatures being reported from the hill than from the plains stations : thus on the 29th when sharp frost prevailed over the plains of the Punjab, the North-Western Provinces and Central India, the minimum readings at Ranikhet, Mussoorie, Simla and Murree were respectively, 45°, 40°, and 41½°.

*Rain.*—Except in Burma, the Brahamaputra Valley in Assam, at one place in the west of the Punjab and at one or two in the south-west of the Peninsula, there has been no rain in any part of the Indian region. In Tenasserim there has been a large and in Central Burma a moderate excess, but in the other divisions reporting rain the falls have been of the slightest description—merely light local showers. The shower in Punjab west occurred in the Muzaffargarh division, that in the south-west of the Peninsula at Quilon and Ootacamund. In Burma, Moulmein received 4½ inches and Shwegyin 1½ inches during the week. A slight further increase in the amount of the seasonal deficiency has resulted from the past dry week.

## Weekly Report on the State of the Season and Prospects of the Crops.

**Madras.**—*For week ending 8th February.*—No rain. Crops generally good, but withering over considerable areas in Nellore, South Arcot, Madura, Tinnevely, Coimbatore and Salem, and limited areas in Cuddapah, Chingleput and Tanjore. Prices steady. Prospects generally fair.

**Bombay.**—*For week ending 12th February.*—Slight rain in one taluka of Sind. Standing crops damaged by frost, blight or locusts in parts of Sind; poor or indifferent owing to want of moisture in five Deccan districts. Cotton in parts of Bijapur and Dharwar blighted; crops otherwise good.

**Bengal.**—*For week ending 11th February.*—No rain. Weather fine and still cold. General agricultural prospects continue satisfactory. *Rabi* crops reported on favourably from almost all districts, but a shower of rain would benefit them in parts of South Behar. Mustard and other early *rabi* crops being gathered. Sugarcane being cut and pressed, and expected to yield a fair crop on the whole. Poppy flowering and generally in good condition. Tobacco a thriving crop, as also *ganja* in Rajshaliye. Spring rice cultivation well forward, and transplanting in good progress. Ploughing for early rice and jute begun in certain districts. Price of common rice remains almost stationary, but in Orissa some decline reported from Cuttack and Pooree. Nothing special to report regarding apprehensions as to Balasore.

**North-Western Provinces and Oudh.**—*For week ending 12th February.*—The weather continues dry and clear and the temperature has risen. *Rabi* crops have been damaged by frost and greatly need rain. Irrigated crops are doing well. The markets are well supplied, though prices are tending upwards in some districts.

**Punjab.**—*For week ending 12th February.*—No rain. Prices are reported stationary in all districts except Amritsar, Sialkot and Rawalpindi where they are rising. Sowing of *rabi* crops over and that of extra *rabi* commenced. Rain much wanted throughout the Province. Condition of crops is reported to be fair. The crops on *barani* lands in most districts are suffering from drought. Lahore, Rawalpindi, and Dehra Ismail Khan districts have been visited by locusts, but only slight damage done in parts of Dera Ismail Khan. Fodder sufficient except in Jullunder, Sialkot and parts of Lahore and Multan.

**Central Provinces.**—*For week ending 12th February.*—Weather rather cloudy. Crops have been slightly damaged by frost in Jabalpur and Saugor; wheat and other *rabi* crops have suffered to some extent for want of rain in a few of the northern districts and in Bilaspur. Prospects generally favourable.

**Burma.**—*For week ending 8th February.*—No rain in Lower or Upper Burma. Some damage has been done to paddy on threshing floors by recent rain. In Pegu the damage is estimated at 4%, in Bassein 5%, in Shwegyin 15%, and in Amherst 50%. In Lower Burma there is a fall in the price of paddy in one and a rise in four districts. In Upper Burma there is a rise in the price at Yamethen and a fall in Pyinmana, elsewhere prices show no fluctuations.

**Assam.**—*For week ending 12th February.*—No rain. Weather seasonable. Ploughing for summer rice, gathering of mustard and pressing of sugarcane progressing. Tea doing well.

**Mysore and Coorg.**—*For week ending 12th February.*—Standing crops in good condition in Mysore. Paddy and sugarcane sown in parts. Outturn of harvests and prospects generally favourable. Prices slightly risen in Bangalore. Coffee picked in Coorg.

**Berar and Hyderabad.**—*For week ending 12th February.*—Weather temperate and clear in Berar. Threshing of *jowari* and other *kharif* crops continues. *Rabi* in good condition. Picking of cotton almost completed. Fodder sufficient except in Ellichpur taluk. Prices stationary. Land being tilled for next season.

Standing crops good except in Kerowli and parts of Alwar; slight damage done by frost in parts of Meywar, Harowti, Bhurtpore and Jeypore. Agricultural stock good. Pasturage or fodder sufficient except in Marwar, Dholpur and parts of Alwar. Prices steady generally.

**Nepal.**—*For week ending 6th February.*—No rain. Weather foggy and at times cloudy. Progress of wheat and other spring crops retarded owing to want of rain.

**No. 634-I.**—The Governor-General in Council is pleased to publish the following rules made under sections 25, 27 and 33 of the Hyderabad Assigned Districts Births, Deaths and Marriages Registration Law, 1888:—

1. In these rules, unless there is something repugnant in the subject or context,—

- (1) "the Law" means the Hyderabad Assigned Districts Births, Deaths and Marriages Registration Law, 1888;
- (2) "schedule" means a schedule to these rules;
- (3) "Registrar General" and "Registrar" mean, respectively, a Registrar-General of Births, Deaths and Marriages and a Registrar of Births and Deaths appointed under the Law; and
- (4) "sign," used with reference to a person who is unable to write his name, includes mark.

2. Notices of births and deaths shall be in the forms set forth in schedule A and Schedule B respectively.

3. Every such notice shall be signed by the person giving it, and shall specify the capacity in which the person claims to be authorized to give it.

4. Every such notice shall ordinarily be presented to the Registrar for the local area in which the birth or death occurred within three months of the date of the birth or death to which it refers, as the case may be:

Provided that the Registrar may, of his own authority, for any reason which he considers sufficient, accept notice of a birth or death at any time within six months from the date of its occurrence, and with the special sanction in writing of the Registrar-General after that time.

5. An appeal against an order of a Registrar refusing to register a birth or death on any other ground than that referred to in proviso (a) to section 18 of the Law shall lie to the Registrar-General, who may, in his discretion, either confirm the order of the Registrar, or direct him to register the birth or death.

6. Registers of births and deaths shall be kept in the forms set forth in Schedule C and Schedule D respectively.

7. When a birth or death has occurred during a journey, or when the person giving notice of a birth or death was compelled by duty, or urgent necessity, or unavoidable accident, to leave the local area in which such birth or death occurred so soon after its occurrence that he was unable to give the prescribed notice to the Registrar for that local area, any Registrar may receive notice of such birth or death, and register the same as if it were a birth or death which had occurred within the local area for which he has been appointed.

8. The provisions of Rule 4, as to the time within which notice of a birth or death must be given, shall apply to every notice of a birth or death given under the circumstances described in the last foregoing rule.

9. In every case of a birth or death admitted to registration under Rule 7, the Registrar to whom the notice of the birth or death is given shall record in his register the reason why the notice was not given to the Registrar of the local area within which the birth or death occurred, and shall within one week from the date of the registration of the birth or death forward to the Registrar-General, and to the Registrar of the local area within which the birth or death occurred, a copy of the entry in the register relating to the birth or death.

Every Registrar shall paste into a book kept by him for the purpose all copies of entries received by him under this rule, and the book containing the copies shall be, at all reasonable times, open to inspection by any person desiring to inspect it.

10. Every certificate of registration of a birth or death given by a Registrar under section 22 of the Law shall be in the form set forth in Schedule E.

11. At the foot of every copy of an entry given under section 9 or section 24 of the Law, there shall be written a certificate, dated and subscribed by the Registrar-General or officer authorized under section 9, or by the Registrar, as the case may be, that the copy is a true copy of the entry.

12. Every Registrar shall keep, in the form set forth in Schedule F, a register of all certificates of registration and copies of entries given by him.

The Registrar-General shall keep a register in a similar form of all copies given by him of entries in the certified copies of the registers sent to his office.

13. The copies of entries of births and deaths which Registrars are required by section 23 of the Law to send to the Registrar-General shall be certified in the form set forth in Schedule G, and shall be sent at intervals of three months, on or as nearly as possible after the 1st January, April, July, and October in each year.

Should no entries be made in a register during the preceding three months, a certificate to this effect shall be sent to the Registrar-General.

14. The indexes which are required by section 7 of the Law to be made of the certified copies of registers of births, deaths and marriages sent to the office of the Registrar-General shall be in the forms set forth in Schedule H, Schedule I and Schedule J, respectively.

Every entry in an index shall be made alphabetically with reference to the initial letter of the name of the person indicated by the entry.

In the index of certified copies of entries of marriages, the names of both the husband and the wife must be indexed.

In the case of a person of European descent, the initial letter will be the first letter of the surname; and in the case of any other person, the first letter of his name, and not that of his rank, title or class.

15. A Registrar may, of his own motion, correct, in manner prescribed in section 27 of the Law, any error in form made in an entry of a birth or death in a register of births or register of deaths kept by him under the Law.

In every case in which an entry is corrected under this rule, intimation thereof shall (if practicable) be communicated, within one week from the date of the correction being made, to the person who gave the notice of the birth or death.

16. When an error in substance in any entry of a birth or death in a register of births or register of deaths is asserted to have been made, the Registrar may correct the error, in manner prescribed in section 27 of the Law, on application made in writing, and signed in the presence of two witnesses attesting the signature, by any person authorised under section 19 or 20, as the case may be, to give notice of the birth or death to which the entry relates:

## REVENUE DEPARTMENT.

### A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,  
Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 550 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India R30 and in England 6 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees a annas per volume.

For copies bound in half calf or half morocco, R6 and 8 shillings respectively, will be charged extra for the whole sets.

\*No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be R45 in India, and 3 guineas in England, exclusive of packing and postage.
